

Provider Dataset Specification

The “Provider Dataset Specification” contains information about providers, including networks. It is sourced directly from customer files and from ACM. The Provider_Key is unique and used for references from ACM entities. The primary key is a pair of Provider_ID and Provider_Type. The customer file references using a non-unique Provider_ID. It is referenced from multiple entities by Provider_Key or Provider_ID (when Provider_Key is not available).

The dataset includes a variety of tables:

- **Provider Basic Details:** Stores essential information about each provider, including names, qualifications, and other fundamental identifiers.
- **Additional Specialties:** Records information on providers' additional areas of expertise, enhancing the detail available for referral and treatment options.
- **Provider Addresses:** Contains current address details for each provider, crucial for contact and location-based services.
- **Alternate IDs:** Keeps track of alternative identification numbers and codes used by providers in different administrative or healthcare networks.
- **Attribution Details:** Documents how providers are attributed to various cases or healthcare programs, important for tracking responsibilities and patient assignments.
- **Contact Information:** Includes tables for storing providers' email addresses and phone numbers, facilitating communication within the healthcare system.
- **Custom Fields:** Allows for the addition of bespoke data points that are specific to the needs of the healthcare organization or system.
- **Networks:** Tracks the networks each provider is associated with, which is essential for understanding their reach and affiliations.
- **Set Codes:** Manages specific codes assigned to providers within the healthcare system for identification and processing.
- **Logs for Tracking Changes and Attributions:** Provides a detailed record of any updates or changes to provider data, ensuring an audit trail that supports compliance and accuracy.

This dataset is essential for healthcare organizations seeking to maintain up-to-date, accessible, and accurate information on their providers, thereby enhancing operational efficiency and supporting quality care delivery.

Provider

Column Name	Is Nullable	Data Type	Description
Provider_Type	YES	STRING	Provider Type enumerated to 1 (practitioner), 2 (facility) or 3 (group practice). See Dictionary Provider Type table in the Dictionary Dataset Specification.
Provider_Type_Description	YES	STRING	Description or details about the provider type, providing additional context or information. See Dictionary Provider Type table in the Dictionary Dataset Specification.
Rating	YES	STRING	Rating or score associated with the provider's performance or quality of service. See Dictionary Rating table in the Dictionary Dataset Specification.
Rating_Description	YES	STRING	Description explaining the rating or score assigned to the provider. See Dictionary Rating table in the Dictionary Dataset Specification.
Gender	YES	STRING	Gender of the provider. See Dictionary Gender table in the Dictionary Dataset Specification.

Column Name	Is Nullable	Data Type	Description
Gender_Description	YES	STRING	Description or details about the provider's gender, providing additional context. See Dictionary Gender table in the Dictionary Dataset Specification.
Source_System_Name	YES	STRING	Name of the source system from which the provider originated.
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.
Provider_NPI	YES	STRING	National Provider Identifier (NPI) associated with the provider.
Provider_Type	YES	STRING	Refers to the type or category of the provider.
Organization_Name	YES	STRING	Name of the organization or entity the provider is associated with.
Full_Name	YES	STRING	Full name of the provider, including title, first name, middle name, last name, and suffix.
Active	YES	BOOL	Indicator showing whether the provider is active or inactive.
Temporary	YES	BOOL	Indicator for temporary providers created in ACM.
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
Web_Site_URL	YES	STRING	URL link to the provider's website, if available.
Birth_Date	YES	DATE	Date of birth of the provider.
Specialty_Code	YES	STRING	Code representing the specialty or field of expertise of the provider. See Dictionary Speciality table in the Dictionary Dataset Specification.
Specialty_Description	YES	STRING	Description of the specialty or field of expertise of the provider. See Dictionary Speciality table in the Dictionary Dataset Specification.
Medecision_Specialty_Code	YES	STRING	Code representing a specific specialty as per Medecision standards.
Medecision_Specialty_Description	YES	STRING	Description of the specialty as per Medecision standards.
Medicare_Specialty_Code	YES	STRING	Code representing the specialty according to Medicare standards.
Medicare_Specialty_Description	YES	STRING	Description of the specialty according to Medicare standards.
Client_ID	YES	STRING	Identifier associated with the client or organization using the provider's services.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating the last modification or update made to the provider record.

Column Name	Is Nullable	Data Type	Description
Prefix	YES	STRING	Prefix (e.g., Dr., Mr., Ms.) used before the provider's name.
First_Name	YES	STRING	First name of the provider.
Middle_Name	YES	STRING	Middle name of the provider, if applicable.
Last_Name	YES	STRING	Last name of the provider.
Suffix	YES	STRING	Suffix (e.g., Jr., Sr.) used after the provider's name.
Primary_State	YES	STRING	State where the provider primarily operates or is licensed.
Primary_State_Name	YES	STRING	Name of the state where the provider primarily operates or is licensed.
Primary_Address_Line1	YES	STRING	First line of the primary address of the provider.
Primary_Address_Line2	YES	STRING	Second line of the primary address of the provider, if applicable.
Primary_Address_Line3	YES	STRING	Third line of the primary address of the provider, if applicable.
Primary_City	YES	STRING	City of the primary address of the provider.
Primary_Postal_Code	YES	STRING	Postal code of the primary address of the provider.
Primary_Address_Key	YES	STRING	Key or identifier for the primary address of the provider.
Primary_Phone_Type	YES	STRING	Type of phone number associated with the provider (e.g., mobile, office, home). See Dictionary Phone Type table in the Dictionary Dataset Specification.
Primary_Phone_Type_Description	YES	STRING	Description of the type of phone number associated with the provider. See Dictionary Phone Type table in the Dictionary Dataset Specification.
Primary_Phone_Number	YES	STRING	Primary phone number of the provider.
Primary_Phone_Key	YES	STRING	Key or identifier for the primary phone number of the provider.
Primary_Email_Address	YES	STRING	Primary email address of the provider.
Primary_Email_Key	YES	STRING	Key or identifier for the primary email address of the provider.

