[Dictionary Link](#)

Column Name	Is Nullable	Data Type	Description
Deescalate_Reason	YES	STRING	Reason for deescalation.
Deescalate_Reason_Description	YES	STRING	Description of the deescalation reason.
Active	YES	STRING	Indicates if the deescalation reason is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp when the deescalation reason became effective.
Created_User_ID	YES	STRING	Identifier for the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp when the record was created.
Last_Modified_User_ID	YES	STRING	Identifier for the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp when the record was last modified.

Dictionary Delegate Entity

Column Name	Is Nullable	Data Type	Description
Delegate_Entity	YES	STRING	Entity authorized to act on behalf of another (e.g., delegated provider, representative).
Delegate_Entity_Description	YES	STRING	Explanation of the delegate entity.
Full_Delegation	YES	STRING	Indicator whether full delegation is granted.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Department

Column Name	Is Nullable	Data Type	Description
Department_Code	YES	STRING	The code identifying the department.
Department_Description	YES	STRING	A detailed description of the department.
Product_Availability	YES	STRING	Indicates the availability of the product within the department.
Active	YES	STRING	Indicates whether the department record is active.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the department record is effective.
Created_User_ID	YES	STRING	The ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the record was created.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the record was last modified.

Dictionary Designation

Column Name	Is Nullable	Data Type	Description
Designation	YES	STRING	Code or identifier representing a specific designation or classification.
Designation_Description	YES	STRING	Detailed explanation or definition of the designation.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating when this designation definition becomes effective.
Created_User_ID	YES	STRING	Identifier of the user who created this designation entry.
Created_Timestamp	YES	TIMESTAMP	Timestamp of when this designation entry was created.
Last_Modified_User_ID	YES	STRING	Identifier of the user who last modified this designation entry.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to this designation entry.

Dictionary Diagnosis Category

Column Name	Is Nullable	Data Type	Description
Diagnosis_Category_Code	YES	STRING	A unique code assigned to identify the diagnosis category within the healthcare domain.

Column Name	Is Nullable	Data Type	Description
Diagnosis_Category_Description	YES	STRING	A detailed description of the diagnosis category, explaining its purpose and classification.
Effective_From_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis category became effective and available for use.
Created_User_ID	YES	STRING	The unique identifier of the user who created the diagnosis category record.
Created_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis category record was created in the system.
Last_Modified_User_ID	YES	STRING	The unique identifier of the user who last modified the diagnosis category record.
Last_Modified_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis category record was last updated in the system.

Dictionary Diagnosis Group

Column Name	Is Nullable	Data Type	Description
Diagnosis_Group_Code	YES	STRING	A unique code representing a specific diagnosis group in the healthcare domain.
Diagnosis_Group_Mdc_Code	YES	STRING	Code linking the diagnosis group to a specific Major Diagnostic Category (MDC).
Diagnosis_Group_Code_Set_Type	YES	STRING	Type of code set used for the diagnosis group (e.g., ICD, SNOMED).
Diagnosis_Group_Type_Code	YES	STRING	A code indicating the type or category of the diagnosis group.
Diagnosis_Group_Description	YES	STRING	A detailed description of the diagnosis group, providing context and classification.
Code_Start	YES	STRING	The starting code in the range for the diagnosis group.
Code_End	YES	STRING	The ending code in the range for the diagnosis group.
Arithmetic_Mean_Los	YES	STRING	The arithmetic mean length of stay (LOS) associated with this diagnosis group.
Geometric_Mean_Los	YES	STRING	The geometric mean length of stay (LOS) for patients in this diagnosis group.
Relative_Weight	YES	STRING	A relative weight assigned to this diagnosis group, often used in payment calculations.
Post_Acute	YES	STRING	Indicates whether this diagnosis group is eligible for post-acute care payment adjustments.
Special_Pay	YES	STRING	Indicates whether this diagnosis group qualifies for special payment conditions.
Code_Set	YES	STRING	Specifies the code set (e.g., ICD-10, CPT) used for the diagnosis group.
Code_Version	YES	STRING	Version of the code set associated with the diagnosis group.

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates whether the diagnosis group is currently active (e.g., "Y" for active, "N" for inactive).
Effective_From_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis group became effective and valid for use.
Created_User_ID	YES	STRING	The unique identifier of the user who created the diagnosis group record.
Created_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis group record was created in the system.
Last_Modified_User_ID	YES	STRING	The unique identifier of the user who last modified the diagnosis group record.
Last_Modified_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis group record was last updated in the system.

Dictionary Diagnosis ICD10

Column Name	Is Nullable	Data Type	Description
Diagnosis_Code	YES	STRING	The unique ICD-10 diagnosis code used for classification.
Diagnosis_Formatted_Code	YES	STRING	The formatted version of the diagnosis code, typically including punctuation or formatting details.
Diagnosis_Code_Set_Type	YES	STRING	The type of code set the diagnosis belongs to, such as "ICD-10".
Diagnosis_Description	YES	STRING	A detailed description of the diagnosis represented by the ICD-10 code.
Diagnosis_Short_Term	YES	STRING	A short-term description of the diagnosis for simplified referencing.
Visibility_Level	YES	STRING	Specifies the level of visibility for the diagnosis (e.g., "Public" or "Restricted").
Code_Start	YES	STRING	The starting code in a range of ICD-10 codes, if applicable.
Code_End	YES	STRING	The ending code in a range of ICD-10 codes, if applicable.
Billable	YES	STRING	Indicates whether the diagnosis code is billable (e.g., "Y" for yes, "N" for no).
Billable_Start	YES	STRING	The starting date from which the diagnosis code became billable.
Billable_End	YES	STRING	The ending date after which the diagnosis code is no longer billable.
Chapter	YES	STRING	The ICD-10 chapter or category to which the diagnosis belongs.
Upper_Case_Code	YES	STRING	The uppercase representation of the diagnosis code, used for standardized referencing.
Code_Set	YES	STRING	Specifies the code set (e.g., ICD-10) associated with the diagnosis.
Code_Version	YES	STRING	The version of the code set in use for the diagnosis.
Active	YES	STRING	Indicates whether the diagnosis code is currently active (e.g., "Y" for active, "N" for inactive).

