

Procedure that must be performed to make this request:

1. Print or make an identical copy by hand filling in the information legibly and without erasures;
2. Scan or take a photo with the information already filled in and email it to: **support@whatsappauthbot.com**.
3. All information must be filled in correctly, thus preventing your request from being denied.

Request to delete data in the database

Username: **User ID:**

I hereby request the definitive deletion of my data, for the following reason:

If you are making this **copy by hand**, copy only the alternative that meets your request.

- () I no longer intend to use the commands/functions of this bot.
- () I feel like I'm not safe sharing my WhatsApp number with the bot.
- () Lack of support, service in the maintenance of the bot, as well as its commands and functions.
- () I already have an account and I want to link the same number to another account.
- () I am banned from using bot functions.
- () I reached the maximum number limit.
- () Other reasons:

I understand that by placing this order:

If you are making this **copy by hand**, copy the two tags below.

- **All my data will be permanently deleted** and I will not be able to restore it.
- The account associated with the number will be blacklisted and I will not be able to use the account for further validations nor its commands and functions.

With the clarification of this information, I confirm this request.