Provider Additional Specialities

Column Name	Is Nullable	Data Type	Description
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
Provider_Type	YES	STRING	Provider Type enumerated to 1 (practitioner), 2 (facility) or 3 (group practice). See Dictionary Provider Type table in the Dictionary Dataset Specification.
Specialty_Code	YES	STRING	Code representing the additional specialty or field of expertise of the provider. See Dictionary Specialty table in the Dictionary Dataset Specification.
Specialty_Description	YES	STRING	Description of the additional specialty or field of expertise of the provider. See Dictionary Specialty table in the Dictionary Dataset Specification.
Provider_Additional_Specialty_Key	YES	STRING	Key or unique identifier for the provider's additional specialty.
Medecision_Specialty_Code	YES	STRING	Code representing the additional specialty according to Medecision standards.
Medecision_Specialty_Description	YES	STRING	Description of the additional specialty according to Medecision standards.
Medicare_Specialty_Code	YES	STRING	Code representing the additional specialty according to Medicare standards.
Medicare_Specialty_Description	YES	STRING	Description of the additional specialty according to Medicare standards.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record for the additional specialty was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating the last modification or update made to the record for the additional specialty.

Provider Addresses

Column Name	Is Nullable	Data Type	Description
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
Provider_Type	YES	STRING	Refers to the type or category of the provider.

Column Name	Is Nullable	Data Type	Description
State	YES	STRING	Abbreviation or code for the state where the address is located. See Dictionary State table in the Dictionary Dataset Specification.
State_Name	YES	STRING	Name of the state where the address is located. Unique Provider Key in ACM, NULL if data is not sourced from ACM. See Dictionary State table in the Dictionary Dataset Specification.
Type	YES	STRING	Type of address (e.g., billing, mailing, primary, secondary). See Dictionary Address Type table in the Dictionary Dataset Specification.
Type_Description	YES	STRING	Description of the type of address (e.g., billing, mailing, primary, secondary). See Dictionary Address Type table in the Dictionary Dataset Specification.
Line1	YES	STRING	First line of the address (e.g., street address, P.O. Box).
Line2	YES	STRING	Second line of the address, if applicable.
Line3	YES	STRING	Third line of the address, if applicable.
City	YES	STRING	Name of the city or locality where the address is located.
Postal_Code	YES	STRING	Postal code or ZIP code of the address.
Preferred	YES	BOOL	Indicator to show if this address is the preferred address for the provider.
Provider_Address_Key	YES	STRING	Key or unique identifier for the provider's address.
Country	YES	STRING	Country where the address is located. NULL if data is not sourced from ACM.
County	YES	STRING	County where the address is located. NULL if data is not sourced from ACM.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the address record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating the last modification or update made to the address record.

Provider Alternate IDs

Column Name	Is Nullable	Data Type	Description
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.
Provider_Type	YES	STRING	Refers to the type or category of the provider.

Column Name	Is Nullable	Data Type	Description
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
Type	YES	STRING	Type of alternate ID (e.g., NPI, Medicare ID, custom ID). See Dictionary Provider Alternate ID Type table in the Dictionary Dataset Specification.
Type_Description	YES	STRING	Description of the type of alternate ID (e.g., National Provider Identifier, Medicare ID, custom ID). See Dictionary Provider Alternate ID Type table in the Dictionary Dataset Specification.
Value	YES	STRING	Value or actual alternate ID associated with the provider.
Provider_Alternate_ID_Key	YES	STRING	Key or unique identifier for the provider's alternate ID record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the alternate ID record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating the last modification or update made to the alternate ID record.

Provider Attribution

Column Name	Is Nullable	Data Type	Description
Member_ID	YES	STRING	Unique identifier or code assigned to the member.
Attributed_Provider_ID	YES	STRING	Unique identifier or code assigned to the provider who is attributed to the member. See Dictionary Attributed Provider Type table in the Dictionary Dataset Specification.
Attributed_Provider_Type_Code	YES	STRING	Code representing the type or category of the attributed provider (e.g., primary care physician, specialist).
Attributed_Provider_Type_Description	YES	STRING	Description of the type or category of the attributed provider (e.g., primary care physician, specialist). See Dictionary Attributed Provider Type table in the Dictionary Dataset Specification.
Attributed_Record_ID	YES	STRING	Unique identifier or code assigned to the record that represents the attribution between member and provider.
Attributed_Record_Type	YES	STRING	Type or category of the record that represents the attribution (e.g., encounter, referral, care plan).
Visibility_Level	YES	INT64	Level of visibility or access associated with the provider attribution log record.

Provider Attribution Attribute Map

Column Name	Is Nullable	Data Type	Description
Member_ID	YES	STRING	Unique identifier or code assigned to the member.
Attributed_Provider_ID	YES	STRING	Unique identifier or code assigned to the provider who is attributed to the member.
Attributed_Record_ID	YES	STRING	Unique identifier or code assigned to the record that represents the attribution.
key	YES	STRING	Key or identifier associated with an attribute or property of the attribution record.
value	YES	STRING	Value or content associated with the key or attribute in the attribution record.

Provider Contact Emails

Column Name	Is Nullable	Data Type	Description
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
Provider_Contact_Key	YES	INT64	Key or identifier associated with the provider contact.
Address	YES	STRING	Email address of the provider contact. See Dictionary Email Type table in the Dictionary Dataset Specification.
Description	YES	STRING	Description or label for the email address, such as "Work Email" or "Personal Email". See Dictionary Email Type table in the Dictionary Dataset Specification.
Preferred	YES	BOOL	Indicator specifying if the email address is the preferred contact.
Provider_Contact_Email_Key	YES	INT64	Key or identifier associated with the provider contact email record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the email record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the email record was last modified.

Provider Contact Phones

Column Name	Is Nullable	Data Type	Description
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.

Column Name	Is Nullable	Data Type	Description
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
Provider_Contact_Key	YES	INT64	Key or identifier associated with the provider contact.
Description	YES	STRING	Description or label for the phone number, such as "Work Phone" or "Mobile Phone".
Number	YES	STRING	Phone number of the provider contact.
Preferred	YES	BOOL	Indicator specifying if the phone number is the preferred contact.
Provider_Contact_Phone_Key	YES	INT64	Key or identifier associated with the provider contact phone record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the phone number record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the phone number record was last modified.