Column Name	Is Nullable	Data Type	Description
Effective_From_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis code became effective.
Created_User_ID	YES	STRING	The identifier of the user who created the diagnosis record.
Created_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the diagnosis record.
Last_Modified_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis record was last modified.

Dictionary Diagnosis ICD9

Column Name	Is Nullable	Data Type	Description
Diagnosis_Code	YES	STRING	The unique ICD-9 diagnosis code used for classification.
Code	YES	STRING	An alternative representation or abbreviation of the diagnosis code.
Diagnosis_Code_Set_Type	YES	STRING	The type of code set the diagnosis belongs to, such as "ICD-9".
Diagnosis_Description	YES	STRING	A detailed description of the diagnosis represented by the ICD-9 code.
Short_Term	YES	STRING	A short-term description of the diagnosis for simplified referencing.
Visibility_Level	YES	STRING	Specifies the level of visibility for the diagnosis (e.g., "Public" or "Restricted").
Code_Start	YES	STRING	The starting code in a range of ICD-9 codes, if applicable.
Code_End	YES	STRING	The ending code in a range of ICD-9 codes, if applicable.
Billable	YES	STRING	Indicates whether the diagnosis code is billable (e.g., "Y" for yes, "N" for no).
Billable_Start	YES	STRING	The starting date from which the diagnosis code became billable.
Billable_End	YES	STRING	The ending date after which the diagnosis code is no longer billable.
Chapter	YES	STRING	The ICD-9 chapter or category to which the diagnosis belongs.
Upper_Case_Code	YES	STRING	The uppercase representation of the diagnosis code, used for standardized referencing.
Code_Set	YES	STRING	Specifies the code set (e.g., ICD-9) associated with the diagnosis.
Code_Version	YES	STRING	The version of the code set in use for the diagnosis.
Active	YES	STRING	Indicates whether the diagnosis code is currently active (e.g., "Y" for active, "N" for inactive).
Effective_From_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis code became effective.

Column Name	Is Nullable	Data Type	Description
Created_User_ID	YES	STRING	The identifier of the user who created the diagnosis record.
Created_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the diagnosis record.
Last_Modified_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis record was last modified.

Dictionary Diagnosis Introducer

Column Name	Is Nullable	Data Type	Description
Diagnosis_Introducer_Code	YES	STRING	The unique code representing the diagnosis introducer.
Diagnosis_Introducer_Description	YES	STRING	A detailed description of the diagnosis introducer, explaining its purpose and context.
Diagnosis_Introducer_Category	YES	STRING	The category or classification of the diagnosis introducer (e.g., primary, secondary).
Diagnosis_Scheme_Code	YES	STRING	The code of the scheme or system in which the diagnosis introducer is defined.
Effective_From_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis introducer became effective and valid for use.
Created_User_ID	YES	STRING	The identifier of the user who created the record for the diagnosis introducer.
Created_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis introducer record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the diagnosis introducer record.
Last_Modified_Timestamp	YES	TIMESTAMP	The date and time when the diagnosis introducer record was last updated.

Dictionary Discharge Disposition

Column Name	Is Nullable	Data Type	Description
Disposition	YES	STRING	Outcome or decision related to a specific event (e.g., case disposition, claim resolution).
Disposition_Description	YES	STRING	Detailed description of the discharge disposition.
ACTIVE	YES	STRING	Indicates whether the discharge disposition is currently active or in use.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.

Column Name	Is Nullable	Data Type	Description
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Dispense As Written

Column Name	Is Nullable	Data Type	Description
Code	YES	STRING	A unique code representing the dispense-as-written directive, used for prescribing medications.
Description	YES	STRING	A detailed description of the dispense-as-written directive, explaining its purpose and usage.
Effective_From_Timestamp	YES	TIMESTAMP	The date and time when the dispense-as-written directive became effective and valid for use.
Created_User_ID	YES	STRING	The identifier of the user who created the record for the dispense-as-written directive.
Created_Timestamp	YES	TIMESTAMP	The date and time when the dispense-as-written directive record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the dispense-as-written directive record.
Last_Modified_Timestamp	YES	TIMESTAMP	The date and time when the dispense-as-written directive record was last updated.

Dictionary Disposition

Column Name	Is Nullable	Data Type	Description
Disposition	YES	STRING	Outcome or decision related to a specific event (e.g., case disposition, claim resolution).
Disposition_Description	YES	STRING	Detailed description of the disposition.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Divert Reason

Column Name	Is Nullable	Data Type	Description
Divert_Reason	YES	STRING	Reason for diverting or redirecting a process or task.
Divert_Reason_Description	YES	STRING	Explanation of the divert reason.
Divert_Type	YES	STRING	Type of diversion (e.g., medical, administrative).
Active	YES	STRING	Indicates whether the item is active.
Designation	YES	STRING	A specific label or classification related to the divert reason, providing additional context.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Divert Type

Column Name	Is Nullable	Data Type	Description
Divert_Type	YES	STRING	Type of diversion (e.g., medical, administrative).
Divert_Type_Description	YES	STRING	Detailed description of the divert type.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Drug

Column Name	Is Nullable	Data Type	Description
NDC	YES	STRING	National Drug Code (NDC) representing a unique identifier for the drug.
Maintenance_Drug_Code	YES	STRING	Code indicating whether the drug is classified as a maintenance medication.
Drug_Class_Code	YES	STRING	Code representing the drug's therapeutic class.
Maintenance_Drug_Description	YES	STRING	Description of the drug's maintenance classification.
Drug_Package_Description	YES	STRING	Description of the drug's packaging details.
Drug_Scheme_Code	YES	STRING	Code related to the scheme under which the drug is categorized.
GPI2_Code	YES	STRING	2-digit Generic Product Identifier (GPI) code indicating a broad therapeutic category.
GPI6_Code	YES	STRING	6-digit Generic Product Identifier (GPI) code specifying a narrower therapeutic category.
Admin_Route_Code	YES	STRING	Code indicating the route of administration for the drug (e.g., oral, intravenous).
Admin_Route_Description	YES	STRING	Description of the route of administration for the drug.
Drug_Brand_Description	YES	STRING	Description of the drug's brand name.
Parent_Drug_Class_Level	YES	STRING	Code representing the parent level of the drug class hierarchy.
Multiple_Source_Code	YES	STRING	Code indicating whether the drug has multiple sources (e.g., generic equivalents).
GPI14_Code	YES	STRING	14-digit Generic Product Identifier (GPI) code providing the most detailed product classification.
GPI6_Description	YES	STRING	Description of the 6-digit GPI code classification.
GPI8_Code	YES	STRING	8-digit Generic Product Identifier (GPI) code specifying a narrower therapeutic category.
GPI8_Description	YES	STRING	Description of the 8-digit GPI code classification.
Drug_Class_Level	YES	STRING	Hierarchical level of the drug's class in the classification scheme.
Med_Trputc_Flag	YES	STRING	Flag indicating if the drug is classified as a medical therapeutic product.
Drug_Brand_Code	YES	STRING	Code representing the brand of the drug.
Parent_Drug_Class_Description_Full	YES	STRING	Full description of the parent drug class.
GPI4_Description	YES	STRING	Description of the 4-digit GPI code classification.
Dea_Class_Description	YES	STRING	Description of the DEA (Drug Enforcement Administration) classification for the drug.

