

Dictionary Dataset Specification (A-C)

The "Dictionary Dataset Specification" is designed to standardize and organize essential healthcare-related data across various domains. This dataset plays a critical role in ensuring data consistency, supporting interoperability, and enabling precise data management across healthcare systems. It contains a wide array of reference tables that cover operational, clinical, and administrative aspects of healthcare. These dictionaries are pivotal for maintaining uniformity in data interpretation, enhancing decision-making, and ensuring compliance with healthcare standards and regulations.

Key components of this dataset include:

- **Dictionary Address Type:** Standardizes address types used across healthcare records for accurate patient and provider information.
- **Dictionary Alert:** Defines various types of alerts related to patient care, such as clinical or administrative warnings.
- **Dictionary Appeal Due Date Change Reason:** Captures standardized reasons for modifying appeal due dates, ensuring clear documentation and compliance in appeals processing.
- **Dictionary Appeal Levels, Types, Process, and Status:** Ensures consistent tracking and categorization of appeals, enabling clear resolution paths for patient grievances.
- **Dictionary Application Config & User Type:** Manages application-specific configurations and user types for system access control and customization.
- **Dictionary Attributed Provider Type & Audit Log:** Provides standard references for healthcare provider types and system audit classifications, essential for compliance and operational transparency.
- **Dictionary Auto Approval Rules:** Defines rules and types for automatic approvals, streamlining operational workflows while maintaining regulatory compliance.

- **Dictionary Axis, Barriers, and Social Problems:** Standardizes terms for documenting social determinants of health and barriers to care, supporting patient-centric care plans.
- **Dictionary Bed Type & Care Management Types:** Ensures consistency in documenting facility resources and care management approaches to optimize patient care coordination.
- **Dictionary Cost & Cost Saving Categories:** Organizes financial data related to healthcare services, helping healthcare organizations track costs, savings, and cost void reasons.
- **Dictionary Condition Categories & Coding Schemes:** Standardizes clinical diagnosis categories and coding schemes to ensure uniformity in diagnostic and procedural data.
- **Dictionary Enrollment, Gender, and Demographic Attributes:** Captures demographic data related to patient enrollment, gender, marital status, and member engagement for comprehensive patient profiling.
- **Dictionary Goals, Outcomes, and Treatment Settings:** Defines clinical goals, outcomes, and treatment settings to support patient-centered care and track progress throughout healthcare programs.
- **Dictionary Language & Preferred Contact Method:** Ensures accurate documentation of patient language preferences and communication methods, facilitating improved patient engagement.
- **Dictionary Problem Status, Types, and Solutions:** Standardizes documentation for clinical problems and outcomes, ensuring accurate tracking and resolution of health issues.
- **Dictionary Program & Provider Roles:** Tracks healthcare programs and roles of participating providers to facilitate coordination across multidisciplinary teams.
- **Dictionary Service, Product, and Specialty:** Organizes services, products, and provider specialties to ensure consistent billing, referrals, and clinical service documentation.
- **Dictionary Security Resource & Permissions Elements:** Controls access to system resources by defining security roles and permissions, ensuring compliance with healthcare security standards.
- **Dictionary Task Types & Outcomes:** Manages task types, reasons, and outcomes within healthcare operations to streamline workflows and improve task management.
- **Dictionary Treatment Types & Units of Measure:** Ensures consistent documentation of treatment types, settings, and units of measure across various healthcare disciplines.

Each dictionary within the dataset serves a vital function in structuring and standardizing healthcare data, supporting better data management, analytics, and operational efficiency across the healthcare ecosystem. This dataset plays a pivotal role in ensuring data integrity and interoperability, enhancing clinical decision-making, and ensuring regulatory compliance within healthcare organizations.

Dictionary Account

Column Name	Is Nullable	Data Type	Description
Account_Code	YES	STRING	A unique code identifying the account in the dictionary.
Account_Description	YES	STRING	A detailed description of the account, providing context and purpose within the dictionary.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the account entry becomes effective.

Column Name	Is Nullable	Data Type	Description
Created_User_ID	YES	STRING	The identifier of the user who created the account entry in the dictionary.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the account entry was initially created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the account entry.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp of the most recent modification to the account entry.
Active	YES	STRING	Indicates whether the item is active.

