KAME

## MAKE A REAL WORLD IMPACT

KAME ECOSYSTEM

KAME
OVERVIEW

KAME operates on Base Chain, an EVM based blockchain (Layer-2 ETH).

1. KAME CHARITY

A zero-gas, lightning-speed decentralized exchange (DEX) that leverages the Uniswap protocol's principles to facilitate peer-to-peer cryptocurrency exchanges.

2. KAME CHARITY TELEGRAM BOT

A zero-gas, lightning-speed decentralized exchange (DEX) that leverages the Uniswap protocol's principles to facilitate peer-to-peer cryptocurrency exchanges.

KAME'S

NATIVE CHAIN

Base Chain is a powerful Layer 2 built on the Optimism Stack and backed by Coinbase, offering fast, low-cost transactions with Ethereum-level security. What sets it apart is its seamless onboarding for new users through Coinbase, a strong culture of memes and builders, and a rapidly growing ecosystem with less competition.

It's EVM-compatible, developer-friendly, and designed for mass adoption making it a go-to chain for creators, traders, and anyone looking to thrive in crypto with fewer barriers and more upside.

Base Chain is powerful not just because it's backed by **Coinbase** — but because it combines scalability, accessibility, and native crypto culture in ways few other L2s do.

What Makes Base is So Powerful?

Backed by Coinbase — But Open for Everyone
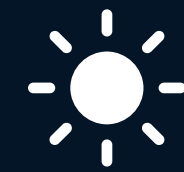

