

Program Dataset Specification

The "Program Dataset Specification" stores member participation in programs including different stages (screening, enrollment, etc.) with own keys for references. It is an umbrella entity for Program_Plan_Of_Care. Unique keys are Screening_Request_Key and Program_ID. Screening_Request_Key is enforced. Screening_Key can be also used for references. It references Members by Member_ID and related Providers by Provider_Key. It is referenced from Program_Plan_Of_Care and Program_Enrollment_Key. Also, referenced from Member_Program_Questionnaire, Letter, Cost_Saving, Task and Interaction_Topic by Program_ID.

It also contains Program's plan of care with goals and barriers. It is always attached to the Program. Unique key is Problem_Key. It references parent Programs by Program_Enrollment_Key, Members by Member_ID (for direct access by member and efficient partitioning).

Also stores Member responses to the general and program questionnaires. Unique key is Questionnaire_Response_Key. It references Members by Member_ID and optionally related program by Program_ID. Also references questionnaire metadata by Questionnaire.Key.

Key components of this dataset include:

- **Program Management:** Stores details on the administration and operational aspects of healthcare programs, helping to oversee and coordinate activities effectively.
- **Enrollment Details:** Contains information about patient enrollment in specific programs, critical for tracking participation and engagement.
- **Care Planning:** Provides structured data on the planning of individual patient care within programs, ensuring tailored and proactive healthcare delivery.
- **Problem Identification:** Captures issues and challenges identified during the care process, facilitating timely interventions and support.
- **Notes and Logs:** Includes detailed notes and logs that document ongoing activities, observations, and interventions, offering a comprehensive view of patient interactions and program operations.

- **History Tracking:** Maintains records of historical data related to program changes and patient progress, essential for longitudinal studies and outcome assessments.
- **Raw Data Storage:** Holds unprocessed data, providing a robust foundation for in-depth analysis and research, enabling further insights into program effectiveness and areas for improvement.

This dataset plays a pivotal role in supporting healthcare organizations in managing complex programs, tracking patient care activities, and facilitating data-driven decision-making to enhance the quality of care and program outcomes.

Program

Column Name	Is Nullable	Data Type	Description
Program_ID	YES	STRING	A unique identifier assigned to each program within the database. See Dictionary Program table in the Dictionary Dataset Specification.
Screening_Key	YES	INT64	A key associated with screening records linked to the program.
Screening_Request_Key	YES	INT64	A key associated with screening requests linked to the program.
Program_Enrollment_Key	YES	INT64	An identifier assigned to program enrollment records.
Member_ID	YES	STRING	An identification number for the member enrolled in the program.
Member_Enrollment_Key	YES	STRING	An identifier for the member's enrollment, determined by locating the primary active enrollment where the screening date falls between the enrollment's effective and termination dates. If multiple enrollments exist, the one with the latest effective and termination dates is selected.
Member_Enrollment_Effective_Date	YES	DATE	The date when the member's enrollment in the program started, derived from the "Effective_Date" parameter within the "Member Enrollment" table associated with the member.
Member_Enrollment_Termination_Date	YES	DATE	The date when the member's enrollment in the program ended, derived from the "Termination_Date" parameter within the "Member Enrollment" table associated with the member.
Group_ID	YES	STRING	An identification number for the group associated with the member's enrollment, sourced from the "Group_ID" parameter within the "Member Enrollment" table associated with the member.
Group_Name	YES	STRING	The name of the group associated with the member's enrollment, retrieved from the "Group_Name" parameter within the "Member Enrollment" table associated with the member.
Plan_ID	YES	STRING	An identification number for the plan associated with the member's enrollment, obtained from the "Plan_ID" parameter within the "Member Enrollment" table associated with the member.
Plan_Description	YES	STRING	A description of the plan associated with the member's enrollment, fetched from the "Plan_Description" parameter within the "Member Enrollment" table associated with the member.

Column Name	Is Nullable	Data Type	Description
Line_Of_Business	YES	STRING	Identifier for the line of business associated with the member's enrollment. This identifier is mapped from the "Line_Of_Business" parameter within the "Member Enrollment" table. See Dictionary Line Of Business table in the Dictionary Dataset Specification.
Line_Of_Business_Description	YES	STRING	Description of the line of business associated with the member's enrollment. This description is obtained from the "Line_Of_Business_Description" parameter within the "Member Enrollment" table. See Dictionary Line Of Business table in the Dictionary Dataset Specification.
Screening_Request_Date	YES	DATE	The date when the screening request was made.
Program_Designation	YES	STRING	A code or identifier representing the designation of the program.
Program_Designation_Description	YES	STRING	A detailed description of the program designation.
Program_Class_Description	YES	STRING	Description of the program class. If Behavioral_Health is true, the description is 'Behavioral Health'; otherwise, it's 'Medical/Surgical'.
Source	YES	STRING	The source of the data or information. See Dictionary Program Source table in the Dictionary Dataset Specification.
Source_Description	YES	STRING	Description of the data or information source. See Dictionary Program Source table in the Dictionary Dataset Specification.
Screening_Program	YES	STRING	The program associated with the screening.
Screening_Program_Description	YES	STRING	Description of the program associated with the screening.
Screening_Severity	YES	STRING	The severity level of the screening. See Dictionary Program Severity table in the Dictionary Dataset Specification.
Screening_Severity_Description	YES	STRING	Description of the severity level of the screening. It is derived based on the value of the "Screening_Severity" parameter. See Dictionary Program Severity table in the Dictionary Dataset Specification.
Screening_Product	YES	STRING	The product related to the screening. See Dictionary Product table in the Dictionary Dataset Specification.

Column Name	Is Nullable	Data Type	Description
Screening_Product_Description	YES	STRING	Description of the product related to the screening. See Dictionary Product table in the Dictionary Dataset Specification.
Screening_Request_Created_Time stamp	YES	TIMESTAMP	The timestamp indicating when the screening request was created.
Screening_Request_Last_Modified_ Timestamp	YES	TIMESTAMP	The timestamp indicating when the screening request was last modified.
Screening_Date	YES	DATE	The date when the screening occurred.
Screening_Status	YES	STRING	The status of the screening request. See Dictionary Program Screening Status table in the Dictionary Dataset Specification.
Screening_Status_Description	YES	STRING	Description of the screening status. It is derived based on the value of the "Screening_Status" parameter. See Dictionary Program Screening Status table in the Dictionary Dataset Specification.
Referral_Outstanding_Days	YES	INT64	The number of days the referral has been outstanding. If the screening status is 'NOTCOMPLETED', this parameter calculates the difference between the current date and the screening request date. Otherwise, it's null.
Total_Duration_Days	YES	INT64	Total duration, in days, of the program's enrollment. This is calculated based on various conditions including enrollment start date, close date, and current date.
Enrollment_Status	YES	STRING	The status of the program's enrollment, derived from the screening status and enrollment start date.
Enrollment_Status_Description	YES	STRING	Description corresponding to the enrollment status, providing additional context on the program's enrollment state.
Not_Enrolled_Reason	YES	STRING	Reason for not enrolling in the program, if applicable. See Dictionary Not Enrolled Reason table in the Dictionary Dataset Specification.
Not_Enrolled_Reason_Description	YES	STRING	Description explaining the reason for not enrolling in the program, if provided. See Dictionary Not Enrolled Reason table in the Dictionary Dataset Specification.
Close_Reason	YES	STRING	The reason for closing the program, if applicable. See Dictionary Program Close Reason table in the Dictionary Dataset Specification.
Close_Reason_Description	YES	STRING	Description explaining the reason for closing the program, if provided. See Dictionary Program Close Reason table in the Dictionary Dataset Specification.

Column Name	Is Nullable	Data Type	Description
Screening_Owner_ID	YES	STRING	Identification of the screening owner, which can be either an individual or a department.
Screening_Owner_Type	YES	STRING	Type of screening owner, indicating whether it's an individual ("INDV") or a department ("DEPT").
Screening_Owner_Name	YES	STRING	Name of the screening owner, which could be a user's full name or a department's name, based on the screening owner ID.
Screening_Owner_User_Name	YES	STRING	User name of the screening owner.
Screening_Owner_Department_ID	YES	STRING	Department ID of the screening owner.
Screening_Owner_Department_Name	YES	STRING	Department name of the screening owner.
Screening_Owner_User_ID	YES	STRING	ID of the screening owner.
Screening_Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the screening was initially created.
Screening_Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the last modification made to the screening.
Screener_User_ID	YES	STRING	Identification of the user who conducted the screening.
Screener_User_Name	YES	STRING	Name of the user who conducted the screening.
Source_System_ID	YES	STRING	Identification of the source system. See Dictionary Source System table in the Dictionary Dataset Specification.
Source_System_Description	YES	STRING	Description of the source system. See Dictionary Source System table in the Dictionary Dataset Specification.
Source_System_Record_ID	YES	STRING	Record ID from the source system where the Source_System_ID is 'CARE_PLANNER_WEB'.
Enrollment_Program	YES	STRING	The program associated with enrollment.
Enrollment_Program_Description	YES	STRING	Description of the program associated with enrollment.
Enrollment_Severity	YES	STRING	Severity level associated with enrollment. See Dictionary Program Severity table in the Dictionary Dataset Specification.
Enrollment_Severity_Description	YES	STRING	Description of the severity level associated with enrollment. See Dictionary Program Severity table in the Dictionary Dataset Specification.

Column Name	Is Nullable	Data Type	Description
Enrollment_Product	YES	STRING	The product linked to the enrollment. See Dictionary Product table in the Dictionary Dataset Specification.
Enrollment_Product_Description	YES	STRING	Description of the product linked to the enrollment. See Dictionary Product table in the Dictionary Dataset Specification.
Enrollment_Date	YES	DATE	The date when enrollment in the program occurred.
Close_Date	YES	DATE	The date when the program was closed, if applicable.
Closed	YES	BOOL	Indicates whether the program is closed. It is true if the Close_Date is not null, otherwise false.
Enrollment_Start_Date	YES	DATE	The date when enrollment in the program started.
Enroller_User_ID	YES	STRING	Identification of the user who enrolled the program.
Enroller_User_Name	YES	STRING	Name of the user who enrolled the program, mapped to their full name.
Enrollment_Owner_ID	YES	STRING	Identification of the owner of the enrollment, which can be either an individual or a department.
Enrollment_Owner_Type	YES	STRING	Type of enrollment owner, indicating whether it's an individual ("INDV") or a department ("DEPT").
Enrollment_Owner_Name	YES	STRING	Name of the owner of the enrollment, which could be a user's full name or a department's name, based on the enrollment owner ID.
Enrollment_Owner_User_ID	YES	STRING	Unique identifier of the user who owns or is responsible for the program enrollment.
Enrollment_Owner_User_Name	YES	STRING	Full name of the user who owns or is responsible for the program enrollment.
Enrollment_Owner_Department_ID	YES	STRING	Unique identifier of the department that owns or is responsible for the program enrollment.
Enrollment_Owner_Department_Name	YES	STRING	Name of the department that owns or is responsible for the program enrollment.
Enrollment_Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the enrollment was initially created.
Enrollment_Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the last modification made to the enrollment.
Primary_Provider_Key	YES	STRING	The primary key of the primary provider associated with the program.
Primary_Provider_ID	YES	STRING	The identification of the primary provider associated with the program.
Primary_Provider_NPI	YES	STRING	The National Provider Identifier (NPI) of the primary provider associated with the program.
Primary_Provider_Type	YES	STRING	Type of the primary provider associated with the program.

Column Name	Is Nullable	Data Type	Description
Primary_Provider_Type_Description	YES	STRING	Description for the type of the primary provider associated with the program.
Primary_Provider_Name	YES	STRING	The name of the primary provider associated with the program, mapped to their full name.
Primary_Diagnosis_Key	YES	INT64	The primary key associated with the primary diagnosis of the program.
Primary_Diagnosis_Code	YES	STRING	The code representing the primary diagnosis of the program.
Primary_Diagnosis_Description	YES	STRING	Description of the primary diagnosis of the program.
Primary_Diagnosis_Coding_Scheme	YES	STRING	The coding scheme used for the primary diagnosis of the program.
Primary_Diagnosis_Coding_Scheme_Description	YES	STRING	Description of the coding scheme used for the primary diagnosis of the program.
Primary_Diagnosis_Condition_Category	YES	STRING	The category of the primary diagnosis condition.
Primary_Diagnosis_Condition_Category_Description	YES	STRING	Description of the category of the primary diagnosis condition.
Primary_Axis	YES	STRING	The primary axis associated with the diagnosis.
Primary_Axis_Description	YES	STRING	Description of the primary axis associated with the diagnosis.
Primary_Diagnosis_Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the primary diagnosis was initially created.
Primary_Diagnosis_Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the last modification made to the primary diagnosis.
Primary_Diagnosis_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the primary diagnosis was last updated in the program.
Program_Type	YES	STRING	Type or category of the program (e.g., clinical, wellness).
Program_Type_Description	YES	STRING	Detailed description of the type or category of the program.
Digital	YES	BOOL	Indicator of whether the program is conducted digitally (yes/no).
External_Program_ID	YES	STRING	Unique identifier for an external program linked to this dataset.
External_Program_Vendor_Code	YES	STRING	Code representing the vendor providing the external program.
External_Program_Vendor_Description	YES	STRING	Description of the external program vendor.

Column Name	Is Nullable	Data Type	Description
External_Program_Vendor_Phone	YES	STRING	Phone number of the external program vendor.
External_Program_Vendor_Email	YES	STRING	Email address of the external program vendor.
External_Program_Vendor_Link	YES	STRING	Link or URL for the external program vendor.
Current_Step	YES	STRING	Identifier for the current step or phase within the program.
Current_Step_Description	YES	STRING	Description of the current step or phase within the program.
Current_State	YES	STRING	State or status of the program (e.g., active, paused, completed).
Current_State_Description	YES	STRING	Detailed description of the program's current state or status.
Digital_Pause_Indicator	YES	BOOL	Indicator of whether the program is currently paused digitally (yes/no).
Digital_Pause_By_Type	YES	STRING	Type or reason for the digital pause.
Digital_Pause_By_Type_Description	YES	STRING	Detailed description of the type or reason for the digital pause.
Digital_Pause_Timestamp	YES	TIMESTAMP	Timestamp indicating when the program was paused digitally.
Last_Closed_User_ID	YES	STRING	User ID of the individual who last closed or completed the program.
Last_Closed_User_Name	YES	STRING	Name of the individual who last closed or completed the program.
Visibility_Level	YES	INT64	Level of visibility for the program.
Close_Timestamp	YES	TIMESTAMP	Records the date and time when the program was closed.
Enrollment_Reopen_Timestamp	YES	TIMESTAMP	Date and time when the program's enrollment was reopened.
Screening_Reopen_Timestamp	YES	TIMESTAMP	Records the date and time when the screening process in the program was reopened.
Source_Program_ID	YES	STRING	Identifies the source program from which the current program originated or was derived.