Dictionary Address Type

Column Name	Is Nullable	Data Type	Description
Address_Type	YES	STRING	Type of address (e.g., mailing, billing, residential).
Address_Type_Description	YES	STRING	Detailed description of the address type.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Adjustment Type Translation

Column Name	Is Nullable	Data Type	Description
Source_Adjustment_Type_Code	YES	STRING	The code representing the adjustment type in the source system.
Target_Adjustment_Type_Code	YES	STRING	The code representing the adjustment type in the target system.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the translation becomes effective.
Created_User_ID	YES	STRING	The identifier of the user who created the adjustment type translation entry.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the adjustment type translation entry was initially created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the adjustment type translation entry.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp of the most recent modification to the adjustment type translation entry.

Dictionary Admission Source

Column Name	Is Nullable	Data Type	Description
Admission_Source_Code	YES	STRING	Code representing the specific source of admission.
Admission_Source_Description	YES	STRING	Detailed description of the admission source.
Admission_Source_Category	YES	STRING	Category or classification of the admission source.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating when this admission source definition becomes effective.
Created_User_ID	YES	STRING	Identifier of the user who created this admission source entry.
Created_Timestamp	YES	TIMESTAMP	Timestamp of when this admission source entry was created.
Last_Modified_User_ID	YES	STRING	Identifier of the user who last modified this admission source entry.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to this admission source entry.

Dictionary Admission Type

Column Name	Is Nullable	Data Type	Description
Admission_Type_Code	YES	STRING	A unique code representing the type of admission, such as elective, emergency, or urgent.
Admission_Type_Description	YES	STRING	A detailed description of the type of admission, providing clarity on the admission process.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the admission type becomes effective.
Created_User_ID	YES	STRING	The identifier of the user who created the admission type entry.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the admission type entry was initially created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the admission type entry.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp of the most recent modification to the admission type entry.
Admission_Type_Code	YES	STRING	A unique code representing the type of admission, such as elective, emergency, or urgent.

Dictionary Alert

Column Name	Is Nullable	Data Type	Description
Alert	YES	STRING	Indicates an alert or notification associated with a specific condition or event.

Column Name	Is Nullable	Data Type	Description
Alert_Description	YES	STRING	Explanation of the alert.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Appeal Due Date Change Reason

Column Name	Is Nullable	Data Type	Description
Appeal_Due_Date_Reason	YES	STRING	Reason for changing the due date of an appeal.
Appeal_Due_Date_Reason_Description	YES	STRING	Detailed description of the appeal due date change reason.
Reconsideration_Type	YES	STRING	Type of reconsideration associated with this appeal due date reason.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Appeal Level

Column Name	Is Nullable	Data Type	Description
Appeal_Level	YES	STRING	Level of appeal.
Appeal_Level_Description	YES	STRING	Explanation of the appeal level.

Column Name	Is Nullable	Data Type	Description
Reconsideration_Type	YES	STRING	Type of reconsideration associated with this appeal due date reason.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Appeal Process Type

Column Name	Is Nullable	Data Type	Description
Appeal_Process_Type	YES	STRING	Type of appeal process.
Appeal_Process_Type_Description	YES	STRING	Detailed description of the appeal process type.
Reconsideration_Type	YES	STRING	Type of reconsideration associated with this appeal due date reason.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Appeal Process Type Appeal Level Mapping

Column Name	Is Nullable	Data Type	Description
Appeal_Process_Type	YES	STRING	Type of the appeal process.
Appeal_Level	YES	STRING	Level of the appeal.
Active	YES	STRING	Indicates if the appeal process type is active.

Column Name	Is Nullable	Data Type	Description
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp when the appeal process type became effective.
Created_User_ID	YES	STRING	Identifier for the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp when the record was created.
Last_Modified_User_ID	YES	STRING	Identifier for the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp when the record was last modified.
Reconsideration_Type	YES	STRING	Type of reconsideration associated with this appeal level mapping.

Dictionary Appeal Reason

Column Name	Is Nullable	Data Type	Description
Appeal_Reason	YES	STRING	Reason for initiating an appeal.
Appeal_Reason_Description	YES	STRING	Additional information explaining the appeal reason.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.
Reconsideration_Type	YES	STRING	Type of reconsideration associated with this appeal reason.

Dictionary Appeal Requestor

Column Name	Is Nullable	Data Type	Description
Appeal_Requestor	YES	STRING	Entity or individual requesting the appeal.
Appeal_Requestor_Description	YES	STRING	Description of the appeal requestor.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.

Column Name	Is Nullable	Data Type	Description
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Appeal Reviewer

Column Name	Is Nullable	Data Type	Description
Appeal_Reviewer	YES	STRING	Person or entity responsible for reviewing the appeal.
Appeal_Reviewer_Description	YES	STRING	Detailed description of the appeal reviewer.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Appeal Source

Column Name	Is Nullable	Data Type	Description
Appeal_Source	YES	STRING	Source or origin of the appeal (e.g., member, provider, payer).
Appeal_Source_Description	YES	STRING	Explanation of the appeal source.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.