Column Name	Is Nullable	Data Type	Description
GPI2_Description	YES	STRING	Description of the 2-digit GPI code classification.
NDC_Description	YES	STRING	Description associated with the National Drug Code (NDC).
GPI4_Code	YES	STRING	4-digit Generic Product Identifier (GPI) code specifying a subcategory.
GPI14_Description	YES	STRING	Description of the 14-digit GPI code classification.
Parent_Drug_Class_Description	YES	STRING	Description of the parent drug class.
Drug_Class_Scheme_Description	YES	STRING	Description of the scheme used for drug class classification.
Drug_Class_Description_Full	YES	STRING	Comprehensive description of the drug's class.
Dea_Class_Code	YES	STRING	Code representing the DEA classification of the drug.
GPI10_Description	YES	STRING	Description of the 10-digit GPI code classification.
GPI10_Code	YES	STRING	10-digit Generic Product Identifier (GPI) code providing detailed therapeutic classification.
Product_Description_Abbreviation	YES	STRING	Abbreviated description of the product.
Drug_Class_Description	YES	STRING	General description of the drug's class.
Parent_Drug_Class_Code	YES	STRING	Code of the parent drug class in the hierarchy.
Drug_Package_Size	YES	STRING	The size of the drug package, indicating quantity or volume.
Drug_Class_Lvl	YES	STRING	Level of the drug's class in the classification hierarchy.
Visibility_Level	YES	STRING	The level of visibility assigned to the drug for reporting or categorization purposes.
Effective_From_Timestamp	YES	TIMESTAMP	Date and time when the drug's record became effective.
Created_User_ID	YES	STRING	Identifier of the user who created the drug record.
Created_Timestamp	YES	TIMESTAMP	Timestamp when the drug record was created.
Last_Modified_User_ID	YES	STRING	Identifier of the user who last modified the drug record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp when the drug record was last updated.
Strength	YES	STRING	The strength of the drug.
Strength_Unit	YES	STRING	The unit of the drug strength.
KDC_Code	YES	STRING	The Kinetic Data Code (KDC) of the drug.
NDC_Code_Type	YES	STRING	The type of the National Drug Code (NDC) of the drug.

Dictionary_Drug_Administration_Route

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the drug administration route record is active.
Admin_Route_Code	YES	STRING	The code of the drug administration route.
Admin_Route_Description	YES	STRING	The description of the drug administration route.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the drug administration route record was created.
Created_User_ID	YES	STRING	The ID of the user who created the drug administration route record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the drug administration route record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the drug administration route record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the drug administration route record.

Dictionary_Drug_Alternatives

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the drug alternatives record is active.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the drug alternatives record was created.
Created_User_ID	YES	STRING	The ID of the user who created the drug alternatives record.
Drug1_Code	YES	STRING	The code of the first drug in the alternatives.
Drug2_Code	YES	STRING	The code of the second drug in the alternatives.
Drug_Alternatives_List_ID	YES	STRING	The unique identifier of the drug alternatives list.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the drug alternatives record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the drug alternatives record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the drug alternatives record.
Scheme1_Code	YES	STRING	The code of the first drug scheme in the alternatives.
Scheme2_Code	YES	STRING	The code of the second drug scheme in the alternatives.

Dictionary Drug Average Price

Column Name	Is Nullable	Data Type	Description
AWP_Per_Unit	YES	STRING	The Average Wholesale Price (AWP) per unit of the drug.
Active	YES	STRING	Indicates if the drug average price record is active.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the drug average price record was created.
Created_User_ID	YES	STRING	The ID of the user who created the drug average price record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the drug average price record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the drug average price record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the drug average price record.
NDC	YES	STRING	The National Drug Code (NDC) of the drug.
WAC_Per_Unit	YES	STRING	The Wholesale Acquisition Cost (WAC) per unit of the drug.

Dictionary Drug Biosimilars

Column Name	Is Nullable	Data Type	Description
Created_Timestamp	YES	TIMESTAMP	The timestamp when the biosimilar drug record was created.
Created_User_ID	YES	STRING	The ID of the user who created the biosimilar drug record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the biosimilar drug record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the biosimilar drug record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the biosimilar drug record.
NDC	YES	STRING	The National Drug Code (NDC) of the biosimilar drug.
Originator_NDC	YES	STRING	The NDC of the originator drug.
Rating	YES	STRING	The rating or classification of the biosimilar drug.
Substitution_Group_Number	YES	STRING	The number of the substitution group the biosimilar drug belongs to.

Dictionary Drug DAW

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the Drug Dispensed As Written (DAW) record is active.
Code	YES	STRING	The code of the Drug Dispensed As Written.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the Drug Dispensed As Written record was created.
Created_User_ID	YES	STRING	The ID of the user who created the Drug Dispensed As Written record.
Description	YES	STRING	The description of the Drug Dispensed As Written.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the Drug Dispensed As Written record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the Drug Dispensed As Written record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the Drug Dispensed As Written record.