Provider Contacts

Column Name	Is Nullable	Data Type	Description
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.
Provider_Type	YES	STRING	Refers to the type or category of the provider.
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
Preferred_Method	YES	STRING	Code or indicator specifying the preferred contact method for the provider. See Dictionary Preferred Contact Method table in the Dictionary Dataset Specification.
Preferred_Method_Description	YES	STRING	Description or label for the preferred contact method, such as "Email", "Phone", etc. See Dictionary Preferred Contact Method table in the Dictionary Dataset Specification.
Preferred_Time	YES	STRING	Code or indicator specifying the preferred contact time for the provider. See Dictionary Preferred Contact Time table in the Dictionary Dataset Specification.
Preferred_Time_Description	YES	STRING	Description or label for the preferred contact time, such as "Morning", "Afternoon", etc. See Dictionary Preferred Contact Time table in the Dictionary Dataset Specification.

Column Name	Is Nullable	Data Type	Description
Association	YES	STRING	Code or indicator specifying the association of the contact with the provider. See Dictionary Provider Contact Association table in the Dictionary Dataset Specification.
Association_Description	YES	STRING	Description or label for the association of the contact, such as "Work", "Personal", etc. See Dictionary Provider Contact Association table in the Dictionary Dataset Specification.
Active	YES	BOOL	Indicator specifying if the contact is active or inactive.
Provider_Contact_Key	YES	INT64	Key or identifier associated with the provider contact record.
Other_Contact_Information	YES	STRING	Additional information or details about the contact.
Preferred	YES	BOOL	Indicator specifying if the contact is the preferred contact.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the contact record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the contact record was last modified.
First_Name	YES	STRING	First name of the provider contact.
Middle_Name	YES	STRING	Middle name of the provider contact.
Last_Name	YES	STRING	Last name of the provider contact.
Prefix	YES	STRING	Prefix or title for the provider contact, such as "Dr.", "Mr.", "Ms.", etc.
Suffix	YES	STRING	Suffix for the provider contact, such as "Jr.", "Sr.", "III", etc.

Provider Custom Fields

Column Name	Is Nullable	Data Type	Description
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.
Provider_Type	YES	STRING	Refers to the type or category of the provider.
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
ID	YES	STRING	Identifier or code for the custom field.
Title	YES	STRING	Title or name of the custom field.
Use	YES	STRING	Custom field value usage. (Only two values expected here - "ENTRY" or "SELECT").

Column Name	Is Nullable	Data Type	Description
Format_Type	YES	STRING	Specifies the data format type of the custom field.
Provider_Custom_Field_Key	YES	INT64	Key or identifier associated with the provider custom field record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider custom field record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider custom field record was last modified.
Value	YES	STRING	Provider's Custom Field Selected Value Code or Entry value.
Value_Description	YES	STRING	Unique Provider's Custom Field Selected Value Description.
Select_Key	YES	INT64	Unique Provider's Custom Field Selected Value Key in ACM, NULL if data is not sourced from ACM.
Select_Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the select field in the custom field record was created.
Select_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the select field in the custom field record was last modified.

Provider Designations

Column Name	Is Nullable	Data Type	Description
Designation_Code	YES	STRING	The code of the provider designation.
Designation_Description	YES	STRING	The description of the provider designation.
Designation_Effective_Date	YES	DATE	The effective date of the provider designation.
Designation_Termination_Date	YES	DATE	The termination date of the provider designation.
Provider_Key	YES	STRING	The unique identifier of the provider.

Provider Emails

Column Name	Is Nullable	Data Type	Description
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.
Provider_Type	YES	STRING	Refers to the type or category of the provider.
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
Provider_Email_Key	YES	INT64	Key or identifier associated with the provider email record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider email record was created.

Column Name	Is Nullable	Data Type	Description
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider email record was last modified.
Preferred	YES	BOOL	Indicator or flag showing if the email address is preferred or not.
Type	YES	STRING	Type or category of the email address (e.g., work, personal, etc.). See Dictionary Email Type table in the Dictionary Dataset Specification.
Type_Description	YES	STRING	Description or details about the type of the email address (e.g., work email, personal email, etc.). See Dictionary Email Type table in the Dictionary Dataset Specification.
Address	YES	STRING	Actual email address of the provider.

Provider Networks

Column Name	Is Nullable	Data Type	Description
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.
Provider_Type	YES	STRING	Refers to the type or category of the provider.
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
Code	YES	STRING	Code or identifier assigned to the provider network. See Dictionary Provider Network table in the Dictionary Dataset Specification.
Name	YES	STRING	Name or title of the provider network. See Dictionary Provider Network table in the Dictionary Dataset Specification.
Effective_Date	YES	DATE	Date when the provider network became effective or started being active.
Termination_Date	YES	DATE	Date when the provider network was terminated or became inactive.
Provider_Network_Key	YES	INT64	Key or identifier associated with the provider network record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider network record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider network record was last modified.

Provider Phones

Column Name	Is Nullable	Data Type	Description
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.
Provider_Type	YES	STRING	Refers to the type or category of the provider.
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
Type	YES	STRING	Type of phone number (e.g., mobile, office, home).
Type_Description	YES	STRING	Description or name of the phone number type.
Address_Key	YES	INT64	Key or identifier associated with the address related to the phone number.
Number	YES	STRING	Phone number assigned to the provider.
Preferred	YES	BOOL	Indicates whether the phone number is preferred or not.
Provider_Phone_Key	YES	INT64	Key or identifier associated with the provider phone record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider phone record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider phone record was last modified.

Provider Set Codes

Column Name	Is Nullable	Data Type	Description
Provider_ID	YES	STRING	Unique identifier or code assigned to the provider.
Provider_Type	YES	STRING	Refers to the type or category of the provider.
Provider_Key	YES	STRING	Unique Provider Key in ACM, NULL if data is not sourced from ACM.
Code	YES	STRING	Code or identifier for the provider set. See Dictionary Provider Set Code table in the Dictionary Dataset Specification.
Description	YES	STRING	Description or name of the provider set. See Dictionary Provider Set Code table in the Dictionary Dataset Specification.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider set code record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider set code record was last modified.

Column Name	Is Nullable	Data Type	Description
Provider_Set_Code_Key	YES	INT64	Key or identifier associated with the provider set code record.