Column Name	Is Nullable	Data Type	Description
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.
Reconsideration_Type	YES	STRING	Type of reconsideration associated with this appeal source.

Dictionary Appeal Status

Column Name	Is Nullable	Data Type	Description
Appeal_Status	YES	STRING	Current status of the appeal (e.g., pending, approved, denied).
Appeal_Status_Description	YES	STRING	Detailed description of the appeal status.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.
Reconsideration_Type	YES	STRING	Type of reconsideration associated with this appeal status.

Dictionary Appeal Type

Column Name	Is Nullable	Data Type	Description
Appeal_Type	YES	STRING	Type of appeal (e.g., medical necessity, claim denial).
Appeal_Type_Description	YES	STRING	Explanation of the appeal type.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Column Name	Is Nullable	Data Type	Description
Reconsideration_Type	YES	STRING	Type of reconsideration associated with this appeal type.

Dictionary Appeal Type Appeal Level Mapping

Column Name	Is Nullable	Data Type	Description
Appeal_Type	YES	STRING	Type of the appeal.
Appeal_Level	YES	STRING	Level of the appeal.
Active	YES	STRING	Indicates if the appeal type is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp when the appeal type became effective.
Created_User_ID	YES	STRING	Identifier for the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp when the record was created.
Last_Modified_User_ID	YES	STRING	Identifier for the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp when the record was last modified.
Reconsideration_Type	YES	STRING	Type of reconsideration associated with this appeal level mapping.

Dictionary Application Config

Column Name	Is Nullable	Data Type	Description
Application_Config_Code	YES	STRING	Code representing a specific configuration setting or parameter in an application.
Application_Config_Value	YES	STRING	Value associated with the application configuration code.
Application_Config_Code_Description	YES	STRING	Detailed description of the application configuration code.
Application_Config_Category	YES	STRING	Category or group to which the application configuration belongs.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.

Column Name	Is Nullable	Data Type	Description
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Application User Type

Column Name	Is Nullable	Data Type	Description
Application_User_Type	YES	STRING	Type of user accessing the application (e.g., member, provider, administrator).
Application_User_Type_Description	YES	STRING	Explanation of the application user type.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Appointment Event Type

Column Name	Is Nullable	Data Type	Description
Event_Type_Code	YES	STRING	A unique code assigned to identify a specific type of appointment event.
Event_Type_Description	YES	STRING	A detailed description of the appointment event type.
Related_Entity	YES	STRING	The entity (e.g., patient, provider) to which this event type is related.
Minutes_Before	YES	STRING	The number of minutes before the appointment that this event occurs.
Appointment_Time_Minutes	YES	STRING	The duration of the appointment in minutes.
Minutes_After	YES	STRING	The number of minutes after the appointment that this event occurs.
Reminder_Hours	YES	STRING	The number of hours before the appointment when a reminder should be sent.
Active	YES	STRING	Indicates whether this appointment event type is currently active or in use.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which this appointment event type became or will become effective.
Created_User_ID	YES	STRING	The user ID of the person who created this appointment event type entry.
Created_Timestamp	YES	TIMESTAMP	The timestamp when this appointment event type entry was created.

Column Name	Is Nullable	Data Type	Description
Last_Modified_User_ID	YES	STRING	The user ID of the person who last modified this appointment event type entry.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when this appointment event type entry was last modified.

Dictionary Attachment Category

Column Name	Is Nullable	Data Type	Description
Attachment_Category	YES	STRING	Category of the attachment.
Attachment_Category_Description	YES	STRING	Description of the attachment category.
Active	YES	STRING	Indicates if the attachment category is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp when the attachment category became effective.
Created_User_ID	YES	STRING	Identifier for the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp when the record was created.
Last_Modified_User_ID	YES	STRING	Identifier for the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when this attachment category entry was last modified.

Dictionary Attachment File Type

Column Name	Is Nullable	Data Type	Description
Attachment_File_Type	YES	STRING	Code or identifier representing a specific type of attachment file.
Attachment_File_Type_Description	YES	STRING	Detailed explanation of the attachment file type.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating when this attachment file type definition becomes effective.
Created_User_ID	YES	STRING	Identifier of the user who created this attachment file type entry.
Created_Timestamp	YES	TIMESTAMP	Timestamp of when this attachment file type entry was created.
Last_Modified_User_ID	YES	STRING	Identifier of the user who last modified this attachment file type entry.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to this attachment file type entry.