Dictionary Drug Dosing Interval

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicator of whether the dosing interval record is currently active.
Created_Timestamp	YES	TIMESTAMP	Date and time when the dosing interval record was created.
Created_User_ID	YES	STRING	Identifier of the user who created the dosing interval record.
Dosing_Interval_Days	YES	STRING	Number of days defining the recommended interval between doses of the drug.
Drug_Code	YES	STRING	Unique code identifying the drug to which the dosing interval applies.
Effective_From_Timestamp	YES	TIMESTAMP	Date and time from which the dosing interval became effective.
Last_Modified_Timestamp	YES	TIMESTAMP	Date and time when the dosing interval record was last modified.
Last_Modified_User_ID	YES	STRING	Identifier of the user who last modified the dosing interval record.

Dictionary Drug Duplicate Therapy

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the drug duplicate therapy record is active.

Column Name	Is Nullable	Data Type	Description
Created_Timestamp	YES	TIMESTAMP	The timestamp when the drug duplicate therapy record was created.
Created_User_ID	YES	STRING	The ID of the user who created the drug duplicate therapy record.
Drug1_Code	YES	STRING	The code of the first drug in the duplicate therapy.
Drug2_Code	YES	STRING	The code of the second drug in the duplicate therapy.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the drug duplicate therapy record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the drug duplicate therapy record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the drug duplicate therapy record.
Scheme1_Code	YES	STRING	The code of the first drug scheme in the duplicate therapy.
Scheme2_Code	YES	STRING	The code of the second drug scheme in the duplicate therapy.
Drug_Duplicate_Therapy_List_ID	YES	STRING	The unique identifier of the drug duplicate therapy list.

Dictionary Drug HCPCS Average Price

Column Name	Is Nullable	Data Type	Description
ASP_Per_Unit	YES	STRING	The Average Sales Price (ASP) per unit of the drug with the given HCPCS code.
Active	YES	STRING	Indicates if the HCPCS average price record is active.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the HCPCS average price record was created.
Created_User_ID	YES	STRING	The ID of the user who created the HCPCS average price record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the HCPCS average price record is effective.
JCode	YES	STRING	The HCPCS code of the drug.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the HCPCS average price record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the HCPCS average price record.

Dictionary Drug HCPCS XWalk

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the HCPCS code to NDC cross-walk record is active.

Column Name	Is Nullable	Data Type	Description
Created_Timestamp	YES	TIMESTAMP	The timestamp when the HCPCS code to NDC cross-walk record was created.
Created_User_ID	YES	STRING	The ID of the user who created the HCPCS code to NDC cross-walk record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the HCPCS code to NDC cross-walk record is effective.
HCPCS_Service_Code	YES	STRING	The HCPCS service code.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the HCPCS code to NDC cross-walk record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the HCPCS code to NDC cross-walk record.
NDC	YES	STRING	The National Drug Code (NDC) associated with the HCPCS service code.

Dictionary Drug High Dosage

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the high dosage record is active.
Condition_Code	YES	STRING	The code of the condition associated with the high dosage.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the high dosage record was created.
Created_User_ID	YES	STRING	The ID of the user who created the high dosage record.
Daily_Dosage_Threshold_Value	YES	STRING	The threshold value for the daily dosage.
Dosage_Threshold_List_ID	YES	STRING	The unique identifier of the dosage threshold list.
Drug_Code	YES	STRING	The code of the drug.
Diagnoses_Codes	YES	STRING	Diagnosis code or codes associated with the high dosage threshold defined for the drug.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the high dosage record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the high dosage record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the high dosage record.
Scheme_Code	YES	STRING	The code of the drug scheme.

Dictionary Drug High Treatment Duration

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the high treatment duration record is active.
Allowed_Gap	YES	STRING	The allowed gap in days between treatments.
Condition_Code	YES	STRING	The code of the condition associated with the high treatment duration.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the high treatment duration record was created.
Created_User_ID	YES	STRING	The ID of the user who created the high treatment duration record.
Drug_Code	YES	STRING	The code of the drug.
Duration_Threshold_Days	YES	STRING	The threshold value for the treatment duration in days.
Duration_Threshold_List_ID	YES	STRING	The unique identifier of the duration threshold list.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the high treatment duration record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the high treatment duration record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the high treatment duration record.
Scheme_Code	YES	STRING	The code of the drug scheme.

Dictionary Drug Interaction Level

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicator of whether the drug ingredient record is currently active.
Active_Inactive_Flag	YES	STRING	Flag indicating whether the drug ingredient is currently marketed as active or inactive.
Created_Timestamp	YES	TIMESTAMP	Date and time when the drug ingredient record was created.
Created_User_ID	YES	STRING	Identifier of the user who created the drug ingredient record.
Effective_From_Timestamp	YES	TIMESTAMP	Date and time from which the drug ingredient record became effective.
Generic_ID_Number	YES	STRING	Identifier number for the generic form of the drug.
Generic_ID_Type_Code	YES	STRING	Code identifying the type of generic identifier used for the drug.
Generic_Name	YES	STRING	Generic, non-brand name of the drug ingredient.

Column Name	Is Nullable	Data Type	Description
Last_Change_Date	YES	STRING	Date on which the drug ingredient record was last changed in the source system.
Last_Modified_Timestamp	YES	TIMESTAMP	Date and time when the drug ingredient record was last modified.
Last_Modified_User_ID	YES	STRING	Identifier of the user who last modified the drug ingredient record.
NDC	YES	STRING	National Drug Code identifying the specific drug product.
Record_Code	YES	STRING	Code identifying the type of record within the drug ingredient reference data.
Strength	YES	STRING	Strength of the drug ingredient, such as the dosage amount.
Strength_Unit_of_Measure	YES	STRING	Unit of measure used to express the drug ingredient's strength, such as mg or mL.

Dictionary Drug Interaction Level

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the drug interaction level record is active.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the drug interaction level record was created.
Created_User_ID	YES	STRING	The ID of the user who created the drug interaction level record.
Drug_Interaction_Level_Description	YES	STRING	The description of the drug interaction level.
Drug_Interaction_Level_ID	YES	STRING	The unique identifier of the drug interaction level.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the drug interaction level record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the drug interaction level record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the drug interaction level record.

Dictionary Drug Substitution Rating

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the drug substitution rating record is active.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the drug substitution rating record was created.
Created_User_ID	YES	STRING	The ID of the user who created the drug substitution rating record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the drug substitution rating record is effective.

Column Name	Is Nullable	Data Type	Description
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the drug substitution rating record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the drug substitution rating record.
Rating_Code	YES	STRING	The code of the drug substitution rating.
Rating_Description	YES	STRING	The description of the drug substitution rating.