Program Close Edit History

Column Name	Is Nullable	Data Type	Description
Program_ID	YES	STRING	The identifier of the program associated with the edit history record. See Dictionary Program table in the Dictionary Dataset Specification.

Column Name	Is Nullable	Data Type	Description
Audit_Class	YES	STRING	The class or category of the audit data point being modified (e.g., demographic information, medical history, treatment plan). See Dictionary Audit Log Class table in the Dictionary Dataset Specification.
Audit_Data_Point	YES	STRING	The specific data point within the audit class being modified (e.g., patient age, diagnosis, medication dosage). See Dictionary Audit Log Data Point table in the Dictionary Dataset Specification.
Old_Value	YES	STRING	The previous value of the edited data point before the change.
New_Value	YES	STRING	The new value of the edited data point after the change.
Close_Date	YES	DATE	The date when the edit was made.
Edit_User_ID	YES	STRING	The identifier of the user who made the edit.
Edit_User_Name	YES	STRING	The name of the user who made the edit.
Edit_Timestamp	YES	TIMESTAMP	The timestamp indicating when the edit was made.

Program Created User

Column Name	Is Nullable	Data Type	Description
Program_ID	YES	STRING	The unique identifier for the program.
Created_User_ID	YES	STRING	The user ID of the person who created the program.
Created_User_Name	YES	STRING	The name of the user who created the program.

Program Custom Fields

Column Name	Is Nullable	Data Type	Description
Program_Custom_Field_Key	YES	STRING	The unique key or identifier for the custom field entry in the program's custom fields table.
Screening_Key	YES	INT64	The key associated with the screening process to which the custom field pertains.
Program_ID	YES	STRING	The identifier of the program to which the custom field belongs. See Dictionary Program table in the Dictionary Dataset Specification.

Column Name	Is Nullable	Data Type	Description
ID	YES	STRING	The identification number or code assigned to the custom field.
Title	YES	STRING	The title or name of the custom field, providing a brief description of its purpose or content.
Use	YES	STRING	Indicates how the custom field is utilized within the system or application.
Format_Type	YES	STRING	Specifies the data format type of the custom field.
Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the custom field entry was initially created.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the most recent modification made to the custom field entry.
Value	YES	STRING	The value associated with the custom field.
Value_Description	YES	STRING	A description or explanation providing additional context for the value of the custom field, especially if the value is not self-explanatory.
Select_Key	YES	STRING	The key associated with the selection made in the custom field, if applicable.
Select_Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the selection in the custom field was initially created.
Select_Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the most recent modification made to the selection in the custom field.

Program Custom Provider Roles

Column Name	Is Nullable	Data Type	Description
Program_Provider_Role_Key	YES	INT64	The unique key or identifier for the provider role entry in the program's custom provider roles table.
Program_Provider_Key	YES	INT64	The key associated with the provider within the program.
Screening_Key	YES	INT64	The key associated with the screening process to which the provider role pertains.
Program_ID	YES	STRING	The identifier of the program to which the provider role belongs. See Dictionary Program table in the Dictionary Dataset Specification.
Provider_Key	YES	STRING	The key or identifier associated with the provider in the system.
Provider_ID	YES	STRING	The identification number or code assigned to the provider.
Provider_NPI	YES	STRING	The National Provider Identifier (NPI) of the provider.
Provider_Type	YES	STRING	Type of the primary provider associated with the program.
Provider_Type_Description	YES	STRING	Description for the type of the primary provider associated with the program.

Column Name	Is Nullable	Data Type	Description
Provider_Name	YES	STRING	The name of the provider.
Primary	YES	BOOL	Indicates whether the provider holds a primary role within the program.
Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the provider role entry was initially created.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the most recent modification made to the provider role entry.
Code	YES	STRING	The code associated with the provider role. See Dictionary Program Provider Role table in the Dictionary Dataset Specification.
Description	YES	STRING	The description or name of the provider role, providing details about the role's responsibilities or functions. See Dictionary Program Provider Role table in the Dictionary Dataset Specification.
Role_Effective_Date	YES	DATE	The date when the provider assumed or started the role within the program.
Role_Termination_Date	YES	DATE	The date when the provider's role within the program was terminated or ended.
Role_Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the provider role entry was initially created or established.
Role_Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the most recent modification made to the provider role entry, including changes to role details such as effective or termination dates.

Program Decision Change

Column Name	Is Nullable	Data Type	Description
Screening_Key	YES	INT64	Unique identifier for the screening entry.
Decision_Changed	YES	BOOL	Indicates whether a decision has been changed (e.g., Yes/No).
Decision_Change_Timestamp	YES	TIMESTAMP	Date and time when the decision change was made.
Decision_Change_Date	YES	DATE	Specific date when the decision change was recorded.
Decision_Change_User_ID	YES	STRING	Identifier for the user who made the decision change.
Decision_Change_User_Name	YES	STRING	Name of the user who made the decision change.

Program Diagnoses

Column Name	Is Nullable	Data Type	Description
Program_Diagnosis_Key	YES	INT64	The unique key or identifier for the diagnosis entry in the program's diagnoses table.
Screening_Key	YES	INT64	The key associated with the screening process to which the diagnosis pertains.
Program_ID	YES	STRING	The identifier of the program to which the diagnosis belongs. See Dictionary Program table in the Dictionary Dataset Specification.
Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the diagnosis entry was initially created.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the most recent modification made to the diagnosis entry.
Primary	YES	BOOL	Indicates whether the diagnosis is the primary diagnosis for the program.
Code	YES	STRING	The code representing the diagnosis.
Description	YES	STRING	The description or name of the diagnosis, providing details about the medical condition or ailment.
Coding_Scheme	YES	STRING	The coding scheme used for the diagnosis code.
Coding_Scheme_Description	YES	STRING	Description of the coding scheme used for the diagnosis code.
Condition_Category	YES	STRING	The category or classification of the medical condition associated with the diagnosis.
Condition_Category_Description	YES	STRING	Description of the category or classification of the medical condition associated with the diagnosis.
Sequence	YES	INT64	The sequence number indicating the order of importance or relevance of the diagnosis within the program.
Axis	YES	STRING	The axis associated with the diagnosis code. See Dictionary Axis table in the Dictionary Dataset Specification.
Axis_Description	YES	STRING	Description of the axis associated with the diagnosis code. See Dictionary Axis table in the Dictionary Dataset Specification.

Cost Saving Program Enrollment Details

Column Name	Is Nullable	Data Type	Description
Program_Enrollment_Key	YES	INT64	The unique key or identifier for the enrollment in the program's enrollment cost saving details table.

Column Name	Is Nullable	Data Type	Description
Program_ID	YES	STRING	The identifier of the program to which the enrollment cost saving details belong. See Dictionary Program table in the Dictionary Dataset Specification.
Savings_Documentation_Start_Date	YES	DATE	The start date of the documentation period for cost-saving measures.
Savings_Documentation_End_Date	YES	DATE	The end date of the documentation period for cost-saving measures.
Cost_Saving_Code	YES	STRING	The code representing the specific cost-saving measure.
Cost_Saving_Description	YES	STRING	The description or name of the cost-saving measure, providing details about the method or approach used to save costs.
Cost_Saving_Type	YES	STRING	The type or category of the cost-saving measure.
Cost_Saving_Type_Description	YES	STRING	Description of the type or category of the cost-saving measure.
Other_Cost_Saving_Description	YES	STRING	Additional description or details for the cost-saving measure if it does not fit into predefined categories.
Care_Management_Type	YES	STRING	The type or method of care management associated with the cost-saving measure.
Care_Management_Type_Description	YES	STRING	Description of the type or method of care management associated with the cost-saving measure.
Coordinated_Care_Discharge_Disposition	YES	STRING	The disposition of the patient upon discharge related to coordinated care efforts.
Coordinated_Care_Discharge_Disposition_Description	YES	STRING	Description of the disposition of the patient upon discharge related to coordinated care efforts.
Other_Coordinated_Care_Discharge_Disposition_Description	YES	INT64	Additional description or details for the disposition of the patient upon discharge related to coordinated care efforts if it does not fit into predefined categories.
Cost_Saving_ID	YES	STRING	The identifier of the specific cost-saving entry.
Permission_Required	YES	BOOL	Indicates whether permission is required for the cost-saving measure.
Permission_From_Name	YES	STRING	The name of the entity or individual from whom permission is required for the cost-saving measure.
Permission_From_Role	YES	STRING	The role or position of the entity or individual from whom permission is required for the cost-saving measure.
Medical_Director_Name	YES	STRING	The name of the medical director associated with the cost-saving measure.
Cost_Saving_Void_Indicator	YES	BOOL	Indicates whether the cost-saving entry has been voided.
Cost_Saving_Void_Reason	YES	STRING	The reason for voiding the cost-saving measure.

Column Name	Is Nullable	Data Type	Description
Cost_Saving_Void_Reason_Description	YES	STRING	Description of the reason for voiding the cost-saving measure.
Cost_Saving_Created_User_ID	YES	STRING	The identifier of the user who created the cost-saving entry.
Cost_Saving_Created_User_Name	YES	STRING	The name of the user who created the cost-saving entry.
Cost_Saving_Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the cost-saving entry.
Cost_Saving_Last_Modified_User_Name	YES	STRING	The name of the user who last modified the cost-saving entry.
Cost_Saving_Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the cost-saving entry was initially created.
Cost_Saving_Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the most recent modification made to the cost-saving entry.
Cost_ID	YES	STRING	The identifier of the cost associated with the cost-saving measure.
Cost_Void_Indicator	YES	BOOL	Indicates whether the cost entry has been voided.
Cost_Void_Reason	YES	STRING	The reason for voiding the cost entry.
Cost_Void_Reason_Description	YES	STRING	Description of the reason for voiding the cost entry.
Diagnosis_Code	YES	STRING	The code representing the diagnosis associated with the cost-saving details.
Diagnosis_Description	YES	STRING	The description or name of the diagnosis, providing details about the medical condition or ailment.
Diagnosis_Group	YES	STRING	The group to which the diagnosis belongs.
Diagnosis_Group_Description	YES	STRING	Description of the diagnosis group.
Diagnosis_Coding_Scheme	YES	STRING	The coding scheme used for the diagnosis code.
Bed_Type	YES	STRING	The type of bed used for the patient's care. See Dictionary Bed Type table in the Dictionary Dataset Specification.
Bed_Type_Description	YES	STRING	Description of the bed type. See Dictionary Bed Type table in the Dictionary Dataset Specification.
Type_Of_Care	YES	STRING	The type or category of care provided.
Type_Of_Care_Description	YES	STRING	Description of the type or category of care provided.

Column Name	Is Nullable	Data Type	Description
Units	YES	INT64	The number of units of the service provided.
Cost_Per_Unit	YES	NUMERIC	The cost per unit of the service provided.
Cost_Type	YES	STRING	The type or category of the cost. See Dictionary Cost Type table in the Dictionary Dataset Specification.
Service_Code	YES	STRING	The code representing the service provided.
Service_Description	YES	STRING	The description or name of the service provided.
Service_Unit_Of_Measure	YES	STRING	The unit of measure for the service provided.
Service_Provider_Name	YES	STRING	The name of the provider who delivered the service.
Primary_Service_Coding_Scheme	YES	STRING	The coding scheme used for the primary service code.
Cost_Created_User_ID	YES	STRING	The identifier of the user who created the cost-saving details.
Cost_Created_User_Name	YES	STRING	The name of the user who created the cost-saving details.
Cost_Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the cost-saving details.
Cost_Last_Modified_User_Name	YES	STRING	The name of the user who last modified the cost-saving details.
Cost_Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the cost-saving details were initially created.
Cost_Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the most recent modification made to the cost-saving details.
Total_Cost	YES	NUMERIC	The total cost associated with the provided service or care.
Expected_Cost	YES	NUMERIC	The expected cost of the service or care.
Actual_Cost	YES	NUMERIC	The actual cost incurred for the service or care.
Cost_Category	YES	STRING	The category or classification of the cost.
Cost_Category_Description	YES	STRING	Description of the category or classification of the cost.
Cost_Type_Description	YES	STRING	Description of the type or category of the cost. See Dictionary Cost Type table in the Dictionary Dataset Specification.
Savings_Documentation_End_Date_YYYYMM	YES	STRING	The end date of the documentation period for savings in YYYYMM format.
Documentation_Closed	YES	BOOL	Indicates whether the documentation for cost savings is closed.

Column Name	Is Nullable	Data Type	Description
Condition_Category	YES	STRING	Represents a category or classification related to specific conditions (e.g., health conditions, cost-saving criteria).
Condition_Category_Description	YES	STRING	Provides additional details about the condition category (e.g., “Chronic Diseases” or “Eligibility Criteria”).

Cost Saving Program Enrollment Notes

Column Name	Is Nullable	Data Type	Description
Note_Key	YES	INT64	The unique identifier/key for the cost-saving note.
Cost_Saving_Key	YES	STRING	The key linking the note to the specific cost-saving details to which it pertains.
Text	YES	STRING	The content or text of the note, providing additional information or comments related to the cost-saving details.
Author_User_ID	YES	STRING	The identifier of the user who authored or created the note.
Author_User_Name	YES	STRING	The full name of the user who authored or created the note.
Author_User_Title	YES	STRING	The title or position of the user who authored or created the note.
Author_Phone_Number	YES	STRING	The phone number associated with the author of the note, if applicable.
Void_Indicator	YES	BOOL	Indicator if the note is voided.
Void_Timestamp	YES	TIMESTAMP	Timestamp when the note was voided.
Void_Reason	YES	STRING	Reason for voiding the note.
Void_Reason_Description	YES	STRING	Description of the reason for voiding the note.
Void_User_ID	YES	STRING	Identifier for the user who voided the note.
Void_User_Name	YES	STRING	Name of the user who voided the note.
Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the note was initially created.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the most recent modification made to the note.