Dictionary Attributed Provider Type

Column Name	Is Nullable	Data Type	Description
Attributed_Provider_Type	YES	STRING	Type of healthcare provider attributed to a specific member or population.
Attributed_Provider_Type_Code	YES	STRING	A code assigned to represent the attributed provider type.
Attributed_Provider_Type_Descripti on	YES	STRING	Detailed description of the attributed provider type.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Audit Log Class

Column Name	Is Nullable	Data Type	Description
Audit_Log_Class	YES	STRING	Classification or category of audit log entries (e.g., security, data access).
Audit_Log_Class_Description	YES	STRING	Explanation of the audit log class.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Audit Log Data Point

Column Name	Is Nullable	Data Type	Description
Audit_Log_Data_Point	YES	STRING	Specific data point or event captured in the audit log (e.g., login attempt, data modification).
Audit_Log_Data_Point_Description	YES	STRING	Detailed description of the audit log data point.

Column Name	Is Nullable	Data Type	Description
Audit_Log_Class	YES	STRING	Audit log data point class.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Audit Transaction Type

Column Name	Is Nullable	Data Type	Description
Audit_Transaction_Type	YES	STRING	Type of transaction recorded in the audit log (e.g., read, write, delete).
Audit_Transaction_Type_Description	YES	STRING	Explanation of the audit transaction type.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Auto Approval Rule

Column Name	Is Nullable	Data Type	Description
Auto_Approval_Rule_Key	YES	STRING	Unique key or identifier for an automated approval rule.
Auto_Approval_Rule_Type	YES	STRING	Type or category of automated approval rule (e.g., cost-saving, medical necessity).
Auto_Approval_Rule_Name	YES	STRING	Name or label for the automated approval rule.
Auto_Approval_Rule_Description	YES	STRING	Detailed description of the automated approval rule.
Auto_Approval_Status	YES	STRING	Indicates whether an automated approval was granted or denied.

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates whether the item is active.
Active_Date	YES	TIMESTAMP	Indicates the date from which the rule is active.
Inactive_Date	YES	TIMESTAMP	Indicates the date from which the rule is inactive.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Auto Approval Rule Type

Column Name	Is Nullable	Data Type	Description
Auto_Approval_Rule_Type	YES	STRING	Type of the automated approval rule.
Auto_Approval_Rule_Type_Description	YES	STRING	Explanation of the automated approval rule type.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Availity Treatment Setting

Column Name	Is Nullable	Data Type	Description
Treatment_Setting	YES	STRING	A code or identifier representing a specific treatment setting in the Availity system.
Treatment_Setting_Description	YES	STRING	A detailed description of the treatment setting.
Active	YES	STRING	Indicates whether this treatment setting is currently active or in use.

Column Name	Is Nullable	Data Type	Description
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which this treatment setting entry became or will become effective.
Created_User_ID	YES	STRING	The user ID of the person who created this treatment setting entry.
Created_Timestamp	YES	TIMESTAMP	The timestamp when this treatment setting entry was created.
Last_Modified_User_ID	YES	STRING	The user ID of the person who last modified this treatment setting entry.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when this treatment setting entry was last modified.

Dictionary Axis

Column Name	Is Nullable	Data Type	Description
Axis	YES	STRING	Represents a specific dimension or category (e.g., time, geography) in data analysis.
Axis_Description	YES	STRING	Detailed description of the axis.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Axis Social Problem

Column Name	Is Nullable	Data Type	Description
Social_Problem	YES	STRING	Social issue or problem relevant to healthcare (e.g., substance abuse, homelessness).
Social_Problem_Description	YES	STRING	Explanation of the social problem.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Barrier

Column Name	Is Nullable	Data Type	Description
Barrier	YES	STRING	Obstacle or challenge affecting healthcare access or outcomes (e.g., language barrier, transportation).
Barrier_Description	YES	STRING	Detailed description of the barrier.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Bed Type

Column Name	Is Nullable	Data Type	Description
Bed_Type	YES	STRING	Type of hospital bed (e.g., general ward, intensive care unit).
Bed_Type_Description	YES	STRING	Explanation of the bed type.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary BENG Letter Custom Field Mapping

Column Name	Is Nullable	Data Type	Description
Access_Point	YES	STRING	The access point for the custom field mapping.