Provider Log

Column Name	Is Nullable	Data Type	Description
Provider_Key	YES	STRING	Unique identifier for the provider within the system.
Provider_ID	YES	STRING	Identifier assigned to the provider.
Provider_NPI	YES	STRING	National Provider Identifier (NPI) for the provider.
Provider_Type	YES	STRING	Classification or category of the provider.
Provider_Type_Description	YES	STRING	Detailed description of the provider type.
Temporary	YES	BOOL	Indicator of whether the provider's status is temporary.
Name	YES	STRUCT	Structure containing the provider's name components.
Name.Prefix	YES	STRING	Prefix or title of the provider's name (e.g., Dr., Mr., Ms.).
Name.First	YES	STRING	First name of the provider.
Name.Middle	YES	STRING	Middle name or initial of the provider.
Name.Last	YES	STRING	Last name or surname of the provider.
Name.Suffix	YES	STRING	Suffix of the provider's name (e.g., Jr., Sr., III).
Full_Name	YES	STRING	Complete name of the provider, typically combining all name components.
Organization_Name	YES	STRING	Name of the organization the provider is associated with, if applicable.
Addresses	NO	ARRAY	Collection of addresses associated with the provider.
Addresses.Key	NO	STRING	Unique identifier for a specific address.
Addresses.Line1	NO	STRING	First line of the address.
Addresses.Line2	NO	STRING	Second line of the address, if applicable.
Addresses.Line3	NO	STRING	Third line of the address, if applicable.
Addresses.City	NO	STRING	City of the address.
Addresses.State	NO	STRING	State or province of the address.

Column Name	Is Nullable	Data Type	Description
Addresses.State_Name	NO	STRING	Full name of the state or province.
Addresses.Postal_Code	NO	STRING	Postal or ZIP code of the address.
Addresses.Country	NO	STRING	Country of the address.
Addresses.County	NO	STRING	County of the address.
Addresses.Type	NO	STRING	Type or category of the address (e.g., home, work, mailing).
Addresses.Type_Description	NO	STRING	Detailed description of the address type.
Addresses.Preferred	NO	BOOL	Indicator of whether this is the provider's preferred address.
Addresses.Created_Timestamp	NO	TIMESTAMP	Timestamp when the address record was created.
Addresses.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the address record.
Birth_Date	YES	DATE	Date of birth of the provider.
Gender	YES	STRING	Gender of the provider.
Gender_Description	YES	STRING	Detailed description of the provider's gender.
Set_Codes	NO	ARRAY	Collection of set codes associated with the provider.
Set_Codes.Key	NO	STRING	Unique identifier for a specific set code.
Set_Codes.Code	NO	STRING	Code representing a specific attribute or classification.
Set_Codes.Description	NO	STRING	Description of the set code.
Set_Codes.Created_Timestamp	NO	TIMESTAMP	Timestamp when the set code record was created.
Set_Codes.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the set code record.
Rating	YES	STRING	Numerical or categorical rating assigned to the provider.
Rating_Description	YES	STRING	Description or explanation of the provider's rating.
Specialty_Code	YES	STRING	Code representing the provider's primary specialty.
Specialty_Description	YES	STRING	Description of the provider's primary specialty.
Medecision_Specialty_Code	YES	STRING	Medecision-specific code for the provider's specialty.
Medecision_Specialty_Description	YES	STRING	Medecision-specific description of the provider's specialty.

Column Name	Is Nullable	Data Type	Description
Medicare_Specialty_Code	YES	STRING	Medicare-specific code for the provider's specialty.
Medicare_Specialty_Description	YES	STRING	Medicare-specific description of the provider's specialty.
Additional_Specialties	NO	ARRAY	Collection of additional specialties for the provider.
Additional_Specialties.Key	NO	STRING	Unique identifier for an additional specialty.
Additional_Specialties.Specialty_Code	NO	STRING	Code representing an additional specialty.
Additional_Specialties.Specialty_Description	NO	STRING	Description of the additional specialty.
Additional_Specialties.Medecision_Specialty_Code	NO	STRING	Medecision-specific code for the additional specialty.
Additional_Specialties.Medecision_Specialty_Description	NO	STRING	Medecision-specific description of the additional specialty.
Additional_Specialties.Medicare_Specialty_Code	NO	STRING	Medicare-specific code for the additional specialty.
Additional_Specialties.Medicare_Specialty_Description	NO	STRING	Medicare-specific description of the additional specialty.
Additional_Specialties.Created_Timestamp	NO	TIMESTAMP	Timestamp when the additional specialty record was created.
Additional_Specialties.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the additional specialty record.
Active	YES	BOOL	Indicator of whether the provider is currently active.
Client_ID	YES	STRING	Identifier of the client associated with this provider.
Phones	NO	ARRAY	Collection of phone numbers associated with the provider.
Phones.Key	NO	STRING	Unique identifier for a specific phone number.
Phones.Number	NO	STRING	The actual phone number.
Phones.Type	NO	STRING	Type or category of the phone number (e.g., office, mobile, fax).
Phones.Type_Description	NO	STRING	Detailed description of the phone number type.
Phones.Address_Key	NO	STRING	Key of the address associated with this phone number, if applicable.

Column Name	Is Nullable	Data Type	Description
Phones.Preferred	NO	BOOL	Indicator of whether this is the provider's preferred phone number.
Phones.Country_Code	NO	STRING	Country code for the phone number.
Phones.Created_Timestamp	NO	TIMESTAMP	Timestamp when the phone number record was created.
Phones.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the phone number record.
Emails	NO	ARRAY	Collection of email addresses associated with the provider.
Emails.Key	NO	STRING	Unique identifier for a specific email address.
Emails.Address	NO	STRING	The actual email address.
Emails.Type	NO	STRING	Type or category of the email address (e.g., work, personal).
Emails.Type_Description	NO	STRING	Detailed description of the email address type.
Emails.Preferred	NO	BOOL	Indicator of whether this is the provider's preferred email address.
Emails.Created_Timestamp	NO	TIMESTAMP	Timestamp when the email address record was created.
Emails.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the email address record.
Web_Site_URL	YES	STRING	URL of the provider's website, if available.
Networks	NO	ARRAY	Collection of networks the provider is associated with.
Networks.Key	NO	STRING	Unique identifier for a specific network.
Networks.Code	NO	STRING	Code representing the network.
Networks.Name	NO	STRING	Name of the network.
Networks.Effective_Date	NO	DATE	Date when the provider's association with the network becomes effective.
Networks.Termination_Date	NO	DATE	Date when the provider's association with the network is set to terminate.
Networks.Effective_Timestamp	NO	TIMESTAMP	Timestamp when the network association becomes effective.
Networks.Termination_Timestamp	NO	TIMESTAMP	Timestamp when the network association is set to terminate.
Networks.Created_Timestamp	NO	TIMESTAMP	Timestamp when the network record was created.
Networks.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the network record.
Contacts	NO	ARRAY	Collection of contacts associated with the provider.