Cost Saving Program Enrollment Summary

Column Name	Is Nullable	Data Type	Description
Savings_Documentation_End_Date_YYYYMM	YES	STRING	The end date of the documentation period for cost savings, represented in YYYYMM format.

Column Name	Is Nullable	Data Type	Description
Enrollment_Program	YES	STRING	The identifier or code for the enrollment program associated with the cost-saving summary.
Enrollment_Program_Description	YES	STRING	A description providing details about the enrollment program associated with the cost-saving summary.
Enrollment_Product	YES	STRING	The identifier or code for the product related to the enrollment program. See Dictionary Product table in the Dictionary Dataset Specification.
Enrollment_Product_Description	YES	STRING	A description providing details about the product related to the enrollment program. See Dictionary Product table in the Dictionary Dataset Specification.
Group_ID	YES	STRING	The identifier for the group associated with the cost-saving summary.
Group_Name	YES	STRING	The name or label of the group associated with the cost-saving summary.
Plan_ID	YES	STRING	The identifier for the plan associated with the cost-saving summary.
Plan_Description	YES	STRING	A description providing details about the plan associated with the cost-saving summary.
Line_Of_Business	YES	STRING	The identifier for the line of business associated with the cost-saving summary. See Dictionary Line Of Business table in the Dictionary Dataset Specification.
Line_Of_Business_Description	YES	STRING	A description providing details about the line of business associated with the cost-saving summary. See Dictionary Line Of Business table in the Dictionary Dataset Specification.
Client_Code	YES	STRING	The code representing the client associated with the cost-saving summary.
Client_Code_Description	YES	STRING	A description providing details about the client associated with the cost-saving summary.
Cost_Saving_Type	YES	STRING	The type or category of cost-saving.
Cost_Saving_Type_Description	YES	STRING	A description providing details about the type or category of cost-saving.
Total_Cost_Saving_Count	YES	INT64	The total count of cost-saving instances.
Total_Expected_Cost	YES	NUMERIC	The total expected cost for all instances of cost-saving.
Total_Actual_Cost	YES	NUMERIC	The total actual cost for all instances of cost-saving.
Total_Cost_Saving	YES	NUMERIC	The total cost savings achieved across all instances.

Program Enrollment Owner History

Column Name	Is Nullable	Data Type	Description
Program_Enrollment_Key	YES	INT64	The unique identifier for the enrollment within the program.
First_Enrollment_Owner_ID	YES	STRING	The ID of the first owner responsible for the enrollment, determined from historical data within each enrolled program ID.
First_Enrollment_Owner_Name	YES	STRING	The name of the first owner responsible for the enrollment, derived from historical data within each enrolled program ID.
First_Enrollment_Owner_Type	YES	STRING	The type of the first owner responsible for the enrollment, determined from historical data within each enrolled program ID (e.g., individual or department).
Enrollment_Owner_ID	YES	STRING	The ID of the current owner responsible for the enrollment, derived from the current program data, considering both user and department IDs.
Enrollment_Owner_Name	YES	STRING	The name of the current owner responsible for the enrollment, derived from the current program data, considering both user and department names.
Enrollment_Owner_Type	YES	STRING	The type of the current owner responsible for the enrollment, derived from the current program data (e.g., individual or department).
Previous_Enrollment_Owner_ID	YES	STRING	The ID of the previous owner responsible for the enrollment, determined from historical data within each enrolled program ID.
Previous_Enrollment_Owner_Name	YES	STRING	The name of the previous owner responsible for the enrollment, derived from historical data within each enrolled program ID.
Previous_Enrollment_Owner_Type	YES	STRING	The type of the previous owner responsible for the enrollment, determined from historical data within each enrolled program ID (e.g., individual or department).
First	YES	BOOL	A flag indicating whether the record is the first historical record within a program.
Latest	YES	BOOL	A flag indicating whether the record is the latest historical record within a program.
Effective_Timestamp	YES	TIMESTAMP	The timestamp indicating the effective time of the record.
Transaction_User_ID	YES	STRING	The ID of the user associated with the transaction.
Transaction_User_Name	YES	STRING	The full name of the user associated with the transaction, derived from the user ID.
Deleted_Indicator	YES	BOOL	A flag used as a filter, typically set to false to filter out deleted records.

Program Enrollment Reopen Details

Column Name	Is Nullable	Data Type	Description
Program_Enrollment_Key	YES	INT64	Unique identifier for the program enrollment entry.
Days_In_Closed_Program	YES	INT64	Number of days the program was in a closed state.
Enrollment_Month_Count	YES	FLOAT64	Total number of months the enrollment has been active.
Days_In_Program	YES	INT64	Total number of days the enrollment has been active.
Enrollment_Reopen_Count	YES	INT64	Number of times the enrollment has been reopened.
Enrollment_Reopen_Reason	YES	STRING	Reason for reopening the enrollment.
Enrollment_Reopen_Reason_Description	YES	STRING	Detailed description of the reason for reopening the enrollment.
Enrollment_Reopen_Date	YES	DATE	Date when the enrollment was reopened.
Enrollment_Reopen_User_ID	YES	STRING	Identifier for the user who reopened the enrollment.
Enrollment_Reopen_User_Name	YES	STRING	Name of the user who reopened the enrollment.
Enrollment_Reopen	YES	BOOL	Indicates whether the enrollment has been reopened (e.g., Yes/No).

Program Enrollment Reopen History

Column Name	Is Nullable	Data Type	Description
Program_Enrollment_Key	YES	INT64	Unique identifier for each enrollment record in the program.
Program_ID	YES	STRING	Identifier for the program associated with the enrollment. See Dictionary Program table in the Dictionary Dataset Specification.
Enrollment_Start_Date	YES	DATE	The date when the enrollment started. For reopened programs, the reopen date is used as the enrollment start date.
Enrollment_Close_Date	YES	DATE	The date when the enrollment was closed.
Days_In_Closed_Program	YES	INT64	Number of days the program was closed. Calculated based on the closed and open/reopen dates for all iterations using data from Program_LOG table.
Gap_Days	YES	INT64	Number of days between the current program's closed date and the next program's reopen date.
Enrollment_Reopen	YES	BOOL	Indicates whether the enrollment was reopened. True if the program was reopened, otherwise false.

Column Name	Is Nullable	Data Type	Description
Enrollment_Reopen_User_ID	YES	STRING	ID of the user who reopened the enrollment.
Enrollment_Reopen_User_Name	YES	STRING	Full name of the user who initiated the reopening of the enrollment. This information is mapped to the Full_Name field within the User table based on the Enrollment_Reopen_User_ID.
Enrollment_Reopen_Reason	YES	STRING	Reason for reopening the enrollment. See Dictionary Program Reopen Reason table in the Dictionary Dataset Specification.
Enrollment_Reopen_Reason_Description	YES	STRING	Description of the reason for reopening the enrollment. See Dictionary Program Reopen Reason table in the Dictionary Dataset Specification.
Enrollment_Reopen_Order	YES	INT64	Sequential number assigned to each open/reopen/close record within an enrollment ID.
Latest	YES	BOOL	Indicates whether a record is the latest or not. True if it's the latest record, otherwise false.

Program Enrollment Severity History

Column Name	Is Nullable	Data Type	Description
Program_Enrollment_Key	YES	INT64	Unique identifier for each enrollment record in the program.
First_Enrollment_Severity	YES	STRING	The severity of the first enrollment in the program, calculated based on data from the Program_LOG table. See Dictionary Program Severity table in the Dictionary Dataset Specification.
First_Enrollment_Severity_Description	YES	STRING	Description of the severity of the first enrollment, derived from data in the Program_LOG table. See Dictionary Program Severity table in the Dictionary Dataset Specification.
First_Effective_Timestamp	YES	TIMESTAMP	Date and time when the severity for the first enrollment was set within the program.
Enrollment_Severity	YES	STRING	Severity of the current enrollment in the program. See Dictionary Program Severity table in the Dictionary Dataset Specification.
Enrollment_Severity_Description	YES	STRING	Description of the severity of the current enrollment. See Dictionary Program Severity table in the Dictionary Dataset Specification.

Column Name	Is Nullable	Data Type	Description
Previous_Enrollment_Severity	YES	STRING	Severity of the enrollment before the current one, calculated based on data from the Program_LOG table. See Dictionary Program Severity table in the Dictionary Dataset Specification.
Previous_Enrollment_Severity_Description	YES	STRING	Description of the severity of the enrollment before the current one, derived from data in the Program_LOG table. See Dictionary Program Severity table in the Dictionary Dataset Specification.
Next_Effective_Timestamp	YES	TIMESTAMP	Date and time when the next historical record of enrollment severity within the program begins. If null, the current record is the latest change.
First	YES	BOOL	Indicates whether a record is the first historical record within a program. True if it is the first record, false otherwise.
Latest	YES	BOOL	Indicates whether a record is the latest historical record within a program. True if it is the latest record, false otherwise.
Effective_Timestamp	YES	TIMESTAMP	Date and time when a change to the enrolled severity occurred within the program.
Program_Enrollment_Severity_User_ID	YES	STRING	ID of the user responsible for setting the enrollment severity.
Program_Enrollment_Severity_User_Name	YES	STRING	Full name of the user responsible for setting the enrollment severity, derived from the User table.
Deleted_Indicator	YES	BOOL	Indicator used as a filter. False indicates that the record is not deleted.

Program Global Assessment of Functioning

Column Name	Is Nullable	Data Type	Description
Program_Global_Assessment_of_Functioning_Key	YES	INT64	Unique identifier for each record of global assessment of functioning within the program.
Screening_Key	YES	INT64	Identifier linking the assessment to a specific screening process.
Program_ID	YES	STRING	Unique identifier for the program associated with the assessment. See Dictionary Program table in the Dictionary Dataset Specification.
Score	YES	INT64	The score assigned for the global assessment of functioning.
Score_Entry_Date	YES	DATE	The date when the score for the global assessment of functioning was entered.
Created_Timestamp	YES	TIMESTAMP	The date and time when the assessment record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	The date and time when the assessment record was last modified.

Column Name	Is Nullable	Data Type	Description
Latest	YES	BOOL	Indicator of whether this is the most recent Global Assessment of Functioning (GAF) record for the program participant.

Program Move History

Column Name	Is Nullable	Data Type	Description
Screening_Request_Key	YES	INT64	Unique identifier for the screening request associated with the program move.
Program_ID	YES	STRING	Unique identifier for the program involved in the move. See Dictionary Program table in the Dictionary Dataset Specification.
Entity_Move_Key	YES	INT64	Unique key for tracking the specific move event within the program.
From_Member_Key	YES	INT64	Unique key of the member from whom the program is being moved.
To_Member_Key	YES	INT64	Unique key of the member to whom the program is being moved.
From_Member_ID	YES	STRING	Identifier for the member from which the program was moved.
To_Member_ID	YES	STRING	Identifier for the member to which the program was moved.
Moved_By_User_ID	YES	STRING	User ID of the user who initiated the program move.
Moved_By_User_Name	YES	STRING	Full name of the user who initiated the program move.
Moved_Timestamp	YES	TIMESTAMP	Timestamp indicating when the program move occurred.

Program Life Cycle Reopen Details

Column Name	Is Nullable	Data Type	Description
Days_In_Closed_Program	YES	INT64	Number of days the program remained in a closed status.
Days_In_Program	YES	INT64	Number of days the program has been active overall.
Month_Count	YES	STRING	Count of months associated with the program's reopen period.
Reopen	YES	BOOL	Indicator of whether the program was reopened.
Reopen_Count	YES	INT64	Number of times the program has been reopened.
Reopen_Date	YES	DATE	Date on which the program was reopened.

Column Name	Is Nullable	Data Type	Description
Reopen_Reason	YES	STRING	Code identifying the reason the program was reopened.
Reopen_Reason_Description	YES	STRING	Descriptive text explaining the reason the program was reopened.
Reopen_User_ID	YES	STRING	Identifier of the user who reopened the program.
Reopen_User_Name	YES	STRING	Name of the user who reopened the program.
Screening_Key	YES	INT64	Unique key identifying the screening associated with the program reopen.

Program Life Cycle Reopen History

Column Name	Is Nullable	Data Type	Description
Close_Date	YES	DATE	Date on which the program was closed.
Close_Reason	YES	STRING	Code identifying the reason the program was closed.
Close_Reason_Description	YES	STRING	Descriptive text explaining the reason the program was closed.
Days_In_Closed_Program	YES	INT64	Number of days the program remained in a closed status during this history entry.
Gap_Days	YES	INT64	Number of days between the program's close and its subsequent reopen.
Latest	YES	BOOL	Indicator of whether this record represents the most recent entry in the program's reopen history.
Program_ID	YES	STRING	Unique identifier of the program associated with the history entry.
Reopen	YES	BOOL	Indicator of whether the program was reopened in this history entry.
Reopen_Order	YES	INT64	Sequential order number of the reopen event within the program's history.
Reopen_Reason	YES	STRING	Code identifying the reason the program was reopened in this history entry.
Reopen_Reason_Description	YES	STRING	Descriptive text explaining the reason the program was reopened in this history entry.
Reopen_User_ID	YES	STRING	Identifier of the user who reopened the program in this history entry.
Reopen_User_Name	YES	STRING	Name of the user who reopened the program in this history entry.
Screening_Key	YES	INT64	Unique key identifying the screening associated with this history entry.
Start_Date	YES	DATE	Date on which the program, or this stage of the program, started.