Column Name	Is Nullable	Data Type	Description
Created_Timestamp	YES	TIMESTAMP	The timestamp when the custom field mapping was created.
Created_User_ID	YES	STRING	The ID of the user who created the custom field mapping.
Custom_Field_ID	YES	STRING	The ID of the custom field.
Description	YES	STRING	The description of the custom field mapping.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the custom field mapping is effective.
Field	YES	STRING	The field name associated with the custom field mapping.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the custom field mapping was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the custom field mapping.
Section	YES	STRING	The section associated with the custom field mapping.

Dictionary Business Categories List

Column Name	Is Nullable	Data Type	Description
Account_Code	YES	STRING	The code of the account.
Active	YES	STRING	Indicates if the business categories list is active.
Business_Categories_List_ID	YES	STRING	The unique identifier of the business categories list.
Carrier_Code	YES	STRING	The code of the carrier.
Client_Code	YES	STRING	The code of the client.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the business categories list was created.
Created_User_ID	YES	STRING	The ID of the user who created the business categories list.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the business categories list is effective.
Group_ID	YES	STRING	The unique identifier of the group.
LOB_Code	YES	STRING	The code of the line of business.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the business categories list was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the business categories list.
Plan_Code	YES	STRING	The code of the plan.

Column Name	Is Nullable	Data Type	Description
Section_ID	YES	STRING	The unique identifier of the section.
SubClient_Code	YES	STRING	The code of the subclient.

Dictionary CCS 9 10 Multi Diagnosis Tool

Column Name	Is Nullable	Data Type	Description
CCS_Diagnosis_Code	YES	STRING	A unique code representing a specific Clinical Classification Software (CCS) diagnosis.
CCS_Category	YES	STRING	The category under which the CCS diagnosis falls, grouping similar diagnoses for analysis.
CCS_Diagnosis_Description	YES	STRING	A detailed description of the CCS diagnosis, providing additional context and clarity.
CCS_Category_Description	YES	STRING	A description of the CCS category, offering further explanation about the grouping or classification.
CCS_Level_1	YES	STRING	The first hierarchical level of classification within the CCS tool, representing broader diagnostic groups.
CCS_Level_1_Label	YES	STRING	The label associated with the first level of CCS classification, offering a descriptive name for the group.
CCS_Level_2	YES	STRING	The second hierarchical level of classification within the CCS tool, representing more specific groups.
CCS_Level_2_Label	YES	STRING	The label associated with the second level of CCS classification, offering a descriptive name for the subgroup.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the CCS diagnosis or classification became effective.
Created_User_ID	YES	STRING	The identifier of the user who created the CCS diagnosis or classification entry.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the CCS diagnosis or classification entry was initially created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the CCS diagnosis or classification entry.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp of the most recent modification made to the CCS diagnosis or classification entry.

Dictionary CareWebQI Guideline

Column Name	Is Nullable	Data Type	Description
Guideline_Code	YES	STRING	Code representing a specific clinical guideline or recommendation.
Guideline_Name	YES	STRING	Name or label for the clinical guideline.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.

Column Name	Is Nullable	Data Type	Description
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary CareWebQI Review Status

Column Name	Is Nullable	Data Type	Description
Status	YES	STRING	Current status of a particular entity (e.g., active, inactive).
Status_Description	YES	STRING	Detailed description of the status.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Care Management Type

Column Name	Is Nullable	Data Type	Description
Care_Management_Type	YES	STRING	Category or approach to managing patient care (e.g., disease management, case management).
Care_Management_Type_Description	YES	STRING	Explanation of the care management type.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary_Campaign

Column Name	Is Nullable	Data Type	Description
Campaign_Code	YES	STRING	The code of the campaign.
Campaign_Name	YES	STRING	The name of the campaign.
Campaign_Type	YES	STRING	The type of the campaign.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the campaign was created.
Created_User_ID	YES	STRING	The ID of the user who created the campaign.
Description	YES	STRING	The description of the campaign.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the campaign is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the campaign was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the campaign.
Schedule	YES	STRING	The schedule of the campaign.
Status	YES	STRING	The status of the campaign.

Dictionary Carrier

Column Name	Is Nullable	Data Type	Description
Carrier	YES	STRING	Insurance carrier or provider organization responsible for coverage.
Carrier_Description	YES	STRING	Explanation of the insurance carrier.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.
Active	YES	STRING	Indicates whether the item is active.

Dictionary Claim Line Unit Code

Column Name	Is Nullable	Data Type	Description
Unit_Type_Code	YES	STRING	A unique code representing the type of unit associated with a claim line, such as service or product units.
Unit_Type_Description	YES	STRING	A detailed description of the unit type, providing clarity about the nature of the units in claim lines.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the unit type code became effective for use in the system.
Created_User_ID	YES	STRING	The identifier of the user who created the unit type entry in the dictionary.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the unit type entry was initially created in the system.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the unit type entry in the dictionary.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp of the most recent modification to the unit type entry in the dictionary.