Dictionary Drug Type

Column Name	Is Nullable	Data Type	Description
Drug_Type_Code	YES	STRING	A unique code representing the drug type.
Drug_Type_Description	YES	STRING	A detailed description of the drug type, indicating its classification or usage category.
Effective_From_Timestamp	YES	TIMESTAMP	The date and time from which the drug type record became effective.
Created_User_ID	YES	STRING	The identifier of the user who created the drug type record.
Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the drug type record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the drug type record.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating when the drug type record was last updated.

Dictionary Email Type

Column Name	Is Nullable	Data Type	Description
Email_Type	YES	STRING	Classification of email types (e.g., notification, communication).
Email_Type_Description	YES	STRING	Explanation of the email type.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Emmi Status

Column Name	Is Nullable	Data Type	Description
Emmi_Status	YES	STRING	Status related to electronic medical record exchange (e.g., sent, received).
Emmi_Status_Description	YES	STRING	Detailed description of the Emmi status.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Employer Group

Column Name	Is Nullable	Data Type	Description
Group_ID	YES	STRING	Identifier for a specific group or category.
Group_Name	YES	STRING	Name or label for the group.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.
Active	YES	STRING	Indicates whether the item is active.

Dictionary Encounter Class

Column Name	Is Nullable	Data Type	Description
Encounter_Class_Code	YES	STRING	A unique code representing the type or classification of the healthcare encounter.
Encounter_Class_Name	YES	STRING	The name or description of the encounter class, providing a clear identification of the type.

Column Name	Is Nullable	Data Type	Description
Effective_From_Timestamp	YES	TIMESTAMP	The date and time when the encounter class became effective and valid for use.
Created_User_ID	YES	STRING	The identifier of the user who created the record for the encounter class.
Created_Timestamp	YES	TIMESTAMP	The timestamp indicating when the encounter class record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the encounter class record.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp indicating the last modification made to the encounter class record.

Dictionary Encounter Condition

Column Name	Is Nullable	Data Type	Description
Encounter_Condition_Code	YES	STRING	A unique code that identifies the encounter condition.
Encounter_Condition_Name	YES	STRING	The name of the encounter condition, providing a human-readable description.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the encounter condition became effective.
Created_User_ID	YES	STRING	The identifier of the user who created the record for this encounter condition.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the encounter condition record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the record for this encounter condition.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the encounter condition record was last updated.

Dictionary Encounter Priority

Column Name	Is Nullable	Data Type	Description
Encounter_Priority_Code	YES	STRING	A unique code representing the priority level of the encounter.
Encounter_Priority_Name	YES	STRING	The name of the encounter priority, providing a descriptive label for the priority level.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the encounter priority became effective in the system.
Created_User_ID	YES	STRING	The identifier of the user who created the record for this encounter priority.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the encounter priority record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the record for this encounter priority.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the encounter priority record was last updated.

Dictionary Encounter Service Type

Column Name	Is Nullable	Data Type	Description
Encounter_Service_Type_Code	YES	STRING	A unique code identifying the type of service associated with the encounter.
Encounter_Service_Type_Name	YES	STRING	The name of the service type for the encounter, providing a descriptive label.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the service type became effective in the system.
Created_User_ID	YES	STRING	The identifier of the user who created the record for this service type.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the service type record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the record for this service type.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the service type record was last updated.

Dictionary Encounter Status

Column Name	Is Nullable	Data Type	Description
Encounter_Status_Code	YES	STRING	A unique code representing the status of an encounter.
Encounter_Status_Name	YES	STRING	The name or label of the encounter status, providing a descriptive identifier.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the encounter status became effective in the system.
Created_User_ID	YES	STRING	The identifier of the user who created the record for this encounter status.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the record for the encounter status was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the record for this encounter status.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the record for the encounter status was last updated.

Dictionary Engagement Activity Status

Column Name	Is Nullable	Data Type	Description
Status_Code	YES	STRING	Unique code identifying the engagement activity status.
Status_Code_Description	YES	STRING	Detailed description or explanation of the status code.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating when the status code becomes effective.

Column Name	Is Nullable	Data Type	Description
Created_User_ID	YES	STRING	Identifier of the user who created the status code entry.
Created_Timestamp	YES	TIMESTAMP	Timestamp of when the status code entry was created.
Last_Modified_User_ID	YES	STRING	Identifier of the user who last modified the status code entry.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to the status code entry.

Dictionary Enrollment Alert

Column Name	Is Nullable	Data Type	Description
Enrollment_Alert	YES	STRING	Alert related to enrollment or registration (e.g., missing information, eligibility issue).
Enrollment_Alert_Description	YES	STRING	Explanation of the enrollment alert.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Enrollment Custom Fields

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the custom field is active or not.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the custom field was created.
Created_User_ID	YES	STRING	The ID of the user who created the custom field.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the custom field is effective.
Enrollment_Custom_Field_Code	YES	STRING	The code of the custom field.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the custom field was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the custom field.

Dictionary Enrollment Provider Role

Column Name	Is Nullable	Data Type	Description
Provider_Role	YES	STRING	Role or function of a healthcare provider (e.g., primary care physician, specialist).
Provider_Role_Description	YES	STRING	Detailed description of the provider role.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Episode Group

Column Name	Is Nullable	Data Type	Description
Group_Code	YES	STRING	A unique code identifying the episode group.
Group_Name	YES	STRING	The name of the episode group, providing a descriptive label for the group.
Clean_Period	YES	STRING	The period used to determine the time frame for grouping episodes (e.g., days or months).
Type_Code	YES	STRING	A code representing the type of episode group.
Type_Name	YES	STRING	The name or description of the type of episode group.
SDC_Code	YES	STRING	A code linking the episode group to a specific Standardized Data Code (SDC).
SDC_Name	YES	STRING	The name or description associated with the Standardized Data Code for the episode group.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the episode group became effective in the system.
Created_User_ID	YES	STRING	The identifier of the user who created the record for this episode group.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the record for the episode group was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the record for this episode group.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the record for the episode group was last updated.

Dictionary External Population

Column Name	Is Nullable	Data Type	Description
Code	YES	STRING	A unique identifier code for the external population.
Name	YES	STRING	The name of the external population, providing a descriptive label.
Source	YES	STRING	The origin or source of the external population data (e.g., system name or dataset).
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the external population record became effective.
Created_User_ID	YES	STRING	The identifier of the user who created the external population record.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the external population record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the external population record.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the external population record was last updated.