Program Notes

Column Name	Is Nullable	Data Type	Description
Program_Note_Key	YES	STRING	Unique identifier for each program note entry.
Screening_Key	YES	INT64	Unique identifier linking the note to a specific screening.
Text	YES	STRING	The content of the note.
Type	YES	STRING	Indicates the type of note. See Dictionary Note Type table in the Dictionary Dataset Specification.
Type_Description	YES	STRING	Description of the note type. See Dictionary Note Type table in the Dictionary Dataset Specification.
Timestamp	YES	TIMESTAMP	Timestamp indicating when the note was created.
Author_User_ID	YES	STRING	User ID of the author who created the note.
Author_User_Name	YES	STRING	Full name of the author who created the note.
Void_Indicator	YES	BOOL	Indicator whether the note is voided or not.
Void_Timestamp	YES	TIMESTAMP	Timestamp indicating when the note was voided.
Void_Reason	YES	STRING	Reason for voiding the note. See Dictionary Note Void Reason table in the Dictionary Dataset Specification.
Void_Reason_Description	YES	STRING	Description of the reason for voiding the note. See Dictionary Note Void Reason table in the Dictionary Dataset Specification.
Void_User_ID	YES	STRING	User ID of the user who voided the note.
Void_User_Name	YES	STRING	Full name of the user who voided the note.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the note was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating the last modification time of the note.

Program Plan Of Care Goal Barriers

Column Name	Is Nullable	Data Type	Description
Program_Plan_Of_Care_Goal_Barrier_Key	YES	INT64	Unique identifier for each barrier entry within a program plan of care goal. See Dictionary Barrier table in the Dictionary Dataset Specification.
Program_Plan_Of_Care_Goal_Key	YES	INT64	Unique identifier linking the barrier to a specific program plan of care goal.
Code	YES	STRING	Code representing the barrier.
Description	YES	STRING	Description of the barrier. See Dictionary Barrier table in the Dictionary Dataset Specification.
Other_Description	YES	STRING	Additional description if the barrier is not covered by the predefined codes.
Identification_Date	YES	DATE	Date when the barrier was identified.
Resolution_Date	YES	DATE	Date when the barrier was resolved.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the barrier entry was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating the last modification time of the barrier entry.
Barrier_Resolved	YES	BOOL	Indicator whether the barrier is resolved or not.
Barrier_Resolved_Days	YES	INT64	Number of days taken to resolve the barrier.
Barrier_Resolved_Days_Description	YES	STRING	Description of the duration taken to resolve the barrier.
Barrier_Resolved_Days_Sort_Order	YES	INT64	Sort order for displaying barriers based on the number of days taken to resolve them, used for sorting purposes.

Program Plan Of Care Goal Focus History

Column Name	Is Nullable	Data Type	Description
Goal_Key	YES	INT64	Unique identifier for each program plan of care goal. See Dictionary Goal Focus table in the Dictionary Dataset Specification.
First_Goal_Focus_Description	YES	STRING	Description of the first goal focus associated with the program plan of care goal.

Column Name	Is Nullable	Data Type	Description
Goal_Focus_Description	YES	STRING	Description of the current goal focus associated with the program plan of care goal. See Dictionary Goal Focus table in the Dictionary Dataset Specification.
Previous_Goal_Focus_Description	YES	STRING	Description of the previous goal focus associated with the program plan of care goal.
Effective_Timestamp	YES	TIMESTAMP	Timestamp indicating when the goal focus change took effect.
First	YES	BOOL	Indicates whether the record represents the first historical change of the goal focus within a program goal.
Latest	YES	BOOL	Indicates whether the record represents the latest historical change of the goal focus within a program goal.
Transaction_User_ID	YES	STRING	Unique identifier of the user who initiated the change in goal focus.
Deleted_Indicator	YES	BOOL	Indicator of whether the record has been deleted.

Program Plan Of Care Goal Focuses

Column Name	Is Nullable	Data Type	Description
Program_Plan_Of_Care_Goal_Focus_Key	YES	INT64	Unique identifier for each program plan of care goal focus. See Dictionary Goal Focus table in the Dictionary Dataset Specification.
Program_Plan_Of_Care_Goal_Key	YES	INT64	Unique identifier linking the goal focus to the corresponding program plan of care goal.
Code	YES	STRING	Code representing the program plan of care goal focus.
Description	YES	STRING	Description of the program plan of care goal focus. See Dictionary Goal Focus table in the Dictionary Dataset Specification.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the program plan of care goal focus was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the program plan of care goal focus was last modified.

Program Plan Of Care Goal Intervention Engagement Emmi Notes

Column Name	Is Nullable	Data Type	Description
Program_Plan_Of_Care_Goal_Intervention_Engagement_Emmi_Note_Key	YES	INT64	Unique identifier for each note related to program plan of care goal intervention engagement.

Column Name	Is Nullable	Data Type	Description
Program_Plan_Of_Care_Goal_Intervention_Key	YES	INT64	Unique identifier linking the note to the corresponding program plan of care goal intervention.
Text	YES	STRING	Text content of the note.
Entry_Timestamp	YES	TIMESTAMP	Timestamp indicating when the note was entered.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the note was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the note was last modified.

Program Plan Of Care Goal Interventions

Column Name	Is Nullable	Data Type	Description
Program_Plan_Of_Care_Goal_Intervention_Key	YES	INT64	Unique identifier for a specific intervention within a program plan of care goal.
Program_Plan_Of_Care_Goal_Key	YES	INT64	Unique identifier for the associated program plan of care goal.
Code	YES	STRING	Code representing the specific intervention.
Description	YES	STRING	Detailed description of the intervention.
Other_Description	YES	STRING	Additional description for interventions not covered by standard categories.
Start_Date	YES	DATE	Date when the intervention was initiated.
Actual_Completion_Date	YES	DATE	Actual date when the intervention was completed.
Target_Completion_Date	YES	DATE	Projected date for intervention completion.
Created_Timestamp	YES	TIMESTAMP	Timestamp when this intervention record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to this intervention record.
Engagement_Key	YES	INT64	Unique identifier for the engagement associated with this intervention.
Engagement_Status	YES	STRING	Current status of the engagement.
Engagement_Status_Description	YES	STRING	Detailed description of the engagement status.
Engagement_Initiated_Timestamp	YES	TIMESTAMP	Timestamp when the engagement was initiated.
Engagement_Completed_Timestamp	YES	TIMESTAMP	Timestamp when the engagement was completed.

Column Name	Is Nullable	Data Type	Description
Engagement_Last_Activity_Timestamp	YES	TIMESTAMP	Timestamp of the last activity related to this engagement.
Engagement_Type	YES	STRING	Type or category of the engagement.
Engagement_Type_Description	YES	STRING	Detailed description of the engagement type.
Engagement_Code	YES	STRING	Code representing the specific engagement.
Engagement_Description	YES	STRING	Description of the engagement.
Engagement_Created_Timestamp	YES	TIMESTAMP	Timestamp when the engagement record was created.
Engagement_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to the engagement record.
Engagement_Emmi_Member_Email_Address	YES	STRING	Email address of the member for Emmi program communication.
Engagement_Emmi_Access_Code	YES	STRING	Access code for the member to use the Emmi program.
Engagement_Emmi_Access_URL	YES	STRING	URL for accessing the Emmi program.
Engagement_Emmi_Target_Date	YES	DATE	Target date for completing the Emmi program.
Engagement_Emmi_Created_Timestamp	YES	TIMESTAMP	Timestamp when the Emmi program record was created.
Engagement_Emmi_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to the Emmi program record.
Engagement_Emmi_Status	YES	STRING	Current status of the Emmi program engagement.
Engagement_Emmi_Status_Description	YES	STRING	Detailed description of the Emmi program status.
Closed	YES	BOOL	Indicator of whether the intervention is closed.
Closed_State	YES	STRING	State of the intervention when it was closed.
Closed_State_Description	YES	STRING	Description of the closed state.
Closed_Days	YES	INT64	Number of days the intervention was active before closing.
Closed_Days_Description	YES	STRING	Description of the duration category for closed interventions.
Closed_Days_Sort_Order	YES	INT64	Sorting order for the closed days category.
Engagement_Emmi_Notes_Present	YES	BOOL	Indicator of whether notes are present for the Emmi program engagement.

Program Plan Of Care Goals

Column Name	Is Nullable	Data Type	Description
Program_Plan_Of_Care_Goal_Key	YES	INT64	Unique identifier for each plan of care goal. See Dictionary Goal table in the Dictionary Dataset Specification.
Member_ID	YES	STRING	Identifier of the member associated with the goal.
Problem_Key	YES	INT64	Unique identifier for the problem associated with the goal.
Code	YES	STRING	Code representing the goal.
Description	YES	STRING	Description of the goal. See Dictionary Goal table in the Dictionary Dataset Specification.
Other_Description	YES	STRING	Additional description for the goal if available.
Type	YES	STRING	Type of the goal. See Dictionary Goal Type table in the Dictionary Dataset Specification.
Type_Description	YES	STRING	Description of the goal type. See Dictionary Goal Type table in the Dictionary Dataset Specification.
Start_Date	YES	DATE	Date when the goal was initiated.
Actual_Completion_Date	YES	DATE	Actual completion date of the goal.
Target_Completion_Date	YES	DATE	Target completion date set for the goal.
Outcome	YES	STRING	Outcome of the goal. See Dictionary Goal Outcome table in the Dictionary Dataset Specification.
Outcome_Description	YES	STRING	Description of the outcome. See Dictionary Goal Outcome table in the Dictionary Dataset Specification.
Outcome_Category	YES	STRING	Category of the outcome. See Dictionary Goal Outcome table in the Dictionary Dataset Specification.

Column Name	Is Nullable	Data Type	Description
Outcome_Category_Description	YES	STRING	Description of the outcome category. See Dictionary Goal Outcome Category table in the Dictionary Dataset Specification.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the goal was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the goal was last modified.
Goal_Count	YES	INT64	Count of goals associated with the plan of care.
Barriers_Count	YES	INT64	Count of barriers associated with the goal.
Interventions_Count	YES	INT64	Count of interventions associated with the goal.
Barriers_Exists	YES	BOOL	Indicates whether barriers exist for the goal.
Interventions_Exists	YES	BOOL	Indicates whether interventions exist for the goal.
Goal_Closed	YES	BOOL	Indicates whether the goal is closed.
Closed_State	YES	STRING	State of closure for the goal.
Closed_State_Description	YES	STRING	Description of the closure state for the goal.
Closed_Days_Description	YES	STRING	Description of the days until closure for the goal.
Closed_Days_Sort_Order	YES	INT64	Sort order for the days until closure for the goal.
Closed_Days	YES	INT64	Number of days until closure for the goal.

Program Plan Of Care Notes

Column Name	Is Nullable	Data Type	Description
Program_Plan_Of_Care_Note_Key	YES	STRING	Unique identifier for each note associated with a plan of care.
Problem_Key	YES	INT64	Unique identifier for the problem related to the note.
Text	YES	STRING	The content of the note.
Author_User_ID	YES	STRING	Identifier of the user who authored the note.
Author_User_Name	YES	STRING	Full name of the user who authored the note.
Void_Indicator	YES	BOOL	Indicates whether the note has been voided.
Void_Timestamp	YES	TIMESTAMP	The timestamp when the note was voided.

Column Name	Is Nullable	Data Type	Description
Void_Reason	YES	STRING	The reason for voiding the note.
Void_Reason_Description	YES	STRING	A detailed description of the reason for voiding the note.
Void_User_ID	YES	STRING	The ID of the user who voided the note.
Void_User_Name	YES	STRING	The name of the user who voided the note.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the note was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the note was last modified.

Program Plan Of Care Problems

Column Name	Is Nullable	Data Type	Description
Member_ID	YES	STRING	Unique identifier for the member associated with the problem.
Program_Enrollment_Key	YES	INT64	Unique identifier for the enrollment program related to the problem.
Program_ID	YES	STRING	Unique identifier for the program associated with the problem. See Dictionary Program table in the Dictionary Dataset Specification.
Problem_Key	YES	INT64	Unique identifier for the problem entry.
Member_Enrollment_Key	YES	STRING	Unique identifier for the member's enrollment.
Member_Enrollment_Effective_Date	YES	DATE	Effective date of the member's enrollment in the program.
Member_Enrollment_Termination_Date	YES	DATE	Termination date of the member's enrollment in the program.
Group_ID	YES	STRING	ID of the group to which the member belongs.
Group_Name	YES	STRING	Name of the group to which the member belongs.
Plan_ID	YES	STRING	ID of the plan associated with the problem.
Plan_Description	YES	STRING	Description of the plan associated with the problem.
Line_Of_Business	YES	STRING	Line of business related to the problem. See Dictionary Line Of Business table in the Dictionary Dataset Specification.

Column Name	Is Nullable	Data Type	Description
Line_Of_Business_Description	YES	STRING	Description of the line of business related to the problem. See Dictionary Line Of Business table in the Dictionary Dataset Specification.
Problem	YES	STRING	Description of the problem. See Dictionary Problem table in the Dictionary Dataset Specification.
Problem_Description	YES	STRING	Detailed description of the problem. See Dictionary Problem table in the Dictionary Dataset Specification.
Problem_Status	YES	STRING	Status of the problem. See Dictionary Problem Status table in the Dictionary Dataset Specification.
Problem_Status_Description	YES	STRING	Description of the problem status. See Dictionary Problem Status table in the Dictionary Dataset Specification.
Outcome_Code	YES	STRING	Code representing the outcome of the problem.
Problem_Outcome	YES	STRING	Outcome of the problem. See Dictionary Problem Outcome table in the Dictionary Dataset Specification.
Problem_Outcome_Description	YES	STRING	Description of the outcome of the problem. See Dictionary Problem Outcome table in the Dictionary Dataset Specification.
Problem_Outcome_Category	YES	STRING	Category of the outcome of the problem. See Dictionary Problem Outcome Category table in the Dictionary Dataset Specification.
Problem_Outcome_Category_Description	YES	STRING	Description of the category of the outcome of the problem. See Dictionary Problem Outcome Category table in the Dictionary Dataset Specification.
Problem_Other_Description	YES	STRING	Additional description of the problem if necessary.
Start_Date	YES	DATE	Date when the problem was initiated.
Actual_Completion_Date	YES	DATE	Actual completion date of the problem.