Dictionary Claim Status

Column Name	Is Nullable	Data Type	Description
Claim_Status_Code	YES	STRING	A unique code representing the status of a claim, such as "Pending," "Approved," or "Rejected."
Claim_Status_Description	YES	STRING	A detailed description of the claim status, providing additional context for the associated status code.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the claim status code became effective for use.
Created_User_ID	YES	STRING	The identifier of the user who created the claim status entry in the dictionary.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the claim status entry was initially created in the system.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the claim status entry in the dictionary.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp of the most recent modification to the claim status entry in the dictionary.

Dictionary Claim Type

Column Name	Is Nullable	Data Type	Description
Claim_Type_Code	YES	STRING	A unique identifier representing the type of claim, such as "Inpatient," "Outpatient," or "Pharmacy."
Claim_Type_Description	YES	STRING	A detailed description of the claim type, providing additional context for the associated type code.
Claim_Type_Code_Short	YES	STRING	A short or abbreviated version of the claim type code for simplified reference or reporting purposes.

Column Name	Is Nullable	Data Type	Description
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the claim type code became valid and active in the system.
Created_User_ID	YES	STRING	The unique identifier of the user who created the claim type entry in the dictionary dataset.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the claim type entry was initially added to the system.
Last_Modified_User_ID	YES	STRING	The unique identifier of the user who last updated or modified the claim type entry.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the claim type entry was last modified, reflecting the most recent update.

Dictionary Client

Column Name	Is Nullable	Data Type	Description
Client	YES	STRING	Client organization or entity served by the system (e.g., healthcare provider, employer).
Client_Description	YES	STRING	Description of the client organization.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Client Alias

Column Name	Is Nullable	Data Type	Description
Tenant	YES	STRING	The unique identifier representing the tenant within the healthcare system.
Alias	YES	STRING	A unique alias assigned to the client, used for identification or grouping purposes.
Effective_From_Timestamp	YES	TIMESTAMP	The date and time when the client alias became effective in the system.
Created_User_ID	YES	STRING	The unique identifier of the user who created the client alias record.
Created_Timestamp	YES	TIMESTAMP	The date and time when the client alias record was created.
Last_Modified_User_ID	YES	STRING	The unique identifier of the user who last modified the client alias record.

Column Name	Is Nullable	Data Type	Description
Last_Modified_Timestamp	YES	TIMESTAMP	The date and time when the client alias record was last updated in the system.

Dictionary Clinical Alert Type

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicator of whether the clinical alert type is currently active and available for use.
Code	YES	STRING	Unique code identifying the clinical alert type.
Created_Timestamp	YES	TIMESTAMP	Date and time when the clinical alert type record was created.
Created_User_ID	YES	STRING	Identifier of the user who created the clinical alert type record.
Description	YES	STRING	Descriptive text explaining the meaning of the clinical alert type.
Effective_From_Timestamp	YES	TIMESTAMP	Date and time from which the clinical alert type became effective.
Last_Modified_Timestamp	YES	TIMESTAMP	Date and time when the clinical alert type record was last modified.
Last_Modified_User_ID	YES	STRING	Identifier of the user who last modified the clinical alert type record.

Dictionary Coding Scheme

Column Name	Is Nullable	Data Type	Description
Coding_Scheme	YES	STRING	Standardized system for assigning codes to medical concepts (e.g., ICD-10, CPT).
Coding_Scheme_Description	YES	STRING	Detailed description of the coding scheme.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Communication Channel

Column Name	Is Nullable	Data Type	Description
Channel	YES	STRING	A code or identifier representing a specific communication channel.
Channel_Description	YES	STRING	A detailed description of the communication channel.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which this communication channel entry became or will become effective.
Created_User_ID	YES	STRING	The user ID of the person who created this communication channel entry.
Created_Timestamp	YES	TIMESTAMP	The timestamp when this communication channel entry was created.
Last_Modified_User_ID	YES	STRING	The user ID of the person who last modified this communication channel entry.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when this communication channel entry was last modified.