Column Name	Is Nullable	Data Type	Description
Contacts.Key	NO	INT64	Unique identifier for a specific contact.
Contacts.Name	NO	STRUCT	Structure containing the contact's name components.
Contacts.Name.Prefix	NO	STRING	Prefix or title of the contact's name.
Contacts.Name.First	NO	STRING	First name of the contact.
Contacts.Name.Middle	NO	STRING	Middle name or initial of the contact.
Contacts.Name.Last	NO	STRING	Last name or surname of the contact.
Contacts.Name.Suffix	NO	STRING	Suffix of the contact's name.
Contacts.Preferred	NO	BOOL	Indicator of whether this is a preferred contact.
Contacts.Active	NO	BOOL	Indicator of whether this contact is currently active.
Contacts.Other_Contact_Information	NO	STRING	Additional contact information not captured in other fields.
Contacts.Association	NO	STRING	Type of association between the contact and the provider.
Contacts.Association_Description	NO	STRING	Detailed description of the contact's association.
Contacts.Preferred_Method	NO	STRING	Preferred method of communication for this contact.
Contacts.Preferred_Method_Description	NO	STRING	Detailed description of the preferred communication method.
Contacts.Preferred_Time	NO	STRING	Preferred time for contacting this person.
Contacts.Preferred_Time_Description	NO	STRING	Detailed description of the preferred contact time.
Contacts.Emails	NO	ARRAY	Collection of email addresses for this contact.
Contacts.Emails.Key	NO	INT64	Unique identifier for a specific email address.
Contacts.Emails.Address	NO	STRING	The actual email address.
Contacts.Emails.Description	NO	STRING	Description or purpose of this email address.
Contacts.Emails.Preferred	NO	BOOL	Indicator of whether this is the preferred email for the contact.
Contacts.Emails.Created_Timestamp	NO	TIMESTAMP	Timestamp when the email record was created.

Column Name	Is Nullable	Data Type	Description
Contacts.Emails.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the email record.
Contacts.Phones	NO	ARRAY	Collection of phone numbers for this contact.
Contacts.Phones.Key	NO	INT64	Unique identifier for a specific phone number.
Contacts.Phones.Number	NO	STRING	The actual phone number.
Contacts.Phones.Description	NO	STRING	Description or purpose of this phone number.
Contacts.Phones.Preferred	NO	BOOL	Indicator of whether this is the preferred phone number for the contact.
Contacts.Phones.Created_Timestamp	NO	TIMESTAMP	Timestamp when the phone number record was created.
Contacts.Phones.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the phone number record.
Contacts.Created_Timestamp	NO	TIMESTAMP	Timestamp when the contact record was created.
Contacts.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the contact record.
Alternate_IDs	NO	ARRAY	Collection of alternate identifiers for the provider.
Alternate_IDs.Key	NO	STRING	Unique identifier for a specific alternate ID.
Alternate_IDs.Value	NO	STRING	The actual alternate identification number or value.
Alternate_IDs.Type	NO	STRING	Type or category of the alternate ID.
Alternate_IDs.Type_Description	NO	STRING	Detailed description of the alternate ID type.
Alternate_IDs.Created_Timestamp	NO	TIMESTAMP	Timestamp when the alternate ID record was created.
Alternate_IDs.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the alternate ID record.
Custom_Fields	NO	ARRAY	Collection of custom fields associated with the provider.
Custom_Fields.Key	NO	STRING	Unique identifier for a specific custom field.
Custom_Fields.ID	NO	STRING	Identifier for the custom field.
Custom_Fields.Title	NO	STRING	Title or label of the custom field.
Custom_Fields.Use	NO	STRING	Purpose or intended use of the custom field.
Custom_Fields.Values	NO	ARRAY	Collection of values associated with the custom field.

Column Name	Is Nullable	Data Type	Description
Custom_Fields.Values.Select_Key	NO	STRING	Unique identifier for a selected value in the custom field.
Custom_Fields.Values.Value	NO	STRING	Actual value stored in the custom field.
Custom_Fields.Values.Value_Description	NO	STRING	Description or explanation of the value in the custom field.
Custom_Fields.Values.Created_Timestamp	NO	TIMESTAMP	Timestamp when the custom field value was created.
Custom_Fields.Values.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the custom field value.
Custom_Fields.Created_Timestamp	NO	TIMESTAMP	Timestamp when the custom field record was created.
Custom_Fields.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the custom field record.
Created_Timestamp	YES	TIMESTAMP	Timestamp when the provider record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to the provider record.
Record_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification made to this entire record.
Transaction_User_ID	YES	STRING	Identifier of the user who performed the last transaction on this record.
_specialtyVisibilityLvl	YES	STRING	Visibility level for the provider's specialty information.
Type	YES	STRING	Type or category of this log entry.
Tenant	YES	STRING	Identifier for the tenant or organization in a multi-tenant system.
Active_Version	YES	BOOL	Indicator of whether this is the currently active version of the record.
Date	YES	DATE	Date associated with this log entry.
Sequence	YES	INT64	Sequence number for ordering multiple changes on the same date.
Source_System_Name	YES	STRING	Name of the source system that provided this data.
Source_Timestamp	YES	TIMESTAMP	Timestamp from the source system for this data.
Source_File_Name	YES	STRING	Name of the source file that contained this data.
Schema_Version	YES	FLOAT64	Version of the data schema used for this record.
Provider_Partition	YES	INT64	Partition identifier for the provider's data in a partitioned database system.
Deleted_Indicator	YES	BOOL	Indicator of whether this record has been marked as deleted.

Column Name	Is Nullable	Data Type	Description
_updated	YES	STRING	Indicator of whether this record has been updated.
Action	YES	STRING	Type of action performed on this record (e.g., create, update, delete).
Transaction_Actor_Type	YES	STRING	Type of actor (user, system process) that performed the last transaction.
Last_Modified_Record_ID	YES	STRING	Identifier of the last modified record in the primary provider table.
Designations	YES	ARRAY	The provider designations associated with the provider.
Designations.Code	YES	STRING	The code of the provider designation.
Designations.Description	YES	STRING	The description of the provider designation.
Designations.Effective_Date	YES	DATE	The effective date of the provider designation.
Designations.Termination_Date	YES	DATE	The termination date of the provider designation.