Dictionary External Population Source

Column Name	Is Nullable	Data Type	Description
Code	YES	STRING	A unique code identifying the external population source.
Description	YES	STRING	A detailed description of the external population source, providing context and clarity.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the external population source record became effective.
Created_User_ID	YES	STRING	The identifier of the user who created the external population source record.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the external population source record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the external population source record.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the external population source record was last updated.

Dictionary FEP Group Calendars

Column Name	Is Nullable	Data Type	Description
Calendar_Mail	YES	STRING	The email address associated with the calendar.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the calendar record was created.

Column Name	Is Nullable	Data Type	Description
Created_User_ID	YES	STRING	The ID of the user who created the calendar record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the calendar record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the calendar record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the calendar record.
Status	YES	STRING	The status of the calendar record.
Subscriber_Range_From	YES	STRING	The lower bound of the subscriber range associated with the calendar.
Subscriber_Range_To	YES	STRING	The upper bound of the subscriber range associated with the calendar.

Dictionary Formulary

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the formulary record is active.
Contract_Year	YES	STRING	The contract year associated with the formulary record.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the formulary record was created.
Created_User_ID	YES	STRING	The ID of the user who created the formulary record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the formulary record is effective.
Formulary_Category_ID	YES	STRING	The ID of the formulary category.
Formulary_Description	YES	STRING	The description of the formulary.
Formulary_ID	YES	STRING	The unique ID of the formulary.
Formulary_Tier_ID	YES	STRING	The ID of the formulary tier.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the formulary record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the formulary record.
NDC	YES	STRING	The National Drug Code (NDC) of the drug.
Preferred_Drug_Status	YES	STRING	Indicates if the drug is a preferred drug.
Prior_Authorization_Code	YES	STRING	The code for the prior authorization requirement.
Prior_Authorization_Description	YES	STRING	The description of the prior authorization requirement.

Column Name	Is Nullable	Data Type	Description
Quantity_Limit_Amount	YES	STRING	The quantity limit amount.
Quantity_Limit_Code	YES	STRING	The code for the quantity limit.
Quantity_Limit_Daily_Amount	YES	STRING	The daily quantity limit amount.
Quantity_Limit_Description	YES	STRING	The description of the quantity limit.
Record_Effective_Date	YES	STRING	The effective date of the formulary record.
Step_Therapy_Code	YES	STRING	The code for the step therapy requirement.
Step_Therapy_Description	YES	STRING	The description of the step therapy requirement.

Dictionary Formulary Category

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the formulary category record is active.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the formulary category record was created.
Created_User_ID	YES	STRING	The ID of the user who created the formulary category record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the formulary category record is effective.
Formulary_Category_Description	YES	STRING	The description of the formulary category.
Formulary_Category_ID	YES	STRING	The unique ID of the formulary category.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the formulary category record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the formulary category record.

Dictionary Formulary Tier

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the formulary tier record is active.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the formulary tier record was created.
Created_User_ID	YES	STRING	The ID of the user who created the formulary tier record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the formulary tier record is effective.

Column Name	Is Nullable	Data Type	Description
Formulary_Tier_Description	YES	STRING	The description of the formulary tier.
Formulary_Tier_ID	YES	STRING	The unique ID of the formulary tier.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the formulary tier record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the formulary tier record.

Dictionary Formulary XWalk

Column Name	Is Nullable	Data Type	Description
Account_ID	YES	STRING	The ID of the account associated with the formulary cross-walk.
Active	YES	STRING	Indicates if the formulary cross-walk record is active.
Benefit_Code	YES	STRING	The benefit code associated with the formulary cross-walk.
Client_Code	YES	STRING	The client code associated with the formulary cross-walk.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the formulary cross-walk record was created.
Created_User_ID	YES	STRING	The ID of the user who created the formulary cross-walk record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the formulary cross-walk record is effective.
Formulary_ID	YES	STRING	The ID of the formulary associated with the cross-walk.
Group_ID	YES	STRING	The ID of the group associated with the formulary cross-walk.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the formulary cross-walk record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the formulary cross-walk record.
Section_ID	YES	STRING	The ID of the section associated with the formulary cross-walk.
Specialy_UM_Indicator	YES	STRING	Indicates whether the formulary item requires specialty utilization management.

Dictionary Gender

Column Name	Is Nullable	Data Type	Description
Gender	YES	STRING	Classification of individuals based on their biological sex.
Gender_Description	YES	STRING	Detailed description of the gender category.

Column Name	Is Nullable	Data Type	Description
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Goal

Column Name	Is Nullable	Data Type	Description
Goal	YES	STRING	Specific objective or target to achieve.
Goal_Description	YES	STRING	Explanation of the goal.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Goal Focus

Column Name	Is Nullable	Data Type	Description
Goal_Focus	YES	STRING	Area of focus related to the goal (e.g., physical fitness, mental health).
Goal_Focus_Description	YES	STRING	Detailed description of the goal focus.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.

Column Name	Is Nullable	Data Type	Description
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Goal Outcome

Column Name	Is Nullable	Data Type	Description
Goal_Outcome	YES	STRING	Desired outcome resulting from achieving the goal (e.g., improved mobility, reduced pain).
Goal_Outcome_Description	YES	STRING	Additional information explaining the goal outcome.
Goal_Outcome_Category	YES	STRING	Category or group to which the goal outcome belongs.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Goal Outcome Category

Column Name	Is Nullable	Data Type	Description
Goal_Outcome_Category	YES	STRING	Category or group to which the goal outcome belongs.
Goal_Outcome_Category_Description	YES	STRING	Explanation of the goal outcome category.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Goal Type

Column Name	Is Nullable	Data Type	Description
Goal_Type	YES	STRING	Type or nature of the goal (e.g., short-term, long-term, behavioral).
Goal_Type_Description	YES	STRING	Detailed description of the goal type.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary_Group_Calendars

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the calendar record is active.
Calendar_Mail	YES	STRING	The email address associated with the calendar.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the calendar record was created.
Created_User_ID	YES	STRING	The ID of the user who created the calendar record.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the calendar record is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the calendar record was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the calendar record.
Member_Facing_Name	YES	STRING	The name of the calendar that is displayed to members.
Name	YES	STRING	The name of the calendar.
Program_Code	YES	STRING	The code of the program associated with the calendar.