Dictionary Communication Preference Category

Column Name	Is Nullable	Data Type	Description
Preference_Category_Code	YES	STRING	A unique code assigned to identify a specific communication preference category.
Preference_Category_Name	YES	STRING	The name of the communication preference category.
Is_Internal	YES	STRING	Indicates whether this category is for internal use within the organization.
Default_Communication_Priority	YES	STRING	The default priority level assigned to communications in this category.
Can_Unsubscribe	YES	STRING	Indicates whether users can unsubscribe from communications in this category.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which this preference category entry became or will become effective.
Created_User_ID	YES	STRING	The user ID of the person who created this preference category entry.
Created_Timestamp	YES	TIMESTAMP	The timestamp when this preference category entry was created.
Last_Modified_User_ID	YES	STRING	The user ID of the person who last modified this preference category entry.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when this preference category entry was last modified.

Dictionary Communication Source

Column Name	Is Nullable	Data Type	Description
Source	YES	STRING	A code or identifier representing a specific source of communication.
Source_Description	YES	STRING	A detailed description of the communication source.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which this communication source entry became or will become effective.
Created_User_ID	YES	STRING	The user ID of the person who created this communication source entry.
Created_Timestamp	YES	TIMESTAMP	The timestamp when this communication source entry was created.
Last_Modified_User_ID	YES	STRING	The user ID of the person who last modified this communication source entry.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when this communication source entry was last modified.

Dictionary Communication Type

Column Name	Is Nullable	Data Type	Description
Communication_Type	YES	STRING	A code or identifier representing a specific type of communication.
Communication_Type_Description	YES	STRING	A detailed description of the communication type.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which this communication type entry became or will become effective.
Created_User_ID	YES	STRING	The user ID of the person who created this communication type entry.
Created_Timestamp	YES	TIMESTAMP	The timestamp when this communication type entry was created.
Last_Modified_User_ID	YES	STRING	The user ID of the person who last modified this communication type entry.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when this communication type entry was last modified.
Default_Preference_Category	YES	STRING	The default preference category associated with this communication type.

Dictionary Condition

Column Name	Is Nullable	Data Type	Description
Condition_Mapped	YES	STRING	Indicates if the condition has been mapped to a standard code or description.
Condition_Code	YES	STRING	The unique code assigned to the condition within the system.

Column Name	Is Nullable	Data Type	Description
Condition_Description	YES	STRING	A detailed description of the condition, providing clarity on its definition or classification.
Subcondition_Code	YES	STRING	The unique code assigned to a specific subcondition under the primary condition.
Subcondition_Description	YES	STRING	A detailed description of the subcondition associated with the primary condition.
Condition_Chronic_Flag	YES	STRING	Indicates whether the condition is classified as chronic (e.g., "Y" for Yes or "N" for No).
Source_Condition_Code	YES	STRING	The code for the condition as received from the source system or external dataset.
Chronic_Acute	YES	STRING	Indicates whether the condition is chronic, acute, or falls into another classification category.
Visibility_Level	YES	STRING	Specifies the level of visibility for the condition in the system, such as user or department-specific.
Effective_From_Timestamp	YES	TIMESTAMP	The date and time when the condition became effective in the system.
Created_User_ID	YES	STRING	The unique identifier of the user who created the condition record.
Created_Timestamp	YES	TIMESTAMP	The date and time when the condition record was created.
Last_Modified_User_ID	YES	STRING	The unique identifier of the user who last modified the condition record.
Last_Modified_Timestamp	YES	TIMESTAMP	The date and time when the condition record was last updated in the system.

Dictionary Condition Category

Column Name	Is Nullable	Data Type	Description
Condition_Category	YES	STRING	Category or group of related medical conditions (e.g., cardiovascular, respiratory).
Condition_Category_Description	YES	STRING	Explanation of the condition category.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Condition Mapping Rules

Column Name	Is Nullable	Data Type	Description
Group_Code	YES	STRING	A unique code representing a group of conditions or mapping rules for classification and application.
Condition_Code	YES	STRING	The unique code assigned to the condition that the mapping rule applies to.
Mapping_Rule	YES	STRING	A detailed rule specifying how the condition is mapped, including criteria and logic used for mapping.
Inclusive_Diagnosis_Codes_Group	YES	STRING	A group of diagnosis codes that are included as part of the mapping rule for this condition.
Exclusive_Diagnosis_Codes_Group	YES	STRING	A group of diagnosis codes that are excluded from the mapping rule for this condition.
Episode_Count	YES	STRING	Indicates the required number of episodes for the condition to meet the mapping criteria.
Acceptable_Disease_Stage_Threshold	YES	STRING	Specifies the acceptable stage threshold for the disease when applying the mapping rule.
Unacceptable_Disease_Stage_Threshold	YES	STRING	Specifies the unacceptable stage threshold for the disease, beyond which the mapping rule does not apply.
Effective_From_Timestamp	YES	TIMESTAMP	The date and time when the mapping rule became effective in the system.
Created_User_ID	YES	STRING	The unique identifier of the user who created the mapping rule record.
Created_Timestamp	YES	TIMESTAMP	The date and time when the mapping rule record was created.
Last_Modified_User_ID	YES	STRING	The unique identifier of the user who last modified the mapping rule record.
Last_Modified_Timestamp	YES	TIMESTAMP	The date and time when the mapping rule record was last updated in the system.