Provider Attribution Log

Column Name	Is Nullable	Data Type	Description
Member_ID	YES	STRING	Unique identifier or code associated with the member in the provider attribution log.
Attributed_Provider_ID	YES	STRING	Unique identifier or code associated with the provider to whom the attribution is made.
Attributed_Provider_Type_Code	YES	STRING	Code representing the type or category of the attributed provider.
Attributed_Provider_Type_Description	YES	STRING	Description or details of the type of the attributed provider.
Attributed_Record_ID	YES	STRING	Identifier or key associated with the record that is attributed.
Attributed_Record_Type	YES	STRING	Type or category of the attributed record.
Type	YES	STRING	Type or category of the provider attribution log record.
Tenant	YES	STRING	Tenant or organization associated with the provider attribution log.
Active_Version	YES	BOOL	Active version or status of the provider attribution log record.
Date	YES	DATE	Date associated with the provider attribution log record.
Sequence	YES	INT64	Sequence number or order of the provider attribution log record.
Source_System_Name	YES	STRING	Name of the source system from which the provider attribution log record originated.

Column Name	Is Nullable	Data Type	Description
Source_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider attribution log record was sourced or retrieved.
Source_File_Name	YES	STRING	Name of the source file containing the provider attribution log record.
Schema_Version	YES	FLOAT64	Version of the schema or data model used for the provider attribution log dataset.
Visibility_Level	YES	INT64	Level of visibility or access associated with the provider attribution log record.
Attribute_Map	NO	ARRAY	Mapping or representation of attributes related to provider attribution in the log.
Attribute_Map.key	YES	STRING	Key or identifier associated with an attribute or property of the attribution record.
Attribute_Map.value	YES	STRING	Value or content associated with the key or attribute in the attribution record.
_updated	YES	STRING	Indicator to specify if the provider attribution log record is updated.
Action	YES	STRING	Action performed on the provider attribution log record (e.g., insert, update, delete).
Member_Partition	YES	INT64	Partition or segment of the member dataset associated with the provider attribution log record.

Provider Merge Log

Column Name	Is Nullable	Data Type	Description
Survived_Provider_ID	YES	STRING	The ID of the provider record that remains after the merge process.
Survived_Provider_Type	YES	STRING	The type/category of the provider that survived the merge.
Survived_Provider_Key	YES	INT64	A unique key or identifier for the surviving provider record.
Merged_Provider_ID	YES	STRING	The ID of the provider record that was merged into the surviving provider.
Merged_Provider_Type	YES	STRING	The type/category of the provider that was merged.
Merged_Provider_Key	YES	INT64	A unique key or identifier for the merged provider record.
Merge_Type	YES	STRING	The type of merge operation performed, indicating how records were combined.
Record_Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the record was last updated or modified.
Transaction_User_ID	YES	STRING	The ID of the user who performed or authorized the merge operation.
Type	YES	STRING	Describes the type or category of the record (e.g., provider or merge-related).
Tenant	YES	STRING	The tenant or entity to which this record belongs, useful in multi-tenant systems.
Active_Version	YES	BOOL	Indicates the active version of the provider record post-merge.

Column Name	Is Nullable	Data Type	Description
Date	YES	DATE	The date when the merge operation was recorded.
Sequence	YES	INT64	A sequence number that tracks the order of operations or merges.
Source_System_Name	YES	STRING	The name of the system from which the provider data originated.
Source_Timestamp	YES	TIMESTAMP	The timestamp indicating when the source system recorded the original data.
Source_File_Name	YES	STRING	The name of the file from which the provider data was sourced, if applicable.
Deleted_Indicator	YES	BOOL	Indicator of whether this record has been marked as deleted.
Schema_Version	YES	FLOAT64	The version of the schema or data structure used for the record.
Action	YES	STRING	The specific action performed during the merge process (e.g., merge, update, delete).
Transaction_Actor_Type	YES	STRING	Type of the actor performing the transaction.

Provider Raw

Column Name	Is Nullable	Data Type	Description
Provider_Key	YES	STRING	Unique identifier for the provider within the system.
Provider_ID	YES	STRING	Identifier assigned to the provider.
Provider_NPI	YES	STRING	National Provider Identifier (NPI) for the provider.
Provider_Type	YES	STRING	Classification or category of the provider.
Provider_Type_Description	YES	STRING	Detailed description of the provider type.
Temporary	YES	BOOL	Indicator of whether the provider's status is temporary.
Name	YES	STRUCT	Structure containing the provider's name components.
Name.Prefix	YES	STRING	Prefix or title of the provider's name (e.g., Dr., Mr., Ms.).
Name.First	YES	STRING	First name of the provider.
Name.Middle	YES	STRING	Middle name or initial of the provider.
Name.Last	YES	STRING	Last name or surname of the provider.
Name.Suffix	YES	STRING	Suffix of the provider's name (e.g., Jr., Sr., III).
Full_Name	YES	STRING	Complete name of the provider, typically combining all name components.

Column Name	Is Nullable	Data Type	Description
Organization_Name	YES	STRING	Name of the organization the provider is associated with, if applicable.
Addresses	NO	ARRAY	Collection of addresses associated with the provider.
Addresses.Key	NO	STRING	Unique identifier for a specific address.
Addresses.Line1	NO	STRING	First line of the address.
Addresses.Line2	NO	STRING	Second line of the address, if applicable.
Addresses.Line3	NO	STRING	Third line of the address, if applicable.
Addresses.City	NO	STRING	City of the address.
Addresses.State	NO	STRING	State or province of the address.
Addresses.State_Name	NO	STRING	Full name of the state or province.
Addresses.Postal_Code	NO	STRING	Postal or ZIP code of the address.
Addresses.Country	NO	STRING	Country of the address.
Addresses.County	NO	STRING	County of the address.
Addresses.Type	NO	STRING	Type or category of the address (e.g., home, work, mailing).
Addresses.Type_Description	NO	STRING	Detailed description of the address type.
Addresses.Preferred	NO	BOOL	Indicator of whether this is the provider's preferred address.
Addresses.Created_Timestamp	NO	TIMESTAMP	Timestamp when the address record was created.
Addresses.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the address record.
Birth_Date	YES	DATE	Date of birth of the provider.
Gender	YES	STRING	Gender of the provider.
Gender_Description	YES	STRING	Detailed description of the provider's gender.
Set_Codes	NO	ARRAY	Collection of set codes associated with the provider.
Set_Codes.Key	NO	STRING	Unique identifier for a specific set code.
Set_Codes.Code	NO	STRING	Code representing a specific attribute or classification.
Set_Codes.Description	NO	STRING	Description of the set code.