Column Name	Is Nullable	Data Type	Description
Target_Completion_Date	YES	DATE	Target completion date of the problem.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the problem entry was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the problem entry was last modified.
Problem_Closed	YES	BOOL	Indicates whether the problem is closed or not.
Problem_Closed_Days	YES	INT64	Number of days the problem has been closed.
Problem_Closed_Days_Description	YES	STRING	Description of the number of days the problem has been closed.
Problem_Closed_Days_Sort_Order	YES	INT64	Sorting order of the problem based on closed days.
Closed_State	YES	STRING	State of closure for the problem.
Closed_State_Description	YES	STRING	Description of the state of closure for the problem.
Goals_Exist	YES	BOOL	Indicates whether goals exist for the problem.
Barriers_Exist	YES	BOOL	Indicates whether barriers exist for the problem.
Interventions_Exist	YES	BOOL	Indicates whether interventions exist for the problem.
Goals_Count	YES	INT64	Number of goals associated with the problem.
Barriers_Count	YES	INT64	Number of barriers associated with the problem.
Interventions_Count	YES	INT64	Number of interventions associated with the problem.
Problem_Priority	YES	STRING	The priority of the problem in the program plan of care.
Problem_Source	YES	STRING	The source of the problem in the program plan of care.

Program Plan Of Care Raw

Column Name	Is Nullable	Data Type	Description
Member_ID	YES	STRING	Unique identifier for the member associated with this plan of care.
Program_Enrollment_Key	YES	INT64	Unique identifier for the program enrollment related to this plan of care.
Program_ID	YES	STRING	Identifier for the specific program.
Problem_Key	YES	INT64	Unique identifier for the problem being addressed in the plan of care.
Problem	YES	STRING	Brief description or code for the problem.

Column Name	Is Nullable	Data Type	Description
Problem_Description	YES	STRING	Detailed description of the problem.
Problem_Status	YES	STRING	Current status of the problem.
Problem_Status_Description	YES	STRING	Detailed description of the problem status.
Outcome_Code	YES	STRING	Code representing the outcome of the problem.
Problem_Outcome	YES	STRING	Brief description of the problem outcome.
Problem_Outcome_Description	YES	STRING	Detailed description of the problem outcome.
Problem_Outcome_Category	YES	STRING	Category of the problem outcome.
Problem_Outcome_Category_Description	YES	STRING	Detailed description of the problem outcome category.
Problem_Other_Description	YES	STRING	Additional description for problems not covered by standard categories.
Start_Date	YES	DATE	Date when the problem was identified or the plan of care was initiated.
Actual_Completion_Date	YES	DATE	Actual date when the problem was resolved or the plan completed.
Target_Completion_Date	YES	DATE	Projected date for problem resolution or plan completion.
Created_Timestamp	YES	TIMESTAMP	Timestamp when this record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to this record.
Notes	NO	ARRAY	Collection of notes associated with this plan of care.
Notes.Key	NO	INT64	Unique identifier for a specific note.
Notes.Text	NO	STRING	Content of the note.
Notes.Author_User_ID	NO	STRING	Identifier of the user who authored the note.
Notes.Created_Timestamp	NO	TIMESTAMP	Timestamp when the note was created.
Notes.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the note.
Goals	NO	ARRAY	Collection of goals associated with this plan of care.
Goals.Key	NO	INT64	Unique identifier for a specific goal.
Goals.Code	NO	STRING	Code representing the goal.
Goals.Description	NO	STRING	Description of the goal.

Column Name	Is Nullable	Data Type	Description
Goals.Other_Description	NO	STRING	Additional description for goals not covered by standard categories.
Goals.Type	NO	STRING	Type or category of the goal.
Goals.Type_Description	NO	STRING	Detailed description of the goal type.
Goals.Start_Date	NO	DATE	Date when work towards the goal was initiated.
Goals.Actual_Completion_Date	NO	DATE	Actual date when the goal was achieved.
Goals.Target_Completion_Date	NO	DATE	Projected date for goal achievement.
Goals.Outcome	NO	STRING	Brief description or code for the goal outcome.
Goals.Outcome_Description	NO	STRING	Detailed description of the goal outcome.
Goals.Outcome_Category	NO	STRING	Category of the goal outcome.
Goals.Outcome_Category_Description	NO	STRING	Detailed description of the goal outcome category.
Goals.Created_Timestamp	NO	TIMESTAMP	Timestamp when the goal record was created.
Goals.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the goal record.
Goals.Focuses	NO	ARRAY	Collection of focus areas associated with each goal.
Goals.Focuses.Key	NO	INT64	Unique identifier for a specific focus area.
Goals.Focuses.Code	NO	STRING	Code representing the focus area.
Goals.Focuses.Description	NO	STRING	Description of the focus area.
Goals.Focuses.Created_Timestamp	NO	TIMESTAMP	Timestamp when the focus area record was created.
Goals.Focuses.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the focus area record.
Goals.Interventions	NO	ARRAY	Collection of interventions associated with each goal.
Goals.Interventions.Key	NO	INT64	Unique identifier for a specific intervention.
Goals.Interventions.Code	NO	STRING	Code representing the intervention.
Goals.Interventions.Description	NO	STRING	Description of the intervention.
Goals.Interventions.Other_Description	NO	STRING	Additional description for interventions not covered by standard categories.

Column Name	Is Nullable	Data Type	Description
Goals.Interventions.Start_Date	NO	DATE	Date when the intervention was initiated.
Goals.Interventions.Actual_Completion_Date	NO	DATE	Actual date when the intervention was completed.
Goals.Interventions.Target_Completion_Date	NO	DATE	Projected date for intervention completion.
Goals.Interventions.Created_Timestamp	NO	TIMESTAMP	Timestamp when the intervention record was created.
Goals.Interventions.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the intervention record.
Goals.Interventions.Engagement	NO	STRUCT	Collection of engagement activities associated with each intervention.
Goals.Interventions.Engagement.Key	NO	INT64	Unique identifier for a specific engagement activity.
Goals.Interventions.Engagement.Status	NO	STRING	Status of the engagement activity.
Goals.Interventions.Engagement.Status_Description	NO	STRING	Detailed description of the engagement activity status.
Goals.Interventions.Engagement.Initiated_Timestamp	NO	TIMESTAMP	Timestamp when the engagement activity was initiated.
Goals.Interventions.Engagement.Completed_Timestamp	NO	TIMESTAMP	Timestamp when the engagement activity was completed.
Goals.Interventions.Engagement.Last_Activity_Timestamp	NO	TIMESTAMP	Timestamp of the last activity related to this engagement.
Goals.Interventions.Engagement.Type	NO	STRING	Type or category of the engagement activity.
Goals.Interventions.Engagement.Type_Description	NO	STRING	Detailed description of the engagement activity type.
Goals.Interventions.Engagement.Code	NO	STRING	Code representing the specific engagement activity.
Goals.Interventions.Engagement.Description	NO	STRING	Description of the engagement activity.

Column Name	Is Nullable	Data Type	Description
Goals.Interventions.Engagement.Created_Timestamp	NO	TIMESTAMP	Timestamp when the engagement activity record was created.
Goals.Interventions.Engagement.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the engagement activity record.
Goals.Interventions.Engagement.Emmi	NO	STRUCT	Collection of Emmi program details associated with engagement activities.
Goals.Interventions.Engagement.Emmi.Member_Email_Address	NO	STRING	Email address of the member for Emmi program communication.
Goals.Interventions.Engagement.Emmi.Access_Code	NO	STRING	Access code for the member to use the Emmi program.
Goals.Interventions.Engagement.Emmi.Access_URL	NO	STRING	URL for accessing the Emmi program.
Goals.Interventions.Engagement.Emmi.Target_Date	NO	DATE	Target date for completing the Emmi program.
Goals.Interventions.Engagement.Emmi.Status	NO	STRING	Status of the member's participation in the Emmi program.
Goals.Interventions.Engagement.Emmi.Status_Description	NO	STRING	Detailed description of the Emmi program status.
Goals.Interventions.Engagement.Emmi.Created_Timestamp	NO	TIMESTAMP	Timestamp when the Emmi program record was created.
Goals.Interventions.Engagement.Emmi.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the Emmi program record.
Goals.Interventions.Engagement.Emmi.Notes	NO	ARRAY	Collection of notes associated with the Emmi program.
Goals.Interventions.Engagement.Emmi.Notes.Key	NO	INT64	Unique identifier for a specific Emmi program note.
Goals.Interventions.Engagement.Emmi.Notes.Text	NO	STRING	Content of the Emmi program note.
Goals.Interventions.Engagement.Emmi.Notes.Entry_Timestamp	NO	TIMESTAMP	Timestamp when the Emmi program note was entered.
Goals.Interventions.Engagement.Emmi.Notes.Created_Timestamp	NO	TIMESTAMP	Timestamp when the Emmi program note record was created.

Column Name	Is Nullable	Data Type	Description
Goals.Interventions.Engagement.Emmi.Notes.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the Emmi program note record.
Goals.Barriers	NO	ARRAY	Collection of barriers associated with each goal.
Goals.Barriers.Key	NO	INT64	Unique identifier for a specific barrier.
Goals.Barriers.Code	NO	STRING	Code representing the barrier.
Goals.Barriers.Description	NO	STRING	Description of the barrier.
Goals.Barriers.Other_Description	NO	STRING	Additional description for barriers not covered by standard categories.
Goals.Barriers.Identification_Date	NO	DATE	Date when the barrier was identified.
Goals.Barriers.Resolution_Date	NO	DATE	Date when the barrier was resolved.
Goals.Barriers.Created_Timestamp	NO	TIMESTAMP	Timestamp when the barrier record was created.
Goals.Barriers.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the barrier record.
Record_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification made to this entire record.
Transaction_User_ID	YES	STRING	Identifier of the user who performed the last transaction on this record.
Type	YES	STRING	Type or category of this log entry.
Tenant	YES	STRING	Identifier for the tenant or organization in a multi-tenant system.
Active_Version	YES	BOOL	Indicator of whether this is the currently active version of the record.
Date	YES	DATE	Date associated with this log entry.
Sequence	YES	INT64	Sequence number for ordering multiple changes on the same date.
Source_System_Name	YES	STRING	Name of the source system that provided this data.
Source_Timestamp	YES	TIMESTAMP	Timestamp from the source system for this data.
Source_File_Name	YES	STRING	Name of the source file that contained this data.
Schema_Version	YES	FLOAT64	Version of the data schema used for this record.
Member_Partition	YES	INT64	Partition identifier for the member's data in a partitioned database system.
Deleted_Indicator	YES	BOOL	Indicator of whether this record has been marked as deleted.

Column Name	Is Nullable	Data Type	Description
_updated	YES	STRING	Indicates whether the record is updated or not.
Transaction_Actor_Type	YES	STRING	Type of the actor performing the transaction.
Problem_Priority	YES	STRING	The priority of the problem in the program plan of care.
Problem_Source	YES	STRING	The source of the problem in the program plan of care.

Questionnaire Program Question Response Comparison

Column Name	Is Nullable	Data Type	Description
Program_Enrollment_Key	YES	INT64	Unique identifier for the enrollment program associated with the question response comparison.
Program_ID	YES	STRING	Unique identifier for the program associated with the question response comparison. See Dictionary Program table in the Dictionary Dataset Specification.
Member_ID	YES	STRING	Unique identifier for the member associated with the question response comparison.
Enrollment_Program	YES	STRING	Program name or code for the enrollment associated with the question response comparison.
Enrollment_Program_Description	YES	STRING	Description of the program for the enrollment associated with the question response comparison.
Enrollment_Product	YES	STRING	Product name or code for the enrollment associated with the question response comparison. See Dictionary Product table in the Dictionary Dataset Specification.
Enrollment_Product_Description	YES	STRING	Description of the product for the enrollment associated with the question response comparison. See Dictionary Product table in the Dictionary Dataset Specification.
Question_Key	YES	INT64	Unique identifier for the question associated with the response comparison.
Program_Enrollment_Start_Date	YES	DATE	Start date of the enrollment program associated with the question response comparison.
Program_Close_Date	YES	DATE	Close date of the enrollment program associated with the question response comparison.
Program_Close_Reason	YES	STRING	Reason for closing the enrollment program associated with the question response comparison. See Dictionary Program Close Reason table in the Dictionary Dataset Specification.
Class	YES	STRING	Class of the question associated with the response comparison.
Class_Description	YES	STRING	Description of the class of the question associated with the response comparison.

Column Name	Is Nullable	Data Type	Description
Full_Question_Clinical	YES	STRING	Full clinical description of the question associated with the response comparison.
Short_Question	YES	STRING	Short description or abbreviation of the question associated with the response comparison.
Question_Report_Title	YES	STRING	Title of the report containing the question associated with the response comparison.
Question_Code	YES	STRING	Code representing the question associated with the response comparison.
Question_Response_Type	YES	STRING	Type of response expected for the question associated with the response comparison.
Question_Display_Type	YES	STRING	Display type of the question associated with the response comparison.
Question_Response_Type_Description	YES	STRING	Description of the response type expected for the question associated with the response comparison.
Question_Response_Value_Type	YES	STRING	Value type of the response for the question associated with the response comparison.
Question_Response_Value_Type_Description	YES	STRING	Description of the value type of the response for the question associated with the response comparison.
First_Response_Timestamp	YES	TIMESTAMP	Timestamp of the first response for the question associated with the response comparison.
First_Response_Value_Text	YES	STRING	Text value of the first response for the question associated with the response comparison.
First_Response_Value_Date	YES	DATE	Date value of the first response for the question associated with the response comparison.
First_Response_Value_Number	YES	NUMERIC	Numeric value of the first response for the question associated with the response comparison.
Latest_Response_Value_Text	YES	STRING	Text value of the latest response for the question associated with the response comparison.
Latest_Response_Value_Date	YES	DATE	Date value of the latest response for the question associated with the response comparison.
Latest_Response_Value_Number	YES	NUMERIC	Numeric value of the latest response for the question associated with the response comparison.
Latest_Response_Timestamp	YES	TIMESTAMP	Timestamp of the latest response for the question associated with the response comparison.
Days_Count_Between_First_Last_Responses	YES	INT64	Number of days between the first and latest responses for the question associated with the response comparison.
One_Response_Indicator	YES	BOOL	Indicator specifying if there is only one response for the question associated with the response comparison.