Dictionary Coordinated Care Discharge Disposition

Column Name	Is Nullable	Data Type	Description
Coordinated_Care_Discharge_Disposition	YES	STRING	Discharge disposition related to coordinated care (e.g., home health, skilled nursing facility).
Coordinated_Care_Discharge_Disposition_Description	YES	STRING	Detailed description of the coordinated care discharge disposition.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.

Column Name	Is Nullable	Data Type	Description
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Cost Category

Column Name	Is Nullable	Data Type	Description
Cost_Category	YES	STRING	Classification of costs (e.g., direct medical costs, administrative costs).
Cost_Category_Description	YES	STRING	Explanation of the cost category.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Cost Saving

Column Name	Is Nullable	Data Type	Description
Cost_Saving	YES	STRING	Indicates cost-saving measures or strategies.
Cost_Saving_Description	YES	STRING	Detailed description of the cost-saving approach.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Cost Saving Cost Void Reason

Column Name	Is Nullable	Data Type	Description
Cost_Saving_Cost_Void_Reason	YES	STRING	Reason for voiding or canceling a cost-saving entry.
Cost_Saving_Cost_Void_Reason_Description	YES	STRING	Explanation of the cost-saving void reason.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Cost Saving Diagnosis Group

Column Name	Is Nullable	Data Type	Description
Cost_Saving_Diagnosis_Group	YES	STRING	Grouping of diagnoses related to cost-saving efforts.
Cost_Saving_Diagnosis_Group_Description	YES	STRING	Detailed description of the cost-saving diagnosis group.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Cost Saving Type

Column Name	Is Nullable	Data Type	Description
Cost_Saving_Type	YES	STRING	Type of cost-saving initiative (e.g., utilization review, generic drug substitution).
Cost_Saving_Type_Description	YES	STRING	Explanation of the cost-saving type.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Cost Saving Type Of Care

Column Name	Is Nullable	Data Type	Description
Cost_Saving_Type_Of_Care	YES	STRING	Specific area of care targeted for cost-saving measures (e.g., outpatient visits, prescription drugs).
Cost_Saving_Type_Of_Care_Description	YES	STRING	Detailed description of the cost-saving type of care.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Cost Saving Void Reason

Column Name	Is Nullable	Data Type	Description
Cost_Saving_Void_Reason	YES	STRING	Reason for voiding or canceling a cost-saving entry.

Column Name	Is Nullable	Data Type	Description
Cost_Saving_Void_Reason_Description	YES	STRING	Explanation of the cost-saving void reason.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Cost Type

Column Name	Is Nullable	Data Type	Description
Cost_Type	YES	STRING	Classification of costs (e.g., direct, indirect).
Cost_Type_Description	YES	STRING	Detailed description of the cost type.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Coverage Descriptor Mapping

Column Name	Is Nullable	Data Type	Description
Account	YES	STRING	The account associated with the coverage descriptor mapping.
Client	YES	STRING	The client associated with the coverage descriptor mapping.
Coverage_Descriptor_Code	YES	STRING	The code of the coverage descriptor.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the coverage descriptor mapping was created.

Column Name	Is Nullable	Data Type	Description
Created_User_ID	YES	STRING	The ID of the user who created the coverage descriptor mapping.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the coverage descriptor mapping is effective.
End_Date	YES	STRING	The end date of the coverage descriptor mapping.
Group	YES	STRING	The group associated with the coverage descriptor mapping.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the coverage descriptor mapping was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the coverage descriptor mapping.
Section	YES	STRING	The section associated with the coverage descriptor mapping.
Start_Date	YES	STRING	The start date of the coverage descriptor mapping.
Vendor	YES	STRING	The vendor associated with the coverage descriptor mapping.

Dictionary Coverage Descriptors

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the coverage descriptor record is active.
Code	YES	STRING	The code of the coverage descriptor.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the coverage descriptor record was created.
Created_User_ID	YES	STRING	The ID of the user who created the coverage descriptor record.
Description	YES	STRING	The description of the coverage descriptor.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the coverage descriptor record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the coverage descriptor record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the coverage descriptor record.