Built on Optimism Stack = Fast, Cheap, Secure
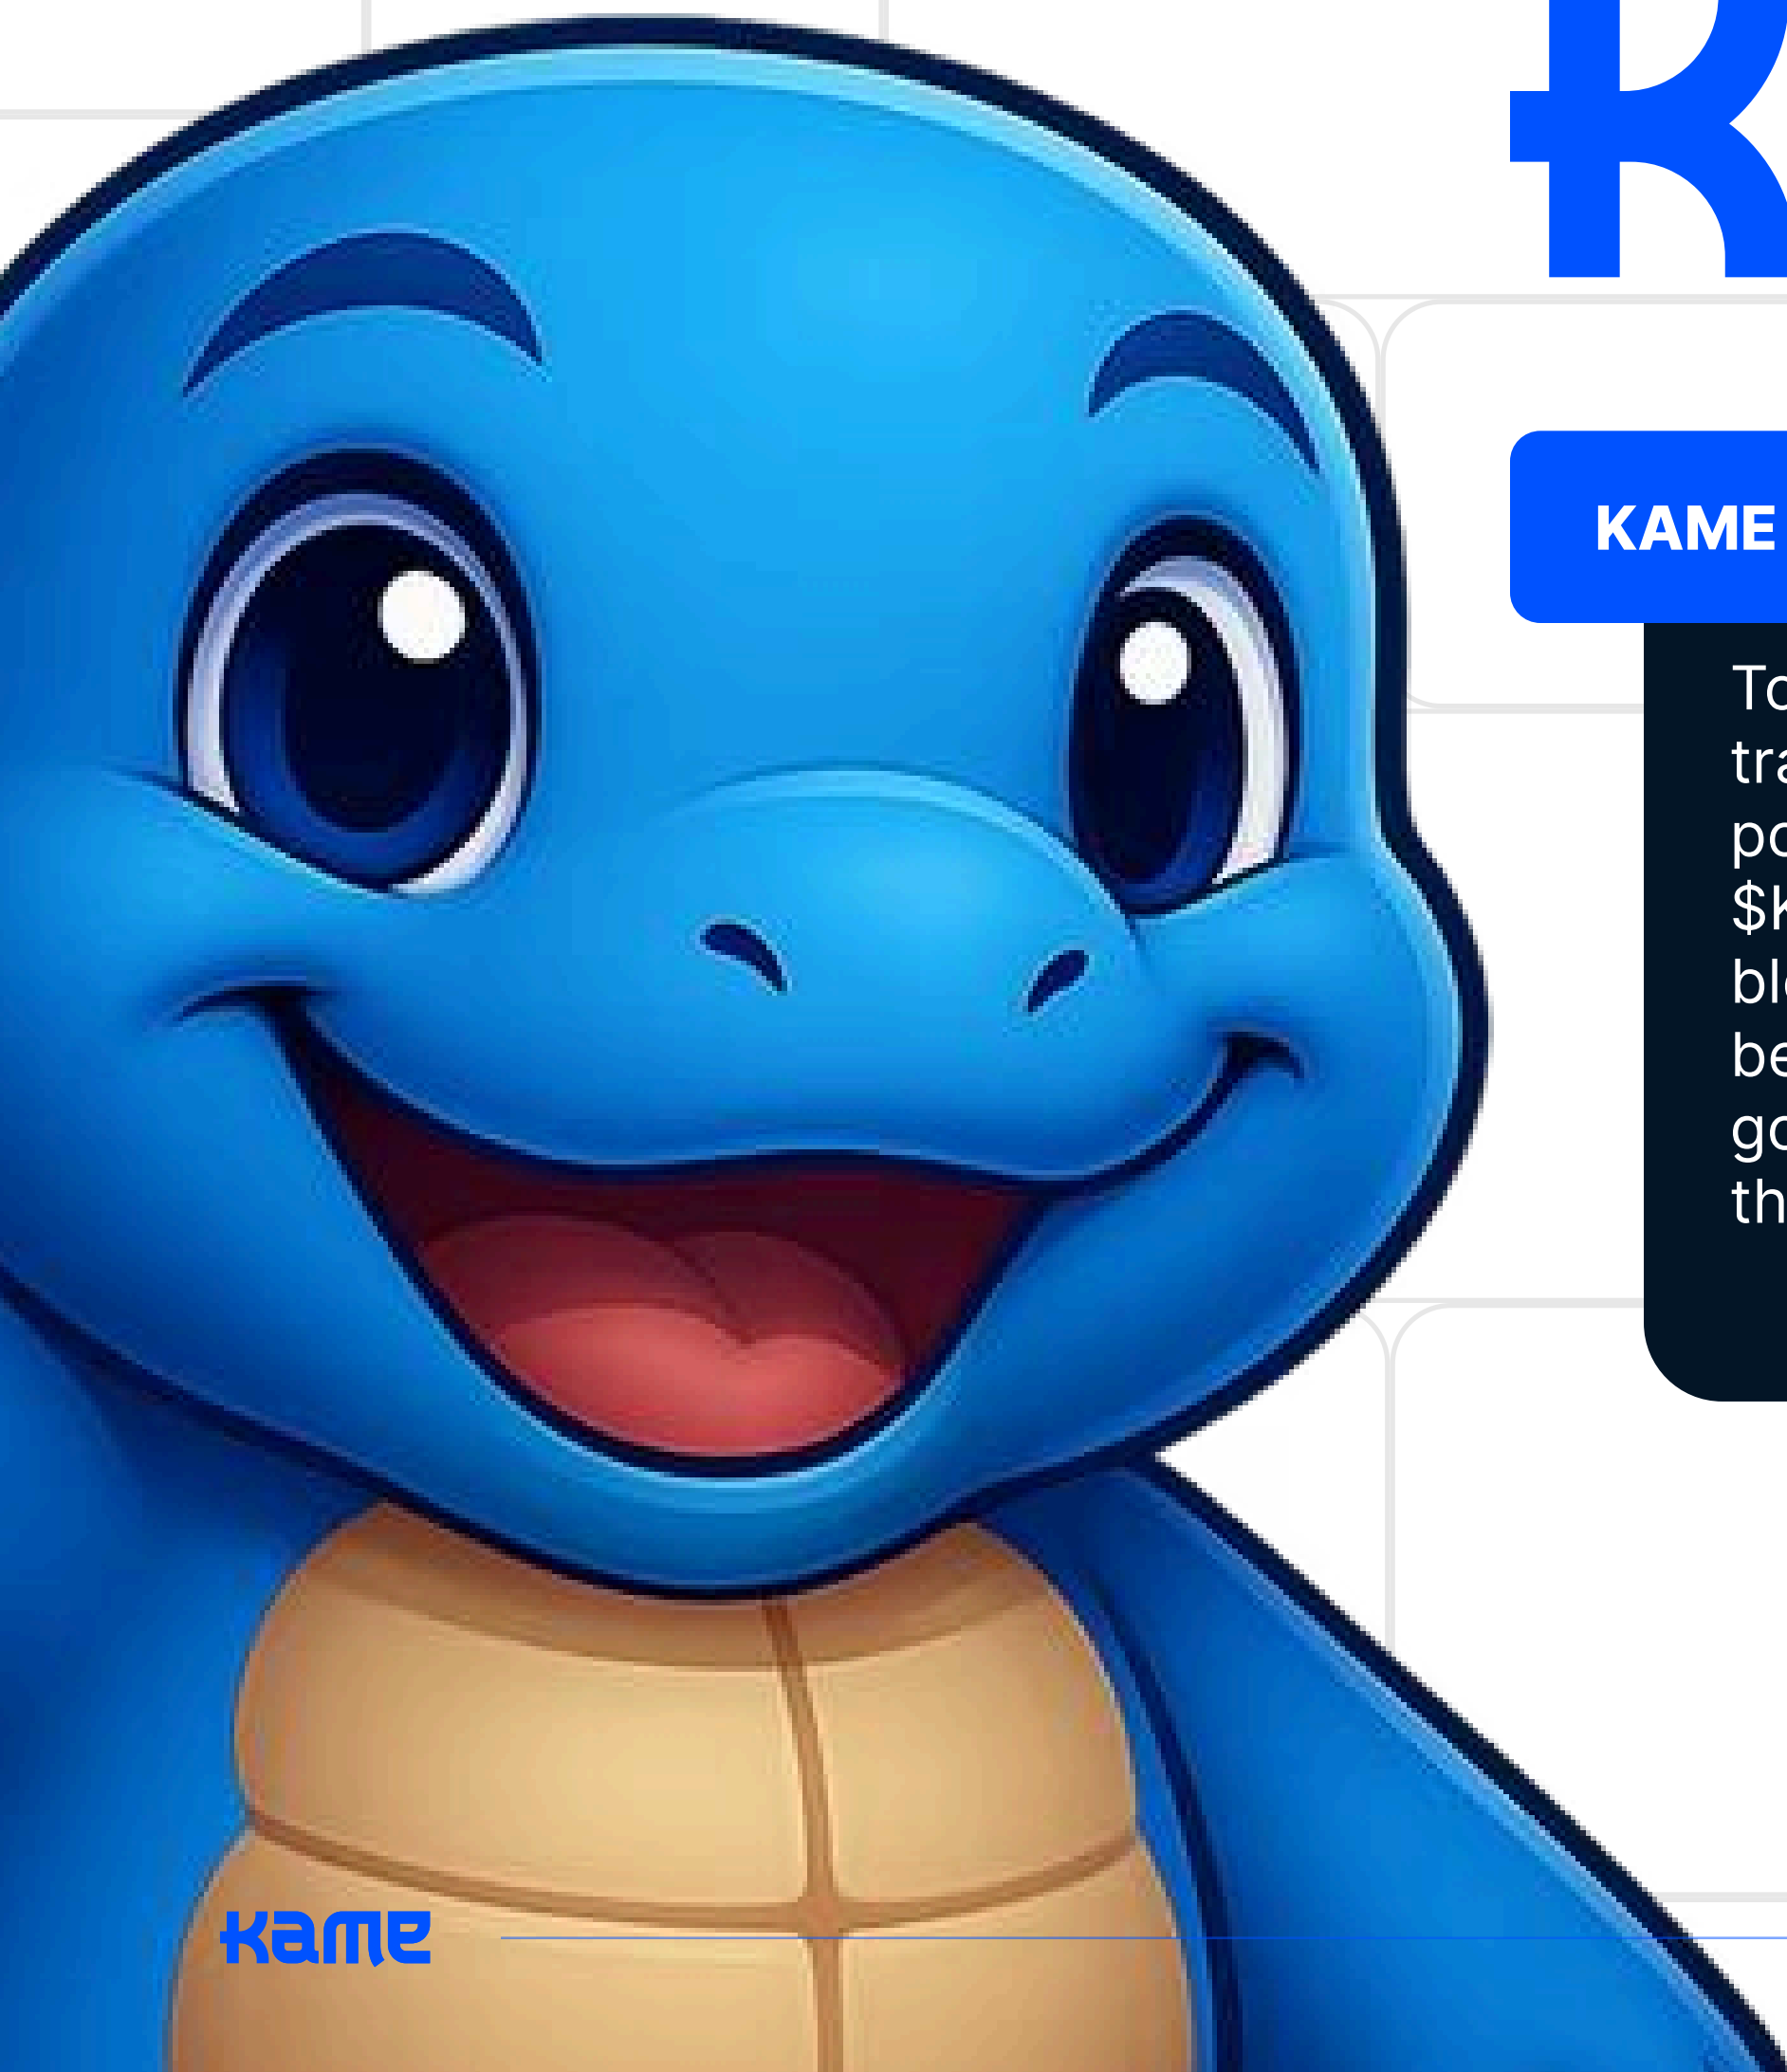