Program Provider Roles

Column Name	Is Nullable	Data Type	Description
Program_Provider_Role_Key	YES	INT64	Unique identifier for the program provider roles entry.

Column Name	Is Nullable	Data Type	Description
Program_Provider_Key	YES	INT64	Unique identifier for the program provider associated with the roles.
Program_ID	YES	STRING	Unique identifier for the program associated with the provider roles. See Dictionary Program table in the Dictionary Dataset Specification.
Provider_ID	YES	STRING	Unique identifier for the provider associated with the roles.
Provider_NPI	YES	STRING	National Provider Identifier (NPI) of the provider associated with the roles.
Primary	YES	BOOL	Indicator specifying if the role is primary for the provider.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider roles entry was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider roles entry was last modified.
Role_Effective_Date	YES	DATE	Effective date of the provider's role within the program.
Role_Termination_Date	YES	DATE	Termination date of the provider's role within the program, if applicable.
Role_Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider's role entry was created.
Role_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the provider's role entry was last modified.

Program Screening Owner History

Column Name	Is Nullable	Data Type	Description
Screening_Key	YES	INT64	Unique key associated with the screening.
First_Screening_Owner_ID	YES	STRING	ID of the first screening owner.
First_Screening_Owner_Name	YES	STRING	Name of the first screening owner.
First_Screening_Owner_Type	YES	STRING	Type of the first screening owner ([[calculated based on Program LOG data within each enrolled program ID]]).
Screening_Owner_ID	YES	STRING	ID of the screening owner.
Screening_Owner_Name	YES	STRING	Name of the screening owner.
Screening_Owner_Type	YES	STRING	Type of the screening owner ([[calculated based on Program LOG data within each enrolled program ID]]).
Previous_Screening_Owner_ID	YES	STRING	ID of the previous screening owner.
Previous_Screening_Owner_Name	YES	STRING	Name of the previous screening owner.
Previous_Screening_Owner_Type	YES	STRING	Type of the previous screening owner ([[calculated based on Program LOG data within each enrolled program ID]]).

Column Name	Is Nullable	Data Type	Description
First	YES	BOOL	Set to true for the first historical record within a program.
Latest	YES	BOOL	Set to true for the latest historical record within a program.
Effective_Timestamp	YES	TIMESTAMP	Timestamp indicating the effectiveness of the screening ownership.
Transaction_User_ID	YES	STRING	ID of the user associated with the transaction.
Transaction_User_Name	YES	STRING	Name of the user associated with the transaction.
Deleted_Indicator	YES	BOOL	Indicator used to filter deleted records.

Program Screening Reopen Details

Column Name	Is Nullable	Data Type	Description
Screening_Key	YES	INT64	Unique identifier for the screening entry.
Screening_Reopen_Date	YES	DATE	Date when the screening was reopened.
Screening_Reopen_Reason	YES	STRING	Reason for reopening the screening.
Screening_Reopen_Reason_Description	YES	STRING	Detailed description of the reason for reopening the screening.
Screening_Reopen_Timestamp	YES	TIMESTAMP	Date and time when the program's screening was reopened.

Program Social Problems

Column Name	Is Nullable	Data Type	Description
Screening_Key	YES	INT64	Unique key associated with the screening.
Program_ID	YES	STRING	Identifier of the program. See Dictionary Program table in the Dictionary Dataset Specification.
Social_Problem_Code_1	YES	BOOL	Indicates whether there is a value for Social_Problems.Code for the first social problem.
Social_Problem_Code_2	YES	BOOL	Indicates whether there is a value for Social_Problems.Code for the second social problem.
Social_Problem_Code_3	YES	BOOL	Indicates whether there is a value for Social_Problems.Code for the third social problem.
Social_Problem_Code_4	YES	BOOL	Indicates whether there is a value for Social_Problems.Code for the fourth social problem.

Column Name	Is Nullable	Data Type	Description
Social_Problem_Code_5	YES	BOOL	Indicates whether there is a value for Social_Problems.Code for the fifth social problem.
Social_Problem_Code_6	YES	BOOL	Indicates whether there is a value for Social_Problems.Code for the sixth social problem.
Social_Problem_Code_7	YES	BOOL	Indicates whether there is a value for Social_Problems.Code for the seventh social problem.
Social_Problem_Code_8	YES	BOOL	Indicates whether there is a value for Social_Problems.Code for the eighth social problem.
Social_Problem_Code_9	YES	BOOL	Indicates whether there is a value for Social_Problems.Code for the ninth social problem.
Social_Problems_Selected	YES	STRING	Comma-separated descriptions for all valued Social_Problems.Description based on Social_Problems.Key.

Program Steps

Column Name	Is Nullable	Data Type	Description
Program_ID	YES	STRING	Unique identifier for the program associated with the steps.
Screening_Key	YES	INT64	Key or identifier for the screening process linked to the program.
Step	YES	STRING	Identifier for a specific step within the program's workflow.
Step_Description	YES	STRING	Detailed description of the step within the program's workflow.
State	YES	STRING	Current state or status of the step (e.g., active, completed).
State_Description	YES	STRING	Detailed description of the state or status of the step.
State_Last_Modified_User_ID	YES	STRING	ID of the user who last modified the state of the step.
State_Last_Modified_User_Name	YES	STRING	Name of the user who last modified the state of the step.
State_Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the state of the step was initially created.
State_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the state of the step was last updated.

Program Log

Column Name	Is Nullable	Data Type	Description
Member_ID	YES	STRING	Unique identifier for the member associated with this program log entry.
Screening_Request_Key	YES	INT64	Unique identifier for the screening request associated with this program.
Screening_Request_Date	YES	DATE	Date of the screening request.

Column Name	Is Nullable	Data Type	Description
Behavioral_Health	YES	BOOL	Indicator of whether this is a behavioral health program.
Program_Designation	YES	STRING	Designation or category of the program.
Program_Designation_Description	YES	STRING	Detailed description of the program designation.
Program_Type	YES	STRING	Type or classification of the program.
Program_Type_Description	YES	STRING	Detailed description of the program type.
Digital	YES	BOOL	Indicator of whether this is a digital program.
External_Program_ID	YES	STRING	Identifier for the program in an external system.
External_Program_Vendor_Code	YES	STRING	Code representing the external vendor for the program.
Current_Step	YES	STRING	Current step or phase of the program.
Current_Step_Description	YES	STRING	Detailed description of the current program step.
Current_State	YES	STRING	Current state of the program.
Current_State_Description	YES	STRING	Detailed description of the current program state.
Digital_Pause_Indicator	YES	BOOL	Indicator of whether the digital program is paused.
Digital_Pause_By_Type	YES	STRING	Type of entity that paused the digital program.
Digital_Pause_By_Type_Description	YES	STRING	Description of the entity type that paused the digital program.
Digital_Pause_Timestamp	YES	TIMESTAMP	Timestamp when the digital program was paused.
Source	YES	STRING	Source or origin of the program.
Source_Description	YES	STRING	Detailed description of the program source.
Screening_Program	YES	STRING	Specific screening program used.
Screening_Program_Description	YES	STRING	Detailed description of the screening program.
Screening_Severity	YES	STRING	Severity level determined during screening.
Screening_Severity_Description	YES	STRING	Detailed description of the screening severity.
Screening_Product	YES	STRING	Product associated with the screening.
Screening_Product_Description	YES	STRING	Detailed description of the screening product.

Column Name	Is Nullable	Data Type	Description
Screening_Request_Created_Time stamp	YES	TIMESTAMP	Timestamp when the screening request was created.
Screening_Request_Last_Modified_ Timestamp	YES	TIMESTAMP	Timestamp of the last modification to the screening request.
Providers	NO	ARRAY	Collection of providers associated with this program.
Providers.Provider_Key	NO	STRING	Unique identifier for a provider.
Providers.Program_Provider_Key	NO	INT64	Unique identifier for the provider within the program context.
Providers.Provider_ID	NO	STRING	Identifier for the provider.
Providers.Provider_NPI	NO	STRING	National Provider Identifier (NPI) for the provider.
Providers.Primary	NO	BOOL	Indicator of whether this is the primary provider for the program.
Providers.Created_Timestamp	NO	TIMESTAMP	Timestamp when the provider record was created.
Providers.Last_Modified_Timestam p	NO	TIMESTAMP	Timestamp of the last modification to the provider record.
Providers.Roles	NO	ARRAY	Collection of roles associated with each provider.
Providers.Roles.Key	NO	INT64	Unique identifier for a provider role.
Providers.Roles.Code	NO	STRING	Code representing the provider role.
Providers.Roles.Description	NO	STRING	Description of the provider role.
Providers.Roles.Effective_Date	NO	DATE	Date when the provider role became effective.
Providers.Roles.Termination_Date	NO	DATE	Date when the provider role is set to terminate.
Providers.Roles.Created_Timestam p	NO	TIMESTAMP	Timestamp when the provider role record was created.
Providers.Roles.Last_Modified_Tim estamp	NO	TIMESTAMP	Timestamp of the last modification to the provider role record.
Screening_Key	YES	INT64	Unique identifier for the screening associated with this program.
Screening_Date	YES	DATE	Date when the screening was conducted.
Close_Date	YES	DATE	Date when the program was closed.
Last_Closed_User_ID	YES	STRING	Identifier of the user who last closed the program.

Column Name	Is Nullable	Data Type	Description
Screening_Status	YES	STRING	Current status of the screening.
Enrollment_Status	YES	STRING	Current status of the program enrollment.
Not_Enrolled_Reason	YES	STRING	Reason code for non-enrollment, if applicable.
Not_Enrolled_Reason_Description	YES	STRING	Detailed description of the reason for non-enrollment.
Program_ID	YES	STRING	Identifier for the specific program.
Close_Reason	YES	STRING	Reason code for closing the program.
Close_Reason_Description	YES	STRING	Detailed description of the program closure reason.
Screening_Owner_User_ID	YES	STRING	Identifier of the user who owns or is responsible for the screening.
Screening_Owner_Department_ID	YES	STRING	Identifier of the department that owns or is responsible for the screening.
Screening_Created_Timestamp	YES	TIMESTAMP	Timestamp when the screening record was created.
Screening_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to the screening record.
Screener_User_ID	YES	STRING	Identifier of the user who conducted the screening.
Screening_Reopen_Date	YES	DATE	Date when the screening was reopened, if applicable.
Screening_Reopen_Reason	YES	STRING	Reason code for reopening the screening.
Screening_Reopen_Reason_Description	YES	STRING	Detailed description of the reason for reopening the screening.
Source_System_ID	YES	STRING	Identifier of the source system for this program data.
Source_System_Description	YES	STRING	Description of the source system.
Source_System_Record_ID	YES	STRING	Identifier of this record in the source system.
Program_Enrollment_Key	YES	INT64	Unique identifier for the program enrollment.
Enrollment_Program	YES	STRING	Specific program in which the member is enrolled.
Enrollment_Program_Description	YES	STRING	Detailed description of the enrollment program.
Enrollment_Severity	YES	STRING	Severity level determined at enrollment.
Enrollment_Severity_Description	YES	STRING	Detailed description of the enrollment severity.
Enrollment_Product	YES	STRING	Product associated with the enrollment.

Column Name	Is Nullable	Data Type	Description
Enrollment_Product_Description	YES	STRING	Detailed description of the enrollment product.
Enrollment_Date	YES	DATE	Date when the enrollment decision was made.
Enrollment_Start_Date	YES	DATE	Start date of the program enrollment.
Enrollment_Reopen_Reason	YES	STRING	Reason code for reopening the enrollment.
Enrollment_Reopen_Reason_Description	YES	STRING	Detailed description of the reason for reopening the enrollment.
Enrollment_Reopen_Date	YES	DATE	Date when the enrollment was reopened.
Enrollment_Reopen_User_ID	YES	STRING	Identifier of the user who reopened the enrollment.
Enroller_User_ID	YES	STRING	Identifier of the user who processed the enrollment.
Enrollment_Owner_User_ID	YES	STRING	Identifier of the user who owns or is responsible for the enrollment.
Enrollment_Owner_Department_ID	YES	STRING	Identifier of the department that owns or is responsible for the enrollment.
Enrollment_Created_Timestamp	YES	TIMESTAMP	Timestamp when the enrollment record was created.
Enrollment_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to the enrollment record.
Diagnoses	NO	ARRAY	Collection of diagnoses associated with this program.
Diagnoses.Key	NO	INT64	Unique identifier for a specific diagnosis.
Diagnoses.Created_Timestamp	NO	TIMESTAMP	Timestamp when the diagnosis record was created.
Diagnoses.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the diagnosis record.
Diagnoses.Primary	NO	BOOL	Indicator of whether this is the primary diagnosis.
Diagnoses.Code	NO	STRING	Code representing the diagnosis.
Diagnoses.Description	NO	STRING	Description of the diagnosis.
Diagnoses.Coding_Scheme	NO	STRING	Coding scheme used for the diagnosis (e.g., ICD-10).
Diagnoses.Coding_Scheme_Description	NO	STRING	Description of the coding scheme used.
Diagnoses.Condition_Category	NO	STRING	Category of the condition or diagnosis.

Column Name	Is Nullable	Data Type	Description
Diagnoses.Condition_Category_Description	NO	STRING	Description of the condition category.
Diagnoses.Sequence	NO	INT64	Sequence or order of the diagnosis.
Diagnoses.Axis	NO	STRING	Axis classification for the diagnosis (typically used in mental health).
Diagnoses.Axis_Description	NO	STRING	Description of the diagnostic axis.
Steps	NO	ARRAY	Collection of steps or phases in the program.
Steps.Step	NO	STRING	Specific step or phase of the program.
Steps.Step_Description	NO	STRING	Description of the program step.
Steps.State	NO	STRING	Current state of the program step.
Steps.State_Description	NO	STRING	Description of the program step state.
Steps.State_Last_Modified_User_ID	NO	STRING	Identifier of the user who last modified the step state.
Steps.State_Created_Timestamp	NO	TIMESTAMP	Timestamp when the step state record was created.
Steps.State_Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the step state record.
Social_Problems	NO	ARRAY	Collection of social problems identified for the member.
Social_Problems.Key	NO	INT64	Unique identifier for a specific social problem.
Social_Problems.Code	NO	STRING	Code representing the social problem.
Social_Problems.Description	NO	STRING	Description of the social problem.
Social_Problems.Created_Timestamp	NO	TIMESTAMP	Timestamp when the social problem record was created.
Social_Problems.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the social problem record.
Global_Assessment_of_Functioning	NO	ARRAY	Collection of Global Assessment of Functioning (GAF) scores.
Global_Assessment_of_Functioning.Key	NO	INT64	Unique identifier for a specific GAF score entry.
Global_Assessment_of_Functioning.Score	NO	INT64	Numerical GAF score.