Dictionary HL7 Abnormal Flags

Column Name	Is Nullable	Data Type	Description
Code	YES	STRING	A unique code representing an HL7 abnormal flag.
Description	YES	STRING	A detailed description of the HL7 abnormal flag, indicating its significance or usage context.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the abnormal flag became effective for use.
Created_User_ID	YES	STRING	The identifier of the user who created the record for the abnormal flag.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the abnormal flag record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the abnormal flag record.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the abnormal flag record was last updated.

Dictionary Healthcare Type

Column Name	Is Nullable	Data Type	Description
Healthcare_Type	YES	STRING	Type of healthcare.
Healthcare_Type_Description	YES	STRING	Description of the healthcare type.
Active	YES	STRING	Indicates if the healthcare type is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp when the healthcare type became effective.
Created_User_ID	YES	STRING	Identifier for the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp when the record was created.
Last_Modified_User_ID	YES	STRING	Identifier for the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Holiday Schedule

Column Name	Is Nullable	Data Type	Description
Holiday_Date	YES	STRING	Date of a recognized holiday or observance.
Holiday_Description	YES	STRING	Description of the holiday or observance.

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicator whether an item is currently active or inactive.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary InterQualConnect Review Criteria Met

Column Name	Is Nullable	Data Type	Description
Criteria_Met	YES	STRING	Indicator whether specific criteria have been met.
Criteria_Met_Description	YES	STRING	Detailed description of the criteria met.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary InterQualConnect Review Outcome

Column Name	Is Nullable	Data Type	Description
Outcome	YES	STRING	Result or consequence of an action or process (e.g., successful enrollment, treatment outcome).
Outcome_Description	YES	STRING	Additional information explaining the outcome.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.

Column Name	Is Nullable	Data Type	Description
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary InterQualConnect Review Product

Column Name	Is Nullable	Data Type	Description
Product	YES	STRING	Specific item, service, or offering (e.g., insurance plan, medication).
Product_Description	YES	STRING	Detailed description of the product.
Product_Type	YES	STRING	Type or category of product (e.g., health insurance, financial product).
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary iExchange Group

Column Name	Is Nullable	Data Type	Description
iExchange_Group_ID	YES	STRING	Identifier for a specific group within an exchange system.
iExchange_Group_Name	YES	STRING	Name or label for the iExchange group.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Interaction Disposition

Column Name	Is Nullable	Data Type	Description
Interaction_Disposition	YES	STRING	Outcome or decision related to a specific interaction (e.g., call resolved, escalation).
Interaction_Disposition_Description	YES	STRING	Detailed description of the interaction disposition.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Interaction Topic

Column Name	Is Nullable	Data Type	Description
Code	YES	STRING	Short alphanumeric identifier or reference for an item (e.g., product code, category code).
Description	YES	STRING	Detailed explanation or label of the code.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Interaction Topic Resolution

Column Name	Is Nullable	Data Type	Description
Resolution	YES	STRING	Outcome or solution resulting from addressing an issue or problem (e.g., case resolved, issue closed).

Column Name	Is Nullable	Data Type	Description
Resolution_Description	YES	STRING	Additional information explaining the resolution.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Interaction Type

Column Name	Is Nullable	Data Type	Description
Interaction_Type	YES	STRING	Type or category of interaction (e.g., phone call, email, chat).
Interaction_Type_Description	YES	STRING	Explanation of the interaction type.
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Intervention

Column Name	Is Nullable	Data Type	Description
Intervention	YES	STRING	Action or measure taken to address a specific issue or problem (e.g., counseling, medication adjustment).
Intervention_Description	YES	STRING	Explanation of the intervention.
Member_Engagement	YES	STRING	Level of engagement or involvement of a member in a program or service (e.g., high, moderate, low).
Member_Engagement_Description	YES	STRING	Detailed description of the member engagement level.

Column Name	Is Nullable	Data Type	Description
Member_Engagement_Type	YES	STRING	Type or category of member engagement (e.g., proactive, reactive).
Active	YES	STRING	Indicates whether the item is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary IQC_Criteria_Met_STS_STR_Mapping

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates if the IQC criteria met to review outcome status/reason mapping is active.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the mapping was created.
Created_User_ID	YES	STRING	The ID of the user who created the mapping.
Criteria_Met_Code	YES	STRING	The code of the criteria met.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp from which the mapping is effective.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the mapping was last modified.
Last_Modified_User_ID	YES	STRING	The ID of the user who last modified the mapping.
Review_Outcome_Status_Code	YES	STRING	The code of the review outcome status.
Review_Outcome_Status_Reason	YES	STRING	The code of the review outcome status reason.

Dictionary Journey Outreach Engagement

Column Name	Is Nullable	Data Type	Description
Outreach_Engagement_Code	YES	STRING	Code or identifier representing a specific type of outreach or engagement activity in a patient journey.
Outreach_Engagement_Description	YES	STRING	Detailed explanation of the outreach or engagement activity.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating when this outreach/engagement definition becomes effective.

Column Name	Is Nullable	Data Type	Description
Created_User_ID	YES	STRING	Identifier of the user who created this outreach/engagement entry.
Created_Timestamp	YES	TIMESTAMP	Timestamp of when this outreach/engagement entry was created.
Last_Modified_User_ID	YES	STRING	Identifier of the user who last modified this outreach/engagement entry.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp of the last modification to this outreach/engagement entry.