Frictionless Onboarding for New Users

Growing Ecosystem + Low Competition

Seamless Bridge Between L1 and L2

Developer-Friendly Infrastructure

KAME

KAME VISION

To redefine the role of memecoins by transforming viral culture into a powerful vehicle for real-world impact. $KAME envisions a future where blockchain-based communities go beyond speculation — driving social good, transparency, and utility across the globe.

KAME MISSION

$KAME's mission is to build a sustainable, community-powered memecoin ecosystem that channels attention, humor, and innovation into lasting charitable outcomes. By leveraging the Base Network, decentralized governance, and transparent donation mechanisms, we empower holders to create meaningful change — one meme at a time.

Kame

KAME

TOKENOMIC

The total supply of KAME is

1,000,000,000

No more than this amount will ever exist. This means that there will be no inflation of KAME.

No Mint: KAME cannot be minted. Supply can only decrease.

Renounced Contract: The token contract ownership is renounced.

100% LP Locked: All Liquidity Locked since we launched from Ape.Store

KAME Contract Address (CA): 0×2f0464A5DA04B3091A328D89183237ffde47e62d

KAME

kameonbase.com

The initial distribution of KAME (KAME) tokens was as follows:

5% Dev Supply

5% Marketing Supply

5% Staking Reward Pool

5% Will be use as Liquidity Pool

LP Fees Allocation

50% Ape Store

15% Creator

15% Buyback

10% Marketing

10% Charity

KAME
ROADMAP

- Launching on Ape Store
- Updating Basescan
- Updating Dexscreener
- Building Charity Platform on Base
- Reaching 250k Marketcap
- Partner with 5 Real Projects on Base

- Building Cross-chain Charity Platform
- Reaching 1M Marketcap
- Partner with 25 Real Projects on Base
- Coinmarketcap Listing
- More to comes...

Quarter 4 - 2025 (September - December)

Quarter 3 - 2025 (July - August)

Quarter 1 - 2026 (January - April)

- Building Charity Telegram Bot
- Reaching 500k Marketcap
- Staking Reward Pool
- Adding Aerodrome LP
- Reaching 500k Marketcap
- Partner with 10 Real Projects on Base
- Coingecko Listing Without Fast-Track