Column Name	Is Nullable	Data Type	Description
Set_Codes.Created_Timestamp	NO	TIMESTAMP	Timestamp when the set code record was created.
Set_Codes.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the set code record.
Rating	YES	STRING	Numerical or categorical rating assigned to the provider.
Rating_Description	YES	STRING	Description or explanation of the provider's rating.
Specialty_Code	YES	STRING	Code representing the provider's primary specialty.
Specialty_Description	YES	STRING	Description of the provider's primary specialty.
Medecision_Specialty_Code	YES	STRING	Medecision-specific code for the provider's specialty.
Medecision_Specialty_Description	YES	STRING	Medecision-specific description of the provider's specialty.
Medicare_Specialty_Code	YES	STRING	Medicare-specific code for the provider's specialty.
Medicare_Specialty_Description	YES	STRING	Medicare-specific description of the provider's specialty.
Additional_Specialties	NO	ARRAY	Collection of additional specialties for the provider.
Additional_Specialties.Key	NO	STRING	Unique identifier for an additional specialty.
Additional_Specialties.Specialty_Code	NO	STRING	Code representing an additional specialty.
Additional_Specialties.Specialty_Description	NO	STRING	Description of the additional specialty.
Additional_Specialties.Medecision_Specialty_Code	NO	STRING	Medecision-specific code for the additional specialty.
Additional_Specialties.Medecision_Specialty_Description	NO	STRING	Medecision-specific description of the additional specialty.
Additional_Specialties.Medicare_Specialty_Code	NO	STRING	Medicare-specific code for the additional specialty.
Additional_Specialties.Medicare_Specialty_Description	NO	STRING	Medicare-specific description of the additional specialty.
Additional_Specialties.Created_Timestamp	NO	TIMESTAMP	Timestamp when the additional specialty record was created.
Additional_Specialties.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the additional specialty record.

Column Name	Is Nullable	Data Type	Description
Active	YES	BOOL	Indicator of whether the provider is currently active.
Client_ID	YES	STRING	Identifier of the client associated with this provider.
Phones	NO	ARRAY	Collection of phone numbers associated with the provider.
Phones.Key	NO	STRING	Unique identifier for a specific phone number.
Phones.Number	NO	STRING	The actual phone number.
Phones.Type	NO	STRING	Type or category of the phone number (e.g., office, mobile, fax).
Phones.Type_Description	NO	STRING	Detailed description of the phone number type.
Phones.Address_Key	NO	STRING	Key of the address associated with this phone number, if applicable.
Phones.Preferred	NO	BOOL	Indicator of whether this is the provider's preferred phone number.
Phones.Created_Timestamp	NO	TIMESTAMP	Timestamp when the phone number record was created.
Phones.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the phone number record.
Emails	NO	ARRAY	Collection of email addresses associated with the provider.
Emails.Key	NO	STRING	Unique identifier for a specific email address.
Emails.Address	NO	STRING	The actual email address.
Emails.Type	NO	STRING	Type or category of the email address (e.g., work, personal).
Emails.Type_Description	NO	STRING	Detailed description of the email address type.
Emails.Preferred	NO	BOOL	Indicator of whether this is the provider's preferred email address.
Emails.Created_Timestamp	NO	TIMESTAMP	Timestamp when the email address record was created.
Emails.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the email address record.
Web_Site_URL	YES	STRING	URL of the provider's website, if available.
Networks	NO	ARRAY	Collection of networks the provider is associated with.
Networks.Key	NO	STRING	Unique identifier for a specific network.
Networks.Code	NO	STRING	Code representing the network.
Networks.Name	NO	STRING	Name of the network.
Networks.Effective_Date	NO	DATE	Date when the provider's association with the network becomes effective.

Column Name	Is Nullable	Data Type	Description
Networks.Termination_Date	NO	DATE	Date when the provider's association with the network is set to terminate.
Networks.Created_Timestamp	NO	TIMESTAMP	Timestamp when the network record was created.
Networks.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the network record.
Contacts	NO	ARRAY	Collection of contacts associated with the provider.
Contacts.Key	NO	INT64	Unique identifier for a specific contact.
Contacts.Name	NO	STRUCT	Structure containing the contact's name components.
Contacts.Name.Prefix	NO	STRING	Prefix or title of the contact's name.
Contacts.Name.First	NO	STRING	First name of the contact.
Contacts.Name.Middle	NO	STRING	Middle name or initial of the contact.
Contacts.Name.Last	NO	STRING	Last name or surname of the contact.
Contacts.Name.Suffix	NO	STRING	Suffix of the contact's name.
Contacts.Preferred	NO	BOOL	Indicator of whether this is a preferred contact.
Contacts.Active	NO	BOOL	Indicator of whether this contact is currently active.
Contacts.Other_Contact_Information	NO	STRING	Additional contact information not captured in other fields.
Contacts.Association	NO	STRING	Type of association between the contact and the provider.
Contacts.Association_Description	NO	STRING	Detailed description of the contact's association.
Contacts.Preferred_Method	NO	STRING	Preferred method of communication for this contact.
Contacts.Preferred_Method_Description	NO	STRING	Detailed description of the preferred communication method.
Contacts.Preferred_Time	NO	STRING	Preferred time for contacting this person.
Contacts.Preferred_Time_Description	NO	STRING	Detailed description of the preferred contact time.
Contacts.Emails	NO	ARRAY	Collection of email addresses for this contact.
Contacts.Emails.Key	NO	INT64	Unique identifier for a specific email address.
Contacts.Emails.Address	NO	STRING	The actual email address.