Dictionary LOINC

Column Name	Is Nullable	Data Type	Description
LOINC_Number	YES	STRING	The unique identifier for a LOINC code, representing a specific laboratory or clinical observation.
Component	YES	STRING	The component or analyte that the LOINC code refers to, such as "Glucose" or "Cholesterol."
Class_Code	YES	STRING	The classification code for the LOINC term, grouping similar tests or observations.
Class_Type	YES	STRING	The type of class for the LOINC code, indicating its category in the hierarchy.
Short_Name	YES	STRING	A concise name for the LOINC code, commonly used in reporting or display systems.
Long_Common_Name	YES	STRING	A detailed, standardized name for the LOINC code, providing clarity on its meaning and use.
Visibility_Level	YES	STRING	The visibility level of the LOINC code, indicating its relevance or accessibility in specific contexts.
Code_Start	YES	STRING	The starting range for a code set if the LOINC code is part of a series or range.
Code_End	YES	STRING	The ending range for a code set if the LOINC code is part of a series or range.
Status	YES	STRING	The current status of the LOINC code, such as "Active" or "Deprecated."
Common_Test	YES	STRING	Indicates whether the LOINC code represents a commonly performed test.
Property	YES	STRING	The property of the observation, such as "Mass" or "Concentration," represented by the LOINC code.
Time	YES	STRING	The time aspect of the observation, such as "Point in time" or "24 hours."
System	YES	STRING	The system or specimen associated with the LOINC code, such as "Blood" or "Urine."
Scale	YES	STRING	The scale of measurement, such as "Quantitative" or "Ordinal."
Method	YES	STRING	The method used for the observation, if applicable, such as "EIA" or "Immunoassay."
Code_Set	YES	STRING	The set to which the LOINC code belongs, for grouping and categorization purposes.
Code_Version	YES	STRING	The version of the LOINC code, representing updates or revisions.

Column Name	Is Nullable	Data Type	Description
Active	YES	STRING	Indicates whether the LOINC code is currently active or inactive.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp when the LOINC code became effective.
Created_User_ID	YES	STRING	The identifier of the user who created the LOINC code record.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the LOINC code record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the LOINC code record.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp when the LOINC code record was last updated.

Dictionary LOINC Class

Column Name	Is Nullable	Data Type	Description
Class_Code	YES	STRING	The unique identifier for the LOINC class, representing a grouping of related laboratory or clinical tests.
Class_Type_Name	YES	STRING	The name of the LOINC class type, categorizing the nature of tests or observations within the class.
Class_Type_ID	YES	STRING	The identifier for the type of class, enabling differentiation between similar categories.
Class_Description	YES	STRING	A detailed description of the LOINC class, providing context and purpose for the grouped observations.
Class_Start	YES	STRING	The starting point or initial version of the LOINC class, if applicable.
Class_End	YES	STRING	The ending point or final version of the LOINC class, if applicable.
Code_Set	YES	STRING	The set of codes associated with the LOINC class, providing a reference for classification.
Code_Version	YES	STRING	The version of the code set, reflecting updates or revisions to the LOINC class.
Active	YES	STRING	Indicates whether the LOINC class is currently active (TRUE) or inactive (FALSE).
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the LOINC class became effective.
Created_User_ID	YES	STRING	The identifier of the user who created the LOINC class record.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the LOINC class record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the LOINC class record.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp of the last modification made to the LOINC class record.

Dictionary Lab_Result_Interpretation

Column Name	Is Nullable	Data Type	Description
Input	YES	STRING	The input value or code representing a specific laboratory result interpretation.
Output	YES	STRING	The output value or translated result corresponding to the input, providing standardized interpretation.
Effective_From_Timestamp	YES	TIMESTAMP	The timestamp indicating when the interpretation mapping became effective.
Created_User_ID	YES	STRING	The identifier of the user who created the interpretation mapping record.
Created_Timestamp	YES	TIMESTAMP	The timestamp when the interpretation mapping record was created.
Last_Modified_User_ID	YES	STRING	The identifier of the user who last modified the interpretation mapping record.
Last_Modified_Timestamp	YES	TIMESTAMP	The timestamp of the last modification made to the interpretation mapping record.

Dictionary Language

Column Name	Is Nullable	Data Type	Description
Language	YES	STRING	Specific language used for communication or documentation (e.g., English, Spanish).
Language_Description	YES	STRING	Explanation of the language.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Length Of Stay Unit Of Measure

Column Name	Is Nullable	Data Type	Description
Length_Of_Stay_Unit_Of_Measure	YES	STRING	Unit of measurement for length of stay (e.g., days, hours).
Length_Of_Stay_Unit_Of_Measure_Description	YES	STRING	Detailed description of the length of stay unit of measure.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.

Column Name	Is Nullable	Data Type	Description
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Letter Action

Column Name	Is Nullable	Data Type	Description
Letter_Action	YES	STRING	Action associated with a letter (e.g., send, archive, review).
Letter_Action_Description	YES	STRING	Explanation of the letter action.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Letter Class

Column Name	Is Nullable	Data Type	Description
Letter_Class	YES	STRING	Classification or category of letters (e.g., medical, administrative).
Letter_Class_Description	YES	STRING	Detailed description of the letter class.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Letter Status

Column Name	Is Nullable	Data Type	Description
Letter_Status	YES	STRING	Current status of a letter (e.g., drafted, sent, received).
Letter_Status_Description	YES	STRING	Additional information explaining the letter status.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Letter Type

Column Name	Is Nullable	Data Type	Description
Letter_Type	YES	STRING	Type or purpose of a letter (e.g., appointment reminder, denial notice).
Letter_Type_Description	YES	STRING	Explanation of the letter type.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Line Of Business

Column Name	Is Nullable	Data Type	Description
Line_Of_Business	YES	STRING	Specific business line or area (e.g., health insurance, dental coverage).
Line_Of_Business_Description	YES	STRING	Detailed description of the line of business.
Active	YES	STRING	Indicates whether the item is active.

Column Name	Is Nullable	Data Type	Description
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp indicating the start of the effective period.
Created_User_ID	YES	STRING	User ID of the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was created.
Last_Modified_User_ID	YES	STRING	User ID of the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp indicating when the record was last modified.

Dictionary Link

Column Name	Is Nullable	Data Type	Description
Code	YES	STRING	Code for the link.
Link_Name	YES	STRING	Name of the link.
Link_URL	YES	STRING	URL of the link.
Link_Type	YES	STRING	Type of the link.
Active	YES	STRING	Indicates if the link is active.
Effective_From_Timestamp	YES	TIMESTAMP	Timestamp when the link became effective.
Created_User_ID	YES	STRING	Identifier for the user who created the record.
Created_Timestamp	YES	TIMESTAMP	Timestamp when the record was created.
Last_Modified_User_ID	YES	STRING	Identifier for the user who last modified the record.
Last_Modified_Timestamp	YES	TIMESTAMP	Timestamp when the record was last modified.