Column Name	Is Nullable	Data Type	Description
Global_Assessment_of_Functioning_Score_Entry_Date	NO	DATE	Date when the GAF score was entered.
Global_Assessment_of_Functioning_Created_Timestamp	NO	TIMESTAMP	Timestamp when the GAF score record was created.
Global_Assessment_of_Functioning_Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the GAF score record.
Custom_Fields	NO	ARRAY	Collection of custom fields associated with this program.
Custom_Fields.Key	NO	STRING	Unique identifier for a custom field.
Custom_Fields.ID	NO	STRING	Identifier for the custom field.
Custom_Fields.Title	NO	STRING	Title or label of the custom field.
Custom_Fields.Use	NO	STRING	Purpose or intended use of the custom field.
Custom_Fields.Created_Timestamp	NO	TIMESTAMP	Timestamp when the custom field record was created.
Custom_Fields.Last_Modified_Time stamp	NO	TIMESTAMP	Timestamp of the last modification to the custom field record.
Custom_Fields.Values	NO	ARRAY	Collection of values associated with the custom field.
Custom_Fields.Values.Select_Key	NO	STRING	Unique identifier for a selected value in the custom field.
Custom_Fields.Values.Value	NO	STRING	Actual value stored in the custom field.
Custom_Fields.Values.Value_Description	NO	STRING	Description or explanation of the value in the custom field.
Custom_Fields.Values.Created_Timestamp	NO	TIMESTAMP	Timestamp when the custom field value was created.
Custom_Fields.Values.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the custom field value.
Notes	NO	ARRAY	Collection of notes associated with this program.
Notes.Key	NO	INT64	Unique identifier for a specific note.
Notes.Text	NO	STRING	Content or text of the note.
Notes.Type	NO	STRING	Type or category of the note.
Notes.Type_Description	NO	STRING	Description of the note type.

Column Name	Is Nullable	Data Type	Description
Notes.Timestamp	NO	TIMESTAMP	Timestamp when the note was created or entered.
Notes.Author_User_ID	NO	STRING	Identifier of the user who authored the note.
Notes.Void_Indicator	NO	BOOL	Indicator of whether the note has been voided.
Notes.Void_Timestamp	NO	TIMESTAMP	Timestamp when the note was voided, if applicable.
Notes.Void_Reason	NO	STRING	Reason code for voiding the note, if applicable.
Notes.Void_Reason_Description	NO	STRING	Detailed description of the reason for voiding the note.
Notes.Void_User_ID	NO	STRING	Identifier of the user who voided the note.
Notes.Created_Timestamp	NO	TIMESTAMP	Timestamp when the note record was created.
Notes.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the note record.
Visibility_Level	YES	INT64	Level of visibility or access permissions for this program record.
Record_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification made to this entire record.
Transaction_User_ID	YES	STRING	Identifier of the user who performed the last transaction on this record.
Type	YES	STRING	Type or category of this log entry.
Tenant	YES	STRING	Identifier for the tenant or organization in a multi-tenant system.
Active_Version	YES	BOOL	Indicator of whether this is the currently active version of the record.
Date	YES	DATE	Date associated with this log entry.
Sequence	YES	INT64	Sequence number for ordering multiple changes on the same date.
Source_System_Name	YES	STRING	Name of the source system that provided this data.
Source_Timestamp	YES	TIMESTAMP	Timestamp from the source system for this data.
Source_File_Name	YES	STRING	Name of the source file that contained this data.
Deleted_Indicator	YES	BOOL	Indicator of whether this record has been marked as deleted.
Schema_Version	YES	FLOAT64	Version of the data schema used for this record.
Member_Partition	YES	INT64	Partition identifier for the member's data in a partitioned database system.
Action	YES	STRING	Type of action performed on this record (e.g., create, update, delete).
Transaction_Actor_Type	YES	STRING	Type of actor (user, system process) that performed the last transaction.

Column Name	Is Nullable	Data Type	Description
Close_Timestamp	YES	TIMESTAMP	Records the date and time when the program was closed.
Enrollment_Reopen_Timestamp	YES	TIMESTAMP	Records the date and time when enrollment in the program was reopened.
Screening_Reopen_Timestamp	YES	TIMESTAMP	Records the date and time when the screening process in the program was reopened.
Source_Program_ID	YES	STRING	Identifies the source program from which the current program originated or was derived.

Program Plan of Care Log

Column Name	Is Nullable	Data Type	Description
Member_ID	YES	STRING	Unique identifier for the member associated with this plan of care.
Program_Enrollment_Key	YES	INT64	Unique identifier for the program enrollment related to this plan of care.
Program_ID	YES	STRING	Identifier for the specific program.
Problem_Key	YES	INT64	Unique identifier for the problem being addressed in the plan of care.
Problem	YES	STRING	Brief description or code for the problem.
Problem_Description	YES	STRING	Detailed description of the problem.
Problem_Status	YES	STRING	Current status of the problem.
Problem_Status_Description	YES	STRING	Detailed description of the problem status.
Outcome_Code	YES	STRING	Code representing the outcome of the problem.
Problem_Outcome	YES	STRING	Brief description of the problem outcome.
Problem_Outcome_Description	YES	STRING	Detailed description of the problem outcome.
Problem_Outcome_Category	YES	STRING	Category of the problem outcome.
Problem_Outcome_Category_Description	YES	STRING	Detailed description of the problem outcome category.
Problem_Other_Description	YES	STRING	Additional description for problems not covered by standard categories.
Start_Date	YES	DATE	Date when the problem was identified or the plan of care was initiated.
Actual_Completion_Date	YES	DATE	Actual date when the problem was resolved or the plan completed.
Target_Completion_Date	YES	DATE	Projected date for problem resolution or plan completion.

Column Name	Is Nullable	Data Type	Description
Created_Timestamp	YES	TIMESTAMP	Timestamp when this record was created.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to this record.
Notes	NO	ARRAY	Collection of notes associated with this plan of care.
Notes.Key	NO	INT64	Unique identifier for a specific note.
Notes.Text	NO	STRING	Content of the note.
Notes.Author_User_ID	NO	STRING	Identifier of the user who authored the note.
Notes.Created_Timestamp	NO	TIMESTAMP	Timestamp when the note was created.
Notes.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the note.
Goals	NO	ARRAY	Collection of goals associated with this plan of care.
Goals.Key	NO	INT64	Unique identifier for a specific goal.
Goals.Code	NO	STRING	Code representing the goal.
Goals.Description	NO	STRING	Description of the goal.
Goals.Other_Description	NO	STRING	Additional description for goals not covered by standard categories.
Goals.Type	NO	STRING	Type or category of the goal.
Goals.Type_Description	NO	STRING	Detailed description of the goal type.
Goals.Start_Date	NO	DATE	Date when work towards the goal was initiated.
Goals.Actual_Completion_Date	NO	DATE	Actual date when the goal was achieved.
Goals.Target_Completion_Date	NO	DATE	Projected date for goal achievement.
Goals.Outcome	NO	STRING	Brief description or code for the goal outcome.
Goals.Outcome_Description	NO	STRING	Detailed description of the goal outcome.
Goals.Outcome_Category	NO	STRING	Category of the goal outcome.
Goals.Outcome_Category_Description	NO	STRING	Detailed description of the goal outcome category.
Goals.Created_Timestamp	NO	TIMESTAMP	Timestamp when the goal record was created.
Goals.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the goal record.

Column Name	Is Nullable	Data Type	Description
Goals.Focuses	NO	ARRAY	Collection of focus areas associated with each goal.
Goals.Focuses.Key	NO	INT64	Unique identifier for a specific focus area.
Goals.Focuses.Code	NO	STRING	Code representing the focus area.
Goals.Focuses.Description	NO	STRING	Description of the focus area.
Goals.Focuses.Created_Timestamp	NO	TIMESTAMP	Timestamp when the focus area record was created.
Goals.Focuses.Last_Modified_Time stamp	NO	TIMESTAMP	Timestamp of the last modification to the focus area record.
Goals.Interventions	NO	ARRAY	Collection of interventions associated with each goal.
Goals.Interventions.Key	NO	INT64	Unique identifier for a specific intervention.
Goals.Interventions.Code	NO	STRING	Code representing the intervention.
Goals.Interventions.Description	NO	STRING	Description of the intervention.
Goals.Interventions.Other_Descripti on	NO	STRING	Additional description for interventions not covered by standard categories.
Goals.Interventions.Start_Date	NO	DATE	Date when the intervention was initiated.
Goals.Interventions.Actual_Complet ion_Date	NO	DATE	Actual date when the intervention was completed.
Goals.Interventions.Target_Complet ion_Date	NO	DATE	Projected date for intervention completion.
Goals.Interventions.Created_Timest amp	NO	TIMESTAMP	Timestamp when the intervention record was created.
Goals.Interventions.Last_Modified_ Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the intervention record.
Goals.Interventions.Engagement	NO	STRUCT	Collection of engagement activities associated with each intervention.
Goals.Interventions.Engagement.Ke y	NO	INT64	Unique identifier for a specific engagement activity.
Goals.Interventions.Engagement.St atus	NO	STRING	Status of the engagement activity.
Goals.Interventions.Engagement.St atus_Description	NO	STRING	Detailed description of the engagement activity status.

Column Name	Is Nullable	Data Type	Description
Goals.Interventions.Engagement.Initiated_Timestamp	NO	TIMESTAMP	Timestamp when the engagement activity was initiated.
Goals.Interventions.Engagement.Completed_Timestamp	NO	TIMESTAMP	Timestamp when the engagement activity was completed.
Goals.Interventions.Engagement.Last_Activity_Timestamp	NO	TIMESTAMP	Timestamp of the last activity related to this engagement.
Goals.Interventions.Engagement.Type	NO	STRING	Type or category of the engagement activity.
Goals.Interventions.Engagement.Type_Description	NO	STRING	Detailed description of the engagement activity type.
Goals.Interventions.Engagement.Code	NO	STRING	Code representing the specific engagement activity.
Goals.Interventions.Engagement.Description	NO	STRING	Description of the engagement activity.
Goals.Interventions.Engagement.Created_Timestamp	NO	TIMESTAMP	Timestamp when the engagement activity record was created.
Goals.Interventions.Engagement.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the engagement activity record.
Goals.Interventions.Engagement.Emmi	NO	STRUCT	Collection of Emmi program details associated with engagement activities.
Goals.Interventions.Engagement.Emmi.Member_Email_Address	NO	STRING	Email address of the member for Emmi program communication.
Goals.Interventions.Engagement.Emmi.Access_Code	NO	STRING	Access code for the member to use the Emmi program.
Goals.Interventions.Engagement.Emmi.Access_URL	NO	STRING	URL for accessing the Emmi program.
Goals.Interventions.Engagement.Emmi.Target_Date	NO	DATE	Target date for completing the Emmi program.
Goals.Interventions.Engagement.Emmi.Status	NO	STRING	Status of the member's participation in the Emmi program.
Goals.Interventions.Engagement.Emmi.Status_Description	NO	STRING	Detailed description of the Emmi program status.

Column Name	Is Nullable	Data Type	Description
Goals.Interventions.Engagement.Emmi.Created_Timestamp	NO	TIMESTAMP	Timestamp when the Emmi program record was created.
Goals.Interventions.Engagement.Emmi.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the Emmi program record.
Goals.Interventions.Engagement.Emmi.Notes	NO	ARRAY	Collection of notes associated with the Emmi program.
Goals.Interventions.Engagement.Emmi.Notes.Key	NO	INT64	Unique identifier for a specific Emmi program note.
Goals.Interventions.Engagement.Emmi.Notes.Text	NO	STRING	Content of the Emmi program note.
Goals.Interventions.Engagement.Emmi.Notes.Entry_Timestamp	NO	TIMESTAMP	Timestamp when the Emmi program note was entered.
Goals.Interventions.Engagement.Emmi.Notes.Created_Timestamp	NO	TIMESTAMP	Timestamp when the Emmi program note record was created.
Goals.Interventions.Engagement.Emmi.Notes.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the Emmi program note record.
Goals.Barriers	NO	ARRAY	Collection of barriers associated with each goal.
Goals.Barriers.Key	NO	INT64	Unique identifier for a specific barrier.
Goals.Barriers.Code	NO	STRING	Code representing the barrier.
Goals.Barriers.Description	NO	STRING	Description of the barrier.
Goals.Barriers.Other_Description	NO	STRING	Additional description for barriers not covered by standard categories.
Goals.Barriers.Identification_Date	NO	DATE	Date when the barrier was identified.
Goals.Barriers.Resolution_Date	NO	DATE	Date when the barrier was resolved.
Goals.Barriers.Created_Timestamp	NO	TIMESTAMP	Timestamp when the barrier record was created.
Goals.Barriers.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the barrier record.
Record_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification made to this entire record.
Transaction_User_ID	YES	STRING	Identifier of the user who performed the last transaction on this record.