Column Name	Is Nullable	Data Type	Description
Contacts.Emails.Description	NO	STRING	Description or purpose of this email address.
Contacts.Emails.Preferred	NO	BOOL	Indicator of whether this is the preferred email for the contact.
Contacts.Emails.Created_Timestamp	NO	TIMESTAMP	Timestamp when the email record was created.
Contacts.Emails.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the email record.
Contacts.Phones	NO	ARRAY	Collection of phone numbers for this contact.
Contacts.Phones.Key	NO	INT64	Unique identifier for a specific phone number.
Contacts.Phones.Number	NO	STRING	The actual phone number.
Contacts.Phones.Description	NO	STRING	Description or purpose of this phone number.
Contacts.Phones.Preferred	NO	BOOL	Indicator of whether this is the preferred phone number for the contact.
Contacts.Phones.Created_Timestamp	NO	TIMESTAMP	Timestamp when the phone number record was created.
Contacts.Phones.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the phone number record.
Contacts.Created_Timestamp	NO	TIMESTAMP	Timestamp when the contact record was created.
Contacts.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the contact record.
Alternate_IDs	NO	ARRAY	Collection of alternate identifiers for the provider.
Alternate_IDs.Key	NO	STRING	Unique identifier for a specific alternate ID.
Alternate_IDs.Value	NO	STRING	The actual alternate identification number or value.
Alternate_IDs.Type	NO	STRING	Type or category of the alternate ID.
Alternate_IDs.Type_Description	NO	STRING	Detailed description of the alternate ID type.
Alternate_IDs.Created_Timestamp	NO	TIMESTAMP	Timestamp when the alternate ID record was created.
Alternate_IDs.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the alternate ID record.
Custom_Fields	NO	ARRAY	Collection of custom fields associated with the provider.
Custom_Fields.Key	NO	STRING	Unique identifier for a specific custom field.

Column Name	Is Nullable	Data Type	Description
Custom_Fields.ID	NO	STRING	Identifier for the custom field.
Custom_Fields.Title	NO	STRING	Title or label of the custom field.
Custom_Fields.Use	NO	STRING	Purpose or intended use of the custom field.
Custom_Fields.Values	NO	ARRAY	Collection of values associated with the custom field.
Custom_Fields.Values.Select_Key	NO	STRING	Unique identifier for a selected value in the custom field.
Custom_Fields.Values.Value	NO	STRING	Actual value stored in the custom field.
Custom_Fields.Values.Value_Description	NO	STRING	Description or explanation of the value in the custom field.
Custom_Fields.Values.Created_Timestamp	NO	TIMESTAMP	Timestamp when the custom field value was created.
Custom_Fields.Values.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the custom field value.
Custom_Fields.Created_Timestamp	NO	TIMESTAMP	Timestamp when the custom field record was created.
Custom_Fields.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the custom field record.
Created_Timestamp	YES	TIMESTAMP	Timestamp when the provider record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to the provider record.
Record_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification made to this entire record.
Transaction_User_ID	YES	STRING	Identifier of the user who performed the last transaction on this record.
_specialtyVisibilityLvl	YES	STRING	Visibility level for the provider's specialty information.
Type	YES	STRING	Type or category of this log entry.
Tenant	YES	STRING	Identifier for the tenant or organization in a multi-tenant system.
Active_Version	YES	BOOL	Indicator of whether this is the currently active version of the record.
Date	YES	DATE	Date associated with this log entry.
Sequence	YES	INT64	Sequence number for ordering multiple changes on the same date.
Source_System_Name	YES	STRING	Name of the source system that provided this data.
Source_Timestamp	YES	TIMESTAMP	Timestamp from the source system for this data.

Column Name	Is Nullable	Data Type	Description
Source_File_Name	YES	STRING	Name of the source file that contained this data.
Schema_Version	YES	FLOAT64	Version of the data schema used for this record.
Provider_Partition	YES	INT64	Partition identifier for the provider's data in a partitioned database system.
Deleted_Indicator	YES	BOOL	Indicator of whether this record has been marked as deleted.
_updated	YES	STRING	Indicator of whether this record has been updated.
Transaction_Actor_Type	YES	STRING	Type of actor (user, system process) that performed the last transaction.
Last_Modified_Record_ID	YES	STRING	The ID of the last modified record.
Networks.Effective_Timestamp	YES	TIMESTAMP	The timestamp when the provider's network association became effective.
Networks.Termination_Timestamp	YES	TIMESTAMP	The timestamp when the provider's network association was terminated.
Phones.Country_Code	YES	STRING	The country code of the provider's phone number.
Designations	YES	ARRAY	The provider designations associated with the provider.
Designations.Code	YES	STRING	The code of the provider designation.
Designations.Description	YES	STRING	The description of the provider designation.
Designations.Effective_Date	YES	DATE	The effective date of the provider designation.
Designations.Termination_Date	YES	DATE	The termination date of the provider designation.

Provider Attribution Raw

Column Name	Is Nullable	Data Type	Description
Member_ID	YES	STRING	Unique identifier for the member associated with the provider attribution record.
Attributed_Provider_ID	YES	STRING	Unique identifier for the provider to whom the attribution is assigned.
Attributed_Provider_Type_Code	YES	STRING	Code representing the type or category of the attributed provider.
Attributed_Provider_Type_Description	YES	STRING	Description of the type or category of the attributed provider.
Attributed_Record_ID	YES	STRING	Unique identifier for the attributed record.
Attributed_Record_Type	YES	STRING	Type or category of the attributed record.

Column Name	Is Nullable	Data Type	Description
Type	YES	STRING	Type or category of the provider attribution record.
Tenant	YES	STRING	Tenant or organization associated with the provider attribution record.
Active_Version	YES	BOOL	Active version or status of the provider attribution record.
Date	YES	DATE	Date associated with the provider attribution record.
Sequence	YES	INT64	Sequence number or order of the provider attribution record.
Source_System_Name	YES	STRING	Name of the source system from which the provider attribution record originated.
Source_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider attribution record was sourced or retrieved.
Source_File_Name	YES	STRING	Name of the source file containing the provider attribution record.
Schema_Version	YES	FLOAT64	Version of the schema or data model used for the provider attribution dataset.
Visibility_Level	YES	INT64	Level of visibility or access associated with the provider attribution record.
Attribute_Map	NO	ARRAY	Mapping or representation of attributes related to provider attribution in the log.
Attribute_Map.key	YES	STRING	Key or identifier associated with an attribute or property of the attribution record.
Attribute_Map.value	YES	STRING	Value or content associated with the key or attribute in the attribution record.
_updated	YES	STRING	Indicator to specify if the provider attribution record is updated.
Member_Partition	YES	INT64	Partition or segment of the member associated with the provider attribution record.