Column Name	Is Nullable	Data Type	Description
Type	YES	STRING	Type or category of this log entry.
Tenant	YES	STRING	Identifier for the tenant or organization in a multi-tenant system.
Active_Version	YES	BOOL	Indicator of whether this is the currently active version of the record.
Date	YES	DATE	Date associated with this log entry.
Sequence	YES	INT64	Sequence number for ordering multiple changes on the same date.
Source_System_Name	YES	STRING	Name of the source system that provided this data.
Source_Timestamp	YES	TIMESTAMP	Timestamp from the source system for this data.
Source_File_Name	YES	STRING	Name of the source file that contained this data.
Schema_Version	YES	FLOAT64	Version of the data schema used for this record.
Member_Partition	YES	INT64	Partition identifier for the member's data in a partitioned database system.
Deleted_Indicator	YES	BOOL	Indicator of whether this record has been marked as deleted.
_updated	YES	STRING	Indicator of whether this record has been updated.
Action	YES	STRING	Type of action performed on this record (e.g., create, update, delete).
Transaction_Actor_Type	YES	STRING	Type of actor (user, system process) that performed the last transaction.
Problem_Priority	YES	STRING	The priority of the problem in the program plan of care.
Problem_Source	YES	STRING	The source of the problem in the program plan of care.

Program Raw

Column Name	Is Nullable	Data Type	Description
Member_ID	YES	STRING	Unique identifier for the member associated with this program log entry.
Screening_Request_Key	YES	INT64	Unique identifier for the screening request associated with this program.
Screening_Request_Date	YES	DATE	Date of the screening request.
Behavioral_Health	YES	BOOL	Indicator of whether this is a behavioral health program.
Program_Designation	YES	STRING	Designation or category of the program.
Program_Designation_Description	YES	STRING	Detailed description of the program designation.

Column Name	Is Nullable	Data Type	Description
Program_Type	YES	STRING	Type or classification of the program.
Program_Type_Description	YES	STRING	Detailed description of the program type.
Digital	YES	BOOL	Indicator of whether this is a digital program.
External_Program_ID	YES	STRING	Identifier for the program in an external system.
External_Program_Vendor_Code	YES	STRING	Code representing the external vendor for the program.
Current_Step	YES	STRING	Current step or phase of the program.
Current_Step_Description	YES	STRING	Detailed description of the current program step.
Current_State	YES	STRING	Current state of the program.
Current_State_Description	YES	STRING	Detailed description of the current program state.
Digital_Pause_Indicator	YES	BOOL	Indicator of whether the digital program is paused.
Digital_Pause_By_Type	YES	STRING	Type of entity that paused the digital program.
Digital_Pause_By_Type_Description	YES	STRING	Description of the entity type that paused the digital program.
Digital_Pause_Timestamp	YES	TIMESTAMP	Timestamp when the digital program was paused.
Source	YES	STRING	Source or origin of the program.
Source_Description	YES	STRING	Detailed description of the program source.
Screening_Program	YES	STRING	Specific screening program used.
Screening_Program_Description	YES	STRING	Detailed description of the screening program.
Screening_Severity	YES	STRING	Severity level determined during screening.
Screening_Severity_Description	YES	STRING	Detailed description of the screening severity.
Screening_Product	YES	STRING	Product associated with the screening.
Screening_Product_Description	YES	STRING	Detailed description of the screening product.
Screening_Request_Created_Timestamp	YES	TIMESTAMP	Timestamp when the screening request was created.
Screening_Request_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to the screening request.

Column Name	Is Nullable	Data Type	Description
Providers	NO	ARRAY	Collection of providers associated with this program.
Providers.Provider_Key	NO	STRING	Unique identifier for a provider.
Providers.Program_Provider_Key	NO	INT64	Unique identifier for the provider within the program context.
Providers.Provider_ID	NO	STRING	Identifier for the provider.
Providers.Provider_NPI	NO	STRING	National Provider Identifier (NPI) for the provider.
Providers.Primary	NO	BOOL	Indicator of whether this is the primary provider for the program.
Providers.Created_Timestamp	NO	TIMESTAMP	Timestamp when the provider record was created.
Providers.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the provider record.
Providers.Roles	NO	ARRAY	Collection of roles associated with each provider.
Providers.Roles.Key	NO	INT64	Unique identifier for a provider role.
Providers.Roles.Code	NO	STRING	Code representing the provider role.
Providers.Roles.Description	NO	STRING	Description of the provider role.
Providers.Roles.Effective_Date	NO	DATE	Date when the provider role became effective.
Providers.Roles.Termination_Date	NO	DATE	Date when the provider role is set to terminate.
Providers.Roles.Created_Timestamp	NO	TIMESTAMP	Timestamp when the provider role record was created.
Providers.Roles.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the provider role record.
Screening_Key	YES	INT64	Unique identifier for the screening associated with this program.
Screening_Date	YES	DATE	Date when the screening was conducted.
Close_Date	YES	DATE	Date when the program was closed.
Last_Closed_User_ID	YES	STRING	Identifier of the user who last closed the program.
Screening_Status	YES	STRING	Current status of the screening.
Enrollment_Status	YES	STRING	Current status of the program enrollment.
Not_Enrolled_Reason	YES	STRING	Reason code for non-enrollment, if applicable.

Column Name	Is Nullable	Data Type	Description
Not_Enrolled_Reason_Description	YES	STRING	Detailed description of the reason for non-enrollment.
Program_ID	YES	STRING	Identifier for the specific program.
Close_Reason	YES	STRING	Reason code for closing the program.
Close_Reason_Description	YES	STRING	Detailed description of the program closure reason.
Screening_Owner_User_ID	YES	STRING	Identifier of the user who owns or is responsible for the screening.
Screening_Owner_Department_ID	YES	STRING	Identifier of the department that owns or is responsible for the screening.
Screening_Created_Timestamp	YES	TIMESTAMP	Timestamp when the screening record was created.
Screening_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to the screening record.
Screener_User_ID	YES	STRING	Identifier of the user who conducted the screening.
Screening_Reopen_Date	YES	DATE	Date when the screening was reopened, if applicable.
Screening_Reopen_Reason	YES	STRING	Reason code for reopening the screening.
Screening_Reopen_Reason_Description	YES	STRING	Detailed description of the reason for reopening the screening.
Source_System_ID	YES	STRING	Identifier of the source system for this program data.
Source_System_Description	YES	STRING	Description of the source system.
Source_System_Record_ID	YES	STRING	Identifier of this record in the source system.
Program_Enrollment_Key	YES	INT64	Unique identifier for the program enrollment.
Enrollment_Program	YES	STRING	Specific program in which the member is enrolled.
Enrollment_Program_Description	YES	STRING	Detailed description of the enrollment program.
Enrollment_Severity	YES	STRING	Severity level determined at enrollment.
Enrollment_Severity_Description	YES	STRING	Detailed description of the enrollment severity.
Enrollment_Product	YES	STRING	Product associated with the enrollment.
Enrollment_Product_Description	YES	STRING	Detailed description of the enrollment product.
Enrollment_Date	YES	DATE	Date when the enrollment decision was made.
Enrollment_Start_Date	YES	DATE	Start date of the program enrollment.

Column Name	Is Nullable	Data Type	Description
Enrollment_Reopen_Reason	YES	STRING	Reason code for reopening the enrollment.
Enrollment_Reopen_Reason_Description	YES	STRING	Detailed description of the reason for reopening the enrollment.
Enrollment_Reopen_Date	YES	DATE	Date when the enrollment was reopened.
Enrollment_Reopen_User_ID	YES	STRING	Identifier of the user who reopened the enrollment.
Enroller_User_ID	YES	STRING	Identifier of the user who processed the enrollment.
Enrollment_Owner_User_ID	YES	STRING	Identifier of the user who owns or is responsible for the enrollment.
Enrollment_Owner_Department_ID	YES	STRING	Identifier of the department that owns or is responsible for the enrollment.
Enrollment_Created_Timestamp	YES	TIMESTAMP	Timestamp when the enrollment record was created.
Enrollment_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to the enrollment record.
Diagnoses	NO	ARRAY	Collection of diagnoses associated with this program.
Diagnoses.Key	NO	INT64	Unique identifier for a specific diagnosis.
Diagnoses.Created_Timestamp	NO	TIMESTAMP	Timestamp when the diagnosis record was created.
Diagnoses.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the diagnosis record.
Diagnoses.Primary	NO	BOOL	Indicator of whether this is the primary diagnosis.
Diagnoses.Code	NO	STRING	Code representing the diagnosis.
Diagnoses.Description	NO	STRING	Description of the diagnosis.
Diagnoses.Coding_Scheme	NO	STRING	Coding scheme used for the diagnosis (e.g., ICD-10).
Diagnoses.Coding_Scheme_Description	NO	STRING	Description of the coding scheme used.
Diagnoses.Condition_Category	NO	STRING	Category of the condition or diagnosis.
Diagnoses.Condition_Category_Description	NO	STRING	Description of the condition category.
Diagnoses.Sequence	NO	INT64	Sequence or order of the diagnosis.
Diagnoses.Axis	NO	STRING	Axis classification for the diagnosis (typically used in mental health).

Column Name	Is Nullable	Data Type	Description
Diagnoses.Axis_Description	NO	STRING	Description of the diagnostic axis.
Steps	NO	ARRAY	Collection of steps or phases in the program.
Steps.Step	NO	STRING	Specific step or phase of the program.
Steps.Step_Description	NO	STRING	Description of the program step.
Steps.State	NO	STRING	Current state of the program step.
Steps.State_Description	NO	STRING	Description of the program step state.
Steps.State_Last_Modified_User_ID	NO	STRING	Identifier of the user who last modified the step state.
Steps.State_Created_Timestamp	NO	TIMESTAMP	Timestamp when the step state record was created.
Steps.State_Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the step state record.
Social_Problems	NO	ARRAY	Collection of social problems identified for the member.
Social_Problems.Key	NO	INT64	Unique identifier for a specific social problem.
Social_Problems.Code	NO	STRING	Code representing the social problem.
Social_Problems.Description	NO	STRING	Description of the social problem.
Social_Problems.Created_Timestamp	NO	TIMESTAMP	Timestamp when the social problem record was created.
Social_Problems.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the social problem record.
Global_Assessment_of_Functioning	NO	ARRAY	Collection of Global Assessment of Functioning (GAF) scores.
Global_Assessment_of_Functioning.Key	NO	INT64	Unique identifier for a specific GAF score entry.
Global_Assessment_of_Functioning.Score	NO	INT64	Numerical GAF score.
Global_Assessment_of_Functioning.Score_Entry_Date	NO	DATE	Date when the GAF score was entered.
Global_Assessment_of_Functioning.Created_Timestamp	NO	TIMESTAMP	Timestamp when the GAF score record was created.

Column Name	Is Nullable	Data Type	Description
Global_Assessment_of_Functioning.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the GAF score record.
Custom_Fields	NO	ARRAY	Collection of custom fields associated with this program.
Custom_Fields.Key	NO	STRING	Unique identifier for a custom field.
Custom_Fields.ID	NO	STRING	Identifier for the custom field.
Custom_Fields.Title	NO	STRING	Title or label of the custom field.
Custom_Fields.Use	NO	STRING	Purpose or intended use of the custom field.
Custom_Fields.Created_Timestamp	NO	TIMESTAMP	Timestamp when the custom field record was created.
Custom_Fields.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the custom field record.
Custom_Fields.Values	NO	ARRAY	Collection of values associated with the custom field.
Custom_Fields.Values.Select_Key	NO	STRING	Unique identifier for a selected value in the custom field.
Custom_Fields.Values.Value	NO	STRING	Actual value stored in the custom field.
Custom_Fields.Values.Value_Description	NO	STRING	Description or explanation of the value in the custom field.
Custom_Fields.Values.Created_Timestamp	NO	TIMESTAMP	Timestamp when the custom field value was created.
Custom_Fields.Values.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the custom field value.
Notes	NO	ARRAY	Collection of notes associated with this program.
Notes.Key	NO	INT64	Unique identifier for a specific note.
Notes.Text	NO	STRING	Content or text of the note.
Notes.Type	NO	STRING	Type or category of the note.
Notes.Type_Description	NO	STRING	Description of the note type.
Notes.Timestamp	NO	TIMESTAMP	Timestamp when the note was created or entered.
Notes.Author_User_ID	NO	STRING	Identifier of the user who authored the note.
Notes.Void_Indicator	NO	BOOL	Indicator of whether the note has been voided.

Column Name	Is Nullable	Data Type	Description
Notes.Void_Timestamp	NO	TIMESTAMP	Timestamp when the note was voided, if applicable.
Notes.Void_Reason	NO	STRING	Reason code for voiding the note, if applicable.
Notes.Void_Reason_Description	NO	STRING	Detailed description of the reason for voiding the note.
Notes.Void_User_ID	NO	STRING	Identifier of the user who voided the note.
Notes.Created_Timestamp	NO	TIMESTAMP	Timestamp when the note record was created.
Notes.Last_Modified_Timestamp	NO	TIMESTAMP	Timestamp of the last modification to the note record.
Visibility_Level	YES	INT64	Level of visibility or access permissions for this program record.
Record_Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification made to this entire record.
Transaction_User_ID	YES	STRING	Identifier of the user who performed the last transaction on this record.
Type	YES	STRING	Type or category of this log entry.
Tenant	YES	STRING	Identifier for the tenant or organization in a multi-tenant system.
Active_Version	YES	BOOL	Indicator of whether this is the currently active version of the record.
Date	YES	DATE	Date associated with this log entry.
Sequence	YES	INT64	Sequence number for ordering multiple changes on the same date.
Source_System_Name	YES	STRING	Name of the source system that provided this data.
Source_Timestamp	YES	TIMESTAMP	Timestamp from the source system for this data.
Source_File_Name	YES	STRING	Name of the source file that contained this data.
Deleted_Indicator	YES	BOOL	Indicator of whether this record has been marked as deleted.
Schema_Version	YES	FLOAT64	Version of the data schema used for this record.
Member_Partition	YES	INT64	Partition identifier for the member's data in a partitioned database system.
Transaction_Actor_Type	YES	STRING	Type of actor (user, system process) that performed the last transaction.
Close_Timestamp	YES	TIMESTAMP	Records the date and time when the program was closed.
Enrollment_Reopen_Timestamp	YES	TIMESTAMP	Records the date and time when enrollment in the program was reopened.
Screening_Reopen_Timestamp	YES	TIMESTAMP	Records the date and time when the screening process in the program was reopened.
Source_Program_ID	YES	STRING	Identifies the source program from which the current program originated or was derived.
